Compatibility Matrix for Get-Resources 4.1

Click on the link below to jump to the product compatibility matrix of your choice.

Application Servers

Application Server	Operating System
Tomcat 4.1 (minimum 4.1.24)	Windows 2000 sp 2 AIX 5.1, 5.2 Solaris 2.6, 7, 8, 9 Redhat Linux 7.3, 8.0, 9.0
WebSphere Application Server 4.0, 5.0	Windows 2000 sp 2 AIX 5.1, 5.2 Solaris 2.6, 7, 8, 9 Redhat Linux 7.3, 8.0, 9.0
WebLogic 6.1 Sp 4	Windows 2000 sp 2 AIX 5.1, 5.2 Solaris 2.6, 7, 8, 9 Redhat Linux 7.3, 8.0, 9.0

Web Servers

Web Server	Operating System
IIS 5.0 for Win 2000	Windows 2000 sp 2
Apache 1.3.19 - if using AIX Apache 2.0 (minimum 2.0.43) - if using Windows, Solaris or Linux	Windows 2000 sp 2 AIX 5.1, 5.2 Solaris 2.6, 7, 8, 9 Redhat Linux 7.3, 8.0, 9.0
iPlanet 4.1	Solaris 2.6, 7, 8, 9 Windows 2000 sp 2

SunONE 6.0	Solaris 2.6, 7, 8, 9 Windows 2000 sp 2
IBM HTTP Server (minimum 1.3.19)	Windows 2000 sp 2 AIX 5.1, 5.2 Solaris 2.6, 7, 8, 9 Redhat Linux 7.3, 8.0, 9.0

Portal Servers

Portal Server	Application Server
WebSphere Portal Server 4.1, 4.2	WebSphere Application Server 4.0

Browsers

Browser	Operating System
Netscape 6.2 and 7.0	Windows 2000 sp 2 Windows XP Windows 98 Redhat Linux 7.3, 8.0, 9.0
Internet Explorer 6.0	Windows 2000 sp 2 Windows XP Windows 98
Mozilla 1.2, 1.3, 1.4	Windows 2000 sp 2 Windows XP Windows 98 Solaris 2.6, 7, 8, 9

Language Support

L1 = English, French, Italian and German
(Language packs for French, Italian and German available within 90 days after release)

L2 = ISO-8859-1 (Catalan, Danish, Spanish, Estonian, Finnish, Icelandic, Dutch, Norwegian, Portuguese, Swedish)

For the following languages you must have the codepage aware version of the scj.dll.
To obtain this "dll" see the Peregrine Knowledgebase and search on "S95-40X-094A".
In order to have a successful search you must include the quotation marks.

L3 = Japanese

L4 = Polish

L5 = ISO-8859-2 (Czech, Croatian, Hungarian, Lithuanian, Latvian, Romanian, Slovak, Slovenian, Albanian)

L6 = ISO-8859-5 (Byelorussian, Bulgarian, Macedonian, Russian, Serbo-Croatian, Serbian {Cyrillic}, Ukrainian)

L7 = ISO-8859-7 (Greek)

L8 = ISO-8859-9 (Turkish)

Language Platform Support

Platform	Level
Windows 2000	L1, L2, L3, L4, L5, L6, L7, L8
AIX, Solaris, Linux	L1, L2

Localization Notes

Abbreviation	Description
L1	Languages to which the application is translated and tested (language packs available within 90 days after release)
L2	Languages that have had limited testing
L3-L10	Languages that are not part of the standard testing process

While a server may be configured to support multiple languages concurrently, the set of configured languages must be consistent in character set, which must match the default character encoding of the operating system. For example, L3 must be hosted on a Japanese version of Windows 2000. L1 and L2 use the same character set (ISO-8859-1), as do L4 & L5 (ISO-8859-2).

Peregrine Cross-Compatibility

Product	Version
ServiceCenter - Request module	5.1, 5.0, 4.1, 4.0
AssetCenter Portfolio module	4.3, 4.2, 4.1
AssetCenter Procurement module	4.3, 4.2, 4.1, 3.6
Get-Answers	4.1
Get-Services	4.1
Peregrine Mobile	4.0.1

AC Web	4.3.1

Dropped Support

Area	Product
Application Server	JRun
