Operations Manager for UNIX integration

New features

Version A.06.10 of the HP Data Protector integration for HP Operations Manager (UNIX) has the following new features:

- Support for HP Data Protector 6.1. This includes support for the following additional Cell Manager platforms:
  - HP-UX 11.31 (PA and IA)
  - Windows 2003 (64–bit)
  - RedHat Enterprise Linux (RHEL) 4.0, 5.0 (64-bit)
- Support for new versions of Performance Agent (PA) for HP-UX, Solaris and SUSE Linux Enterprise Server 9 platforms. The new versions of PA are:
  - C.04.70.00 for HP-UX
  - C.04.70.00 for Solaris
  - C.04.70.00 for SUSE Linux
- DP integration with HP Performance Manager (PM). Users can view the following graphs from the PM browser:
  - Transactions
  - Baselines
  - Disk Agent
  - Media Agent
  - CPU

Recognized issues and workarounds

There are no recognized issues and workarounds in version A.06.10 of the HP Data Protector integration for Operations Manager (UNIX).

Patches and fixes in this version

The following issues are resolved in version A.06.10 of the HP Data Protector integration for Operations Manager (UNIX):

- DP_CheckLongBackUp_UX Policy does not have bkupgrp in the message ID. (*Change Request:* QXCR1000426170)
  - The message ID has been modified in the template.
- DP-SPI does not count the UIproxy service. (*Change Request:* QXCR1000789782)
  - The monitor has been modified so that it monitors the UIProxy service if Data Protector's version is 6.1.

Software availability in native languages

Version A.06.10 of the HP Data Protector integration for Operations Manager UNIX is internationalized. This means that you can install the integration and it will work correctly on, for example, Japanese systems, but the messages will appear in English.

Operations Manager for Windows integration

New features

Version A.06.10 of the HP Data Protector integration for Operations Manager (Windows) has the following new features:

- Support for HP Storage Data Protector 6.1. This includes support for the following additional Cell Manager platforms:
  - HP-UX 11.31 (PA and IA)
  - Windows 2003 (64–bit)
  - RedHat Enterprise Linux (RHEL) 4.0, 5.0 (64-bit)
- Support for clustered Operations Manager (Windows) 8 management servers.
- Support for automatic deployment of Instrumentation.
- Support for new versions of Performance Agent (PA) for HP-UX, Solaris and SUSE Linux Enterprise Server 9 platforms. The new versions of PA are:
  - C.04.70.00 for HP-UX
  - C.04.70.00 for Solaris
  - C.04.70.00 for SUSE Linux
- DP integration with HP Performance Manager (PM). Users can view the following graphs from the PM browser:
  - Transactions
  - Baselines
  - Disk Agent

- Media Agent
- CPU

Recognized issues and workarounds

There are no recognized issues in version A.06.10 of the HP Data Protector integration for Operations Manager (Windows).

Patches and fixes in this version

The following issues are resolved in version A.06.10 of the HP Data Protector integration for Operations Manager (Windows):

- DP-SPI does not count the UIproxy service (*Change Request*: QXCR1000789782)
  - The monitor has been modified so that it monitors the UIProxy service if Data Protector's version is 6.1.
- DPSPI Service Tree issue (*Change Request*: QXCR100039346)
  - The DP_CheckLongBackup_NT policy has been modified to map the long back-up related messages to the correct node (backupgroup) in the application service tree.

Software availability in native languages

Version A.06.10 of the HP Data Protector integration for Operations Manager (Windows) 7.5 is internationalized. This means that you can install the integration and it will work correctly on, for example, Japanese systems, but the messages will appear in English.

HP Service Information Portal integration

New features

Version A.06.10 of the HP Data Protector Integration for HP Service Information Portal (SIP) has the following new features:

- Support for HP Data Protector 6.1.

Recognized issues and workarounds

There are no recognized issues in the HP SIP integration, version A.06.10.

Patches and fixes in this version

There are no patches or fixes in the HP SIP integration, version A.06.10.

Software availability in native languages

The HP SIP integration is available in the English language only.

HP Reporter integration

New features

Version A.06.10 of the HP Data Protector Integration for HP Reporter has the following new features:

- Support for HP Data Protector 6.1.
- Support for HP Reporter 3.7 and 3.8.

Recognized issues and workarounds

There are no recognized issues in the HP Reporter integration, version A.06.10.

Patches and fixes in this version

There are no patches or fixes in the HP Reporter integration, version A.06.10.

Software availability in native languages

The HP Reporter integration is available in the English language only.

HP Performance Agent integration

New features

Version A.06.10 of the HP Data Protector integration for HP Performance Agent (PA) has the following new features:

- Support for HP Data Protector 6.1.

- Support for new versions of Performance Agent for HP-UX, Solaris and SUSE Linux Enterprise Server 9 platforms. The new versions of PA are:
  - C.04.70.00 for HP-UX
  - C.04.70.00 for Solaris
  - C.04.70.00 for SUSE Linux

Recognized issues and workarounds

There are no recognized issues and workarounds in version A.06.10 of the HP Performance Agent integration.

Patches and fixes in this version

There are no patches or fixes in version A.06.10 of the HP Performance Agent integration.

Software availability in native languages

The HP Performance Agent integration is available in the English language only.

HP Performance Manager integration

New features

Version A.06.10 of the HP Data Protector integration for HP Performance Manager (PM) has the following new features:

- Support for HP Data Protector 6.1.
- Support for HP Performance Manager 8.0.
- Templates to view the Data Protector related data. Users can view the following graphs from the PM browser:
  - Transactions
  - Baselines
  - Disk Agent
  - Media Agent
  - CPU

Recognized issues and workarounds

There are no recognized issues and workarounds in version A.06.10 of the HP Performance Manager integration.

Patches and fixes in this version

There are no patches or fixes in version A.06.10 of the HP Performance Manager integration.

Software availability in native languages

The HP Performance Manager integration is available in the English language only.
