Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

<http://www.hp.com/go/hpsoftwaresupport>

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

Uninstalling the HP Anywhere Server	8
Rollback from Version 10.01 to Version 10.00	10

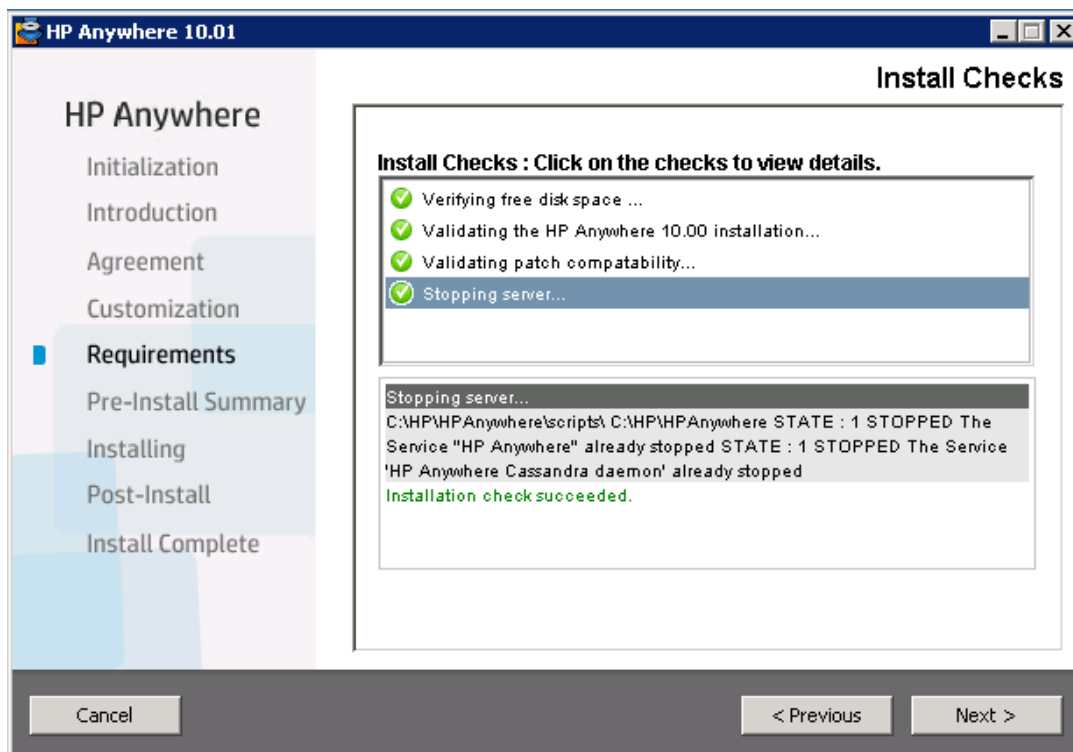

Upgrading the HP Anywhere Server to 10.01

Note: Before upgrading the HP Anywhere server, you must have the HP Anywhere 10.00 installed on your system.

