Quick Start Installation Instructions

Before installing the NNM iSPI for Performance for the first time, or upgrading from version 8.01 to 8.10, follow these steps:

1   On the product media (DVD-ROM or electronic download), go to the top-level or root directory.

2   Read the installation guide by opening this file:

    install-guide_en.pdf

3   Read the release notes by opening this file:

    releasenotes_en.html

4   Read the support matrix by opening this file:

    supportmatrix_en.html

5   Using the information in these documents, install the iSPI.

IMPORTANT: For the most up-to-date versions of all documents listed above, go to: **http://20230.www2.hp.com/selfsolve/manuals**

Chapter 1 of the installation guide includes information about iSPI extension packs and the reports in each pack. For additional information about the Performance SPI, including administration, troubleshooting, and details about each report, see online help.

Support

You can visit the HP Software Support web site at:

www.hp.com/go/hpsoftwaresupport

HP Software online support provides an efficient way to access interactive technical support tools. As a valued support customer, you can benefit by using the support site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage HP support contracts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many areas also require a support contract.

To find more information about access levels, go to:

www.hp.com/go/hpsoftwaresupport/new_access_levels

To register for an HP Passport ID, go to:

www.hp.com/go/hpsoftwaresupport/passport-registration
