Documentation Updates

About this document:

- Documented Product: Release Control, Software Version number: 9.50
- Document Release Date: October 2016
- Software Release Date: October 2016

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

 https://softwaresupport.hp.com/group/softwaresupport/support-matrices

This site requires that you register for an HP Passport and to sign in. To register for an HP Passport ID, click **Register** on the HP Support site or click **Create an Account** on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HPE Software Support site at: https://softwaresupport.hpe.com/.

Most of the support areas require that you register as an HP Passport user and to sign in. Many also require a support contract. To register for an HP Passport ID, click **Register** on the HPE Support site or click **Create an Account** on the HP Passport login page.

To find more information about access levels, go to: https://softwaresupport.hpe.com/web/softwaresupport/access-levels.

HPE Software Solutions Now accesses the HPSW Solution and Integration Portal website. This site enables you to explore HPE Product Solutions to meet your business needs, includes a full list of Integrations between HPE Products, as well as a listing of ITIL Processes. The URL for this website is https://softwaresupport.hpe.com/km/KM01702731.

Contents

Compatibility

Before you install HPE Release Control, review the information in this section, including the system requirements.

Server System Requirements

The following table describes the system requirements for the HPE Release Control server:

Operating System	Windows Server 2012, 2012 R2 Red Hat Enterprise Linux 6.x (64-bit), 7.x (64-bit)
Database[1]	Microsoft SQL Server 2012, 2014 Oracle Database 12c
HPE Universal CMDB	10.x (Typical CMDB Installation) For a full list of system requirements for the version above, refer to the HPE Universal CMDB documentation.
Web Server	Apache HTTP Server 2.2, 2.4
JRE	OpenJDK 8 (by default) Oracle JRE 8
Virtualization Support	VMware ESX Server 5.x, 6.x Microsoft Hyper-V 2012, 2012 R2 KVM (Kernel version 3.10.0 or later)

[1]For better performance and stronger security, we recommend that you use the Enterprise edition of the databases.

Client Requirements

The following table describes the client requirements for viewing HPE Release Control:

Browser	Microsoft Internet Explorer 11[1]

	The latest Mozilla FireFox (Extended Support Releases are recommended)[2]
Flash Player Browser Plugin	Flash Player 10.3 or a later version[3]

[1]It is recommended to set Internet Explorer to check for newer versions of stored pages every time you visit the page.

[2]Release Control does not support the import adapter operation on Firefox.

[3]You must install and enable Flash Player in browsers before using Release Control.

Change log

The table below lists the changes to this document since it was first released for version 9.50.

Document Date (product version)	Change
October 2016	Initial release.

Send documentation feedback

If you have comments about this document, you can contact the documentation team by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

Feedback on Support Matrix (Release Control 9.50)

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to ovdoc-ITSM@hpe.com.

We appreciate your feedback!
