IIS	IIS	4, 5, 6	Windows	Please refer to Windows OS SPI Support Matrix, Managed Applications Section for IIS Support. IIS support is not included in Webserver SPI management from version A.04.10.							

Footnotes

1) What means EOS of the underlying OS for the OV component?

If the underlying operating system(s), adjacent/integrated application(s) or version(s) become unsupported by its developer, support for the affected HP OpenView product/product versions will immediately be limited to Self-Help Support and Telephone Support associated with questions concerning a product's/product version's functionality and/or interoperability in line with the said product's/product version's original parameters/requirements at the time of release. Any product updates and/or fixes will be limited to those already available. No additional updates, patches or fixes will be engineered.
