

Additional License Authorizations

For HP Adoption Readiness Tool software products

The software described in this Additional License Authorization (“ALA”) is governed by the agreement set forth on the quote for the order referencing this software. The terms of this ALA shall govern delivery of the software and specifically take precedence over any different terms in such agreement to the extent of a conflict.

Product use authorizations

This document provides Additional License Authorizations for the HP Adoption Readiness Tool (ART) software products which are part of the HP Education Services offering. The ART product structure changed on January 1, 2013. There are two separate ART product structures (as defined below) and mixing of ART products from the different ART product structures is not allowed.

Definitions

Capitalized terms not otherwise defined in this Additional License Authorizations document are defined in the governing agreement.

Term	Definition
<i>ART Enterprise or ART Ent</i>	means a license which allows Unlimited users of the content within your legal entity.
<i>Course</i>	means a learning module created and owned by HP
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Internal Use</i>	means access and Use of the software for purposes of supporting your internal operations or functions.
<i>LTU</i>	means License To Use.
<i>Named User</i>	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
<i>Publish</i>	means to produce content in a format that can be made available for Use.
<i>Suite</i>	means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the Software Specific License Terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
<i>Unlimited or Unl</i>	means without restrictions in terms of number of systems, devices or media, depending on the context.
<i>Use</i>	means to install, store, load, execute and display one copy of the software.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by this additional license authorization (as listed on the first page under Product use authorizations) and not covered in this section do not have software specific license terms.

HP Adoption Readiness Tool (ART) Courses

HP ART Courses as described above contain two main deliverables: Published content and source content.

- The Published content includes Course modules, simulations, documents and a website template for deployment of content to Named Users.
- The source content includes the material that was used to create the Published content.

An HP ART Course license grants the right to use the Course only in conjunction with the HP ART Named User license.

HP Adoption Readiness Tool (ART) Named Users

An HP ART Named User license allows You to a) view/read/consume Published ART content a)create, manipulate, modify and Publish the source content of the HP ART Course or a non-HP Branded course ; b) Publish additional outputs from the source content. (These outputs, which are not included in the Published source content, include test scripts, course packages for LMS upload and student guides) of the HP ART Course or a non-HP Branded course.

The quantity of HP ART Named Users purchased at a minimum must be equal to the number of users who will be viewing ART content, including developers who will customize or create content.

Other HP Adoption Readiness Tool (ART) Software

Only for those licenses previously purchased as HP ART Suite, HP ART Course Enterprise (Ent) and/or HP ART Author DevKit, the following terms apply:

HP Adoption Readiness Tool (ART) Author Dev Kit

HP Adoption Readiness Tool Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the quantity of HP Adoption Readiness Tool Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The HP Adoption Readiness Tool Author Dev Kit can be used to manipulate, modify and Publish HP ART Course content purchased from HP and can also be used to create content on other topics and third-party applications.

HP ART Enterprise Courses

HP Adoption Readiness Tool Enterprise Courses are licensed on an ART Enterprise basis. Each of these software products contain two main deliverables: published content and source content.

- The Published content includes course modules, simulations, documents and a website template for deployment of content to internal users.
- The source content includes the material that was used to create the Published content. An HP Adoption Readiness Tool Author Dev Kit is required in order to manipulate, modify and Publish the source content. With the HP Adoption Readiness Tool Author Dev Kit, additional outputs can be Published (by you) from the source content. These outputs, which are not included in the Published source content, include test scripts, course packages for LMS upload and student guides.
