Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

<http://www.hp.com/go/hpsoftwaresupport>

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

Disclaimer for PDF Version of Online Help

This document is a PDF version of the online help. This PDF file is provided so you can easily print multiple topics from the help information or read the online help in PDF format.

Note: Some topics do not convert properly to PDF, causing format problems. Some elements of online help are completely removed from the PDF version. Those problem topics can be successfully printed from within the online help.

Introduction

This document provides an overview of the HP Operations Orchestration Cloud Content Pack 1.0.116 release. It contains important information that is not included in the manuals or in the online help.

This release supports the following languages:

- en - English
- fr - French
- de - German
- ja - Japanese
- es - Spanish
- zh_CN - Simplified Chinese

OO Cloud Content Pack 1.0.116 is a cumulative Content Pack.

Content Pack Integrations

The following table lists the integrations that the Cloud Content Pack supports:

Integration Name	Versions
Amazon EC2	2009-04-04, 2011-12-15
Amazon IAM	2010-05-08
Amazon Load Balancing	2011-11-25
Amazon Security Token Service	2011-06-15
Amazon S3	2006-03-01
Amazon VPC	2011-12-15
Open Stack	Diablo 2011.3, Essex 2012.1
VMware vCloud	1.0, 1.5, 5.1

What's New

- All the content packs now contain the necessary libraries and maven artifacts that were previously only in the Base content pack. Now the dependency on the Base content pack can be driven by operations, flows or configuration items that are part of Base content pack and are used in operations or flows from other content packs.

The dependency on oo-base is now only at the operation level (UUID).

- Some operations have become soft copies after applying this 10.x platform feature to all out-of-the-box content operations. If there are multiple operations using the same action only one becomes the hard copy and the rest are soft copies pointing to the selected hard copy.

Deploying the OO Cloud Content Pack

You must deploy the HP Operations Orchestration Cloud Content Pack 1.0.116 on an existing OO platform version of 10.00 or later (recommended 10.01).

For details on deploying a content pack, see "Importing Content Packs to a Project" in the *Studio Authoring Guide* and "Deploying a Content Pack" in the *Central User Guide*.

All content needs to be checked in before applying the Content Pack.

Use the OO platform version 10.00 and the patch listed in the following table:

Content	Patch level
OO Cloud Content Pack 1.0.116	10.01

Known Issues

The reference number for each known issue is the Quality Center Change Request (QCCR) number.

For more information about known issues, visit HP Software Support Online, or contact your HP Support representative directly.

CR Number	Title	Description
QCCR1D157090	vCloud error messages	The vCloud 5.1.x and vCloud 1.5 servers return different error messages than the vCloud 1.0 server.
QCCR1D159105	L10N : failed to modify Organization once input Japanese in description	For Japanese environment only.
QCCR1D167373	vCloud : Failed to create catalog with a Japanese and Chinese name	The flow execution fails with the following error message: <pre>'The provided XML could not be parsed: The value of attribute "name" associated with an element type "null" must not contain the '<' character.; Result=The provided XML could not be parsed: '</pre>
