Definitions

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement.

Term	Definition
<i>ART Enterprise or ART Ent</i>	means a license which allows Unlimited users of the content within the your legal entity.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Internal Use</i>	means access and Use of the software for purposes of supporting your internal operations or functions.
<i>LTU</i>	means License To Use.
<i>Named User</i>	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
<i>Publish</i>	means to produce content in a format that can be made available for Use.
<i>Suite</i>	means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the Software Specific License Terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
<i>Unlimited or Unl</i>	means without restrictions in terms of number of systems, devices or media, depending on the context.
<i>Use</i>	means to install, store, load, execute and display one copy of the software.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by this additional license authorization (as listed on the first page under Product use authorizations) and not covered in this section do not have software specific license terms.

HP Adoption Readiness Tool Author Dev Kit

HP Adoption Readiness Tool Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the quantity of HP Adoption Readiness Tool Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The HP Adoption Readiness Tool Author Dev Kit can be used to manipulate, modify and Publish HP ART Course content purchased from HP and can also be used to create content on other topics and third-party applications.
