

Additional License Authorizations

For HP IT Performance Suite Experience software products

The software described in this Additional License Authorization (“ALA”) is governed by the agreement set forth on the quote for the order referencing this software. The terms of this ALA shall govern delivery of the software and specifically take precedence over any different terms in such agreement to the extent of a conflict.

Product use authorizations

This document provides Additional License Authorizations for the following software products in the IT Performance Suite Experience product family of HP’s IT Performance Suite software:

Products

HP Anywhere

HP Enterprise Collaboration

HP IT Executive Scorecard

Definitions

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement.

Term	Definition
<i>Application Instance or AppInstance</i>	<p>means a monitored environment running an instance of an application</p> <ul style="list-style-type: none"> For .NET based application, AppInstance is one windows process that runs .net (one worker processes). For Citrix, AppInstance is any monitored XenApp, XenServer, XenDesktop, Web Interface, License Server, Provisioning Services, or Secure Gateway hosted on one hostname. For DB2 databases, an AppInstance is one DB2 Database Instance as identified by a DB2 Instance User on a given system. For EMC Documentum, AppInstance is any monitored Content Server, Index Server, xPlore Indexing Server, Web Based Applications (WebTop, DA, DAM), Web Content Publishing Services (SCS, IDS), Distributed Content Services (BOCS, DMS), or Content Transformation Services (DTS, ADTS) hosted on one hostname. For Java based applications, AppInstance is one JVM. For Microsoft® Enterprise Servers (e.g., Exchange, Active Directory, Office Communications Server, Sharepoint, Biztalk, ISA etc.) AppInstance is any monitored installation of any of the Servers. For Microsoft SQL Server, AppInstance is one SQL Server service with its own port, logins and set of system and user databases. For an Oracle® database, AppInstance is one SID (Oracle system ID) in a database environment, including the RDBMS software, table structure, stored procedures and other functionality. For PeopleTools servers, an AppInstance is one of Application Server, Batch Server (Process Scheduler), Database Server, Web Server. For SAP Netweaver ABAP stack, AppInstance is one Dialog or Central Instance. For Netweaver Java stack, AppInstance is one JVM. Technically, for SAP Netweaver AppInstance is the unique combination of the hostname, System ID of the SAP system and System Number of the SAP system (two-digit numeric value) to identify an instance. For Siebel, AppInstance is one database instance, one application server or one web server. For Siebel CRM, AppInstance is any monitored Siebel application server, Gateway name server, web server with Web Server Extension, Siebel Analytics, or Oracle Business Intelligence services hosted on one hostname. For Sybase and Informix Server, AppInstance is one Server with its own logins and set of system and user databases. For Tuxedo servers, AppInstance is one Tuxedo instance. For Web Application Servers, AppInstance is one Server that runs on a Java Virtual Machine (JVM) and has its own configuration. For WMQ AppInstance is one MQ Queue Manager instance. For CICS and IMS applications, AppInstance is one CICS/IMS region that the monitored application (or part of it) is being hosted in.
<i>Device or Dev</i>	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>EC Adapter</i>	means an integration adapter for HP Enterprise Collaboration that allows HP Enterprise Collaboration users to attach application objects to an HP Enterprise Collaboration conversation.
<i>Foundation</i>	means the server side component of software that is required in order to get an operational Implementation as specified in the Software specific license terms below
<i>Implementation</i>	means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the software.
<i>Instance</i>	means each Implementation of the application installed on a Server.
<i>Internal Use</i>	means access and Use of the software for purposes of supporting your internal operations or functions.
<i>IT Employees</i>	means those personnel employed by you within your IT department.
<i>IT Headcount</i>	means one user employed or contracted by your IT department.

Term	Definition
<i>LTU</i>	means License To Use.
<i>Named User or Nmd User</i>	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
<i>Use</i>	means to install, store, load, execute and display one copy of the software.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by this additional license authorization (as listed on the first page under Product use authorizations) and not covered in this section do not have software specific license terms.

HP Anywhere

HP Anywhere is licensed by 10 Named Users.

HP Enterprise Collaboration

The HP Enterprise Collaboration Foundation license entitles to the connection of HP Enterprise Collaboration to a single Application Instance. The HP Enterprise Collaboration Connector license entitles to the connection of HP Enterprise Collaboration to one additional application for the purpose of cross-application collaboration.

HP IT Executive Scorecard (previously called HP Executive Scorecard)

HP IT Executive Scorecard is licensed by Named User. HP IT Executive Scorecard includes a license to HP Anywhere limited edition software. Use of the remote access capabilities of the HP Anywhere limited edition software is restricted to the HP IT Executive Scorecard software only and cannot be used with any other HP product or third party products.

Additional license terms

Term	
A.	Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
B.	You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
C.	Unless stated otherwise, you are authorized to Use one Device at a time for your Internal Use.
