

HP Software Integrations

implemented through the Performance Insight Report Packs

Report Pack	Report Pack Version	OpenView Product	Supported OV Product Version(s)	SPI (if applicable)	SPI version
System Resources		HPOA	8.x		
		HPPA	4.x		
Internet Services		HPIS	5.2 (Windows version only)		
Operations		HPOu	7.1, 7.5, 8.x		
Application Servers		HPOu	8.1	Web Logic, Web Sphere	A.09.10
		HPOw	7.21	Web Logic, Web Sphere	B.02.09
Database		HPOu	8.1	DBSPI	A.09.10
		HPOw	7.2	DBSPI	B.09.01
Network Node Manager Events RP		HP NNM	7.5x		
MPLS VPN	3.1	HP NNM	7.51		
Cisco IP Telephony	1.0, 1.1, 2.0, 3.0	HP NNM	7.51		
Service Desk Helpdesk Management		HP SD	4.5, 5.x NOTE: SD 5.0 is not supported on Linux because we use a datapipe utility provided by SD, and SD 5.0 is not supported on Linux		
Service Desk Change Management		HP SD	4.5, 5.x NOTE: SD 5.0 is not supported on Linux because we use a datapipe utility provided by SD, and SD 5.0 is not supported on Linux		
Service Desk Service Level Management		HP SD	5.x NOTE: SD 5.0 is not supported on Linux because we use a datapipe utility provided by SD, and SD 5.0 is not supported on Linux		

Network Node Manager and Performance Insight Integration Module

The NNM/PI integration is installed with the core PI product and no longer requires an OVPI report pack installation. MPLS & IPT solution provides out of the box SPI & RP integration on top of NNM/PI integration.

The integration using this implementation model is available with the following versions of OVPI/RPs and NNM/SPIs:

PI /RP	NNM/SPI
PI 5.2	NNM 7.51
PI 5.1 SP4	NNM 7.5
MPLS RP 3.x	MPLS SPI 3.x
IPT CDR RP3.0	Cisco IPT SPI 1.1

OpenView Product Acronym Key

HPOA	HP Operations Agent Software
HPPA	HP Performance Agent Software
HPIS	HP Internet Services Software
HPOu	HP Operations Software for Unix
HPOw	HP Operations Software for Windows
HP NNM	HP Network Node Manager Software
HP SD	HP Service Desk Software
