## Documentation updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To verify you are using the most recent edition of a document, go to <https://softwaresupport.softwaregrp.com/group/softwaresupport/search-result?doctype=manuals?keyword=>.

This site requires that you register for a Passport and sign in. To register for a Passport ID, go to <https://cf.passport.softwaregrp.com/hppcf/login.do>.

Or click the **Register** link at the top of the Software Support page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your sales representative for details.

## Support

Visit the Software Support Online web site at <https://softwaresupport.softwaregrp.com/>.

This web site provides contact information and details about the products, services, and support that offers.

online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Manage software licenses
- Download new versions of software or software patches
- Access product documentation
- Manage support contracts
- Look up support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require you to register as a Passport user and sign in. Many also require a support contract.

To register for a Passport ID, go to <https://cf.passport.softwaregrp.com/hppcf/login.do>.

# VM Explorer Release Notes

**Software version:** 7.1

**Publication date:** June 2018

This document is an overview of the changes made to VM Explorer for the 7.1 release. For more information about which VM Explorer version is best suited to your needs, consult our website, at <https://software.microfocus.com/en-us/products/vm-server-backup/overview>.

## New Features in This Release

VM Explorer 7.1 provides you with a number of enhancements and fixes designed to help you expand your storage capabilities and better perform your tasks.

The following enhancements are supported only by using 7.1.3 patch. It includes all fixes and enhancements of 7.1.2 release:

- Support of vSphere 7.0 (VMWare ESXi 7.0, vCenter 7.0, vCSA 7.0)
- Support of Hyper-V 2019 on Windows server 2019
- Support of secure SMTP with TLS 1.2 to send out email notifications

The enhancements in VM Explorer 7.1.2 include support for the following:

- VMWare vSphere 6.7
- 3PAR 3.3.1

## Fixed Defects in This Release

The following defect has been resolved in the VM Explorer 7.1.2 release. For more information about fixed defects, contact your Support representative directly.

---

**QCCR number:** QCIM2A78860

**Title:** Browsing exchange database files was not possible.

**Description:** During the individual recovery of exchange items, browsing the exchange database items failed with exception "Exception in AuthenticateAndGetJobResult: Unable to cast object of type 'System.Collections.Generic.List'. The algorithm is updated to browse and read the database file items.

---

## Obsolescence Plans