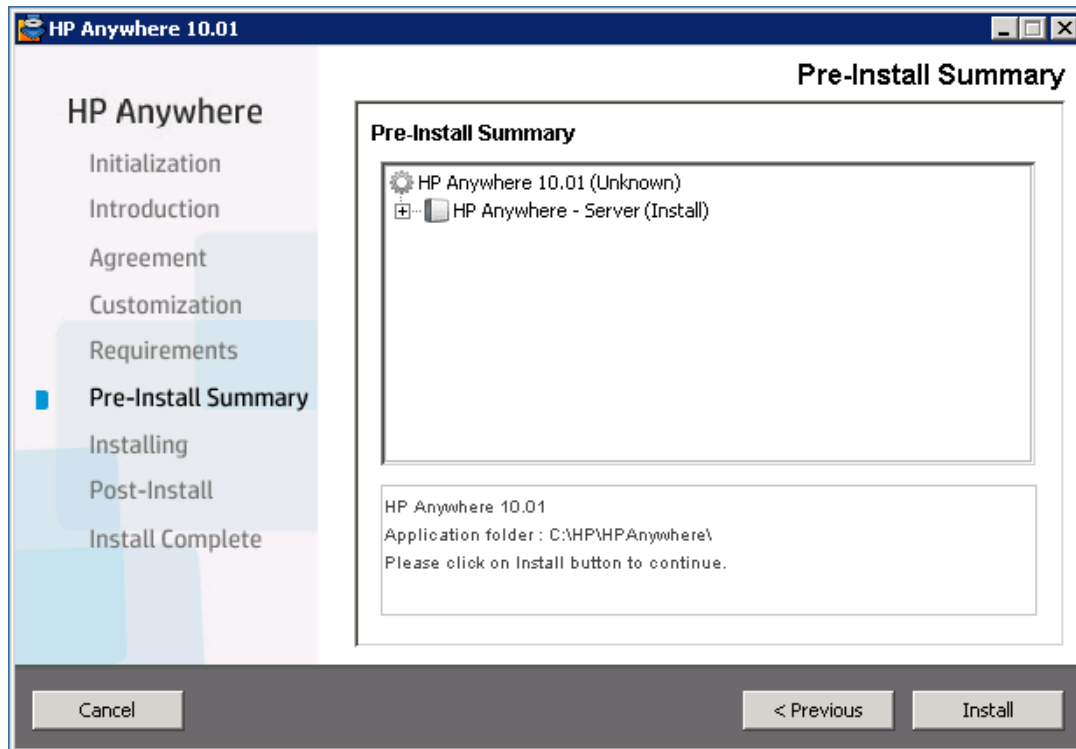

Note: You must have administrator privileges to upgrade the HP Anywhere Server.

To upgrade the HP Anywhere server:

1. Extract the installation folder (**HP_Anywhere_10.01.zip**).
2. Run **HP_Anywhere_10.01_setup.exe**.
3. In the Introduction page, click **Next**.
4. In the License Agreement page, select **I accept the terms of the License Agreement**.
5. Click **Next**. The system checks disk space and port availability.

6. In the Pre-Install Summary page, click **Install**.

HTTPS Configuration

If HP Anywhere 10.00 was configured with HTTPS, after successful installation of HP Anywhere 10.01, you must set the **forceHttps** parameter to **True** in the **<HPA HOME>\tomcat\webapps\bsf\WEB-INF\applicationContext-security.xml** file, and then restart HP Anywhere 10.01.

After the installation is completed, you can now run HP Anywhere 10.01.

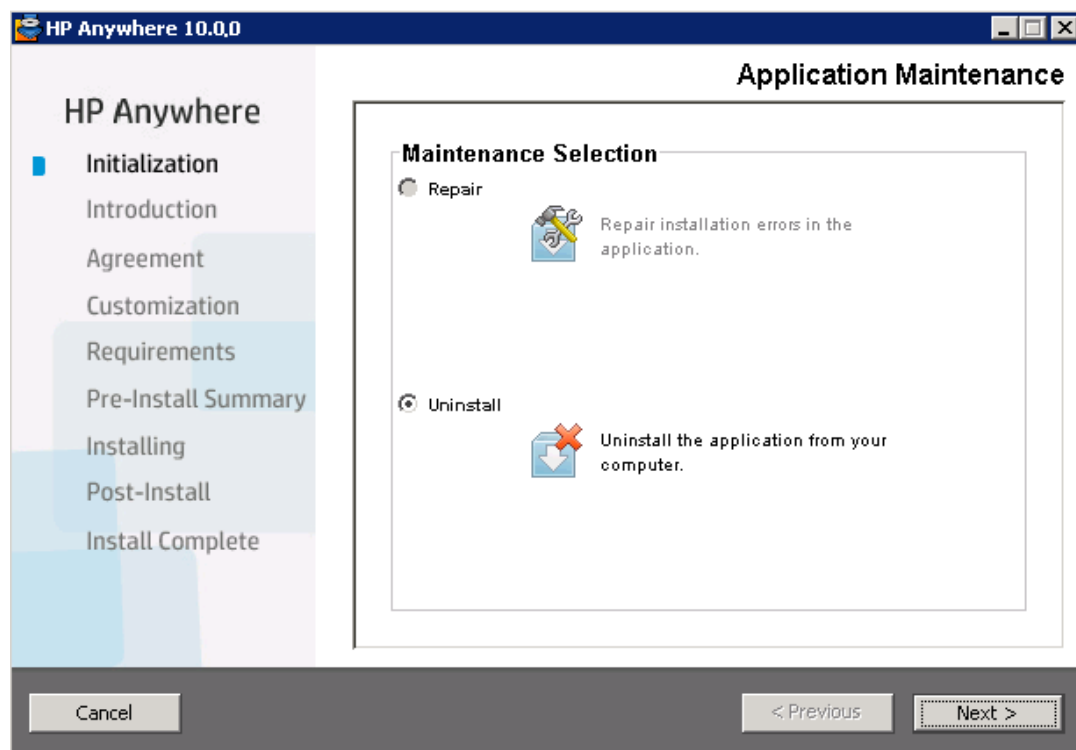

Uninstalling the HP Anywhere Server

The following procedure explains how to completely uninstall the HP Anywhere Server.

1. From the Start menu, select **Control Panel > Programs > Uninstall a Program > HP Anywhere**
or from the Start menu, select **All Programs > HP > HP Anywhere > Uninstall HP Anywhere**.

The silent uninstall process begins.

2. After the silent uninstall has completed, the Uninstall HP Anywhere wizard opens.

3.

