Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
Device or *Dev*	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
E-LTU and *E-Media*	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Internal Use	means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	means License To Use.
Operations Analytics Node or *OA Node*	means a real or virtual computer system, or a device (for example printer, router or bridge) in a network.
Operations Management Node or *OM Node*	means a real or virtual computer system, or a device (for example printer, router or bridge) in a network.
Use	means to install, store, load, execute and display one copy of the software.