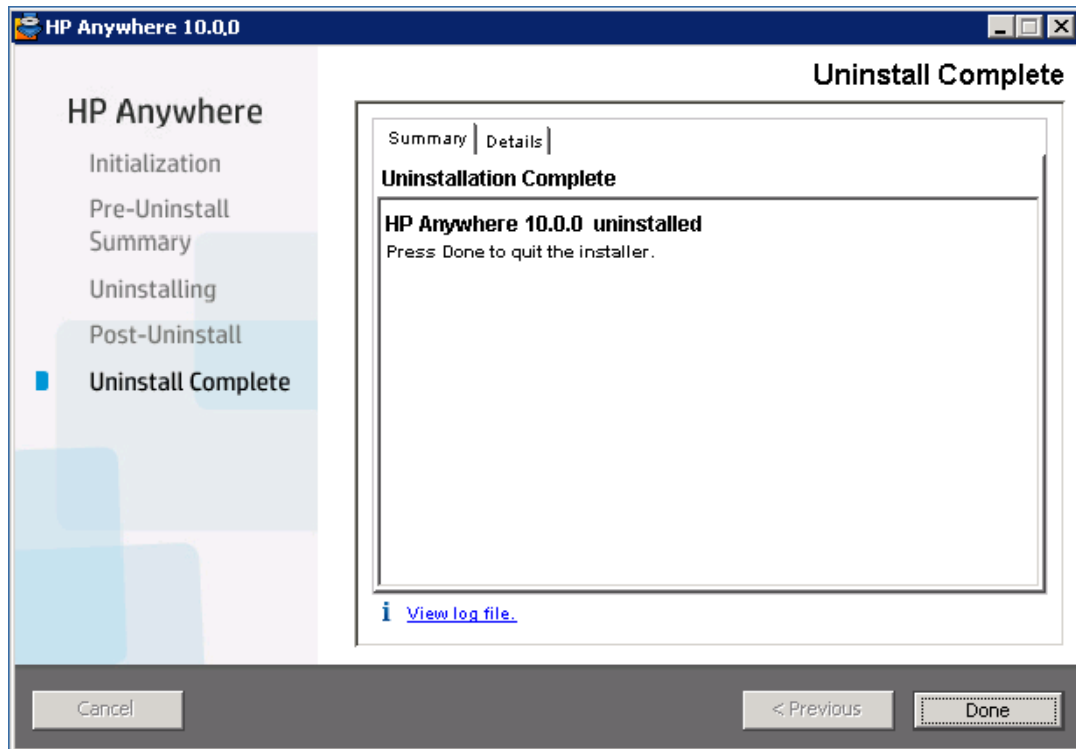

Select **Uninstall** and click **Next**.

Note: The **Repair** option is currently unavailable.

4. The wizard shows a summary of the components that will be uninstalled.

Click **Uninstall**.

5. When uninstall is complete, a confirmation message is displayed.

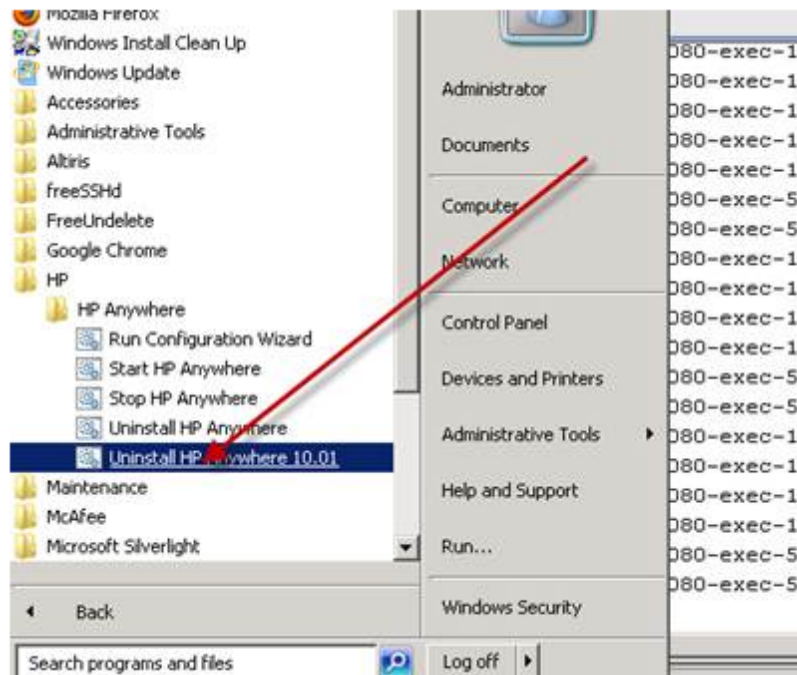

Click **Done** to complete the uninstall process.

Rollback from Version 10.01 to Version 10.00

The following procedure explains how to rollback from HP Anywhere Version 10.01 to Version 10.00.

1. From the Start menu, select **All Programs > HP > HP Anywhere > Uninstall HP Anywhere 10.01**.

2. The Uninstall wizard opens showing a summary of the components to be uninstalled.
3. Click **Uninstall**.
4. When uninstall is complete, a confirmation message is displayed.
