Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.

- Document Release Date, which changes each time the document is updated.

- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

http://h20230.www2.hp.com/selfsolve/manuals

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

http://h20229.www2.hp.com/passport-registration.html

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

http://www.hp.com/go/hpsoftwaresupport

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest

- Submit and track support cases and enhancement requests

- Download software patches

- Manage support contracts

- Look up HP support contacts

- Review information about available services

- Enter into discussions with other software customers

- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

http://h20229.www2.hp.com/passport-registration.html

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

Disclaimer for PDF Version of Online Help

This document is a PDF version of the online help. This PDF file is provided so you can easily print multiple topics from the help information or read the online help in PDF format.

Note: Some topics do not convert properly to PDF, causing format problems. Some elements of online help are completely removed from the PDF version. Those problem topics can be successfully printed from within the online help.

Introduction

This document provides an overview of the HP Operations Orchestration IT Operations Content Pack 1.0.113 release. It contains important information that is not included in the manuals or in the online help.

This release supports the following languages:

- en - English

- fr - French

- de - German

- ja - Japanese

- es - Spanish

- zh_CN - Simplified Chinese

IT Operations Content Pack 1.0.113 is a cumulative Content Pack.

Content Pack Integrations

The following table lists the integrations that the IT Operations Content Pack supports:

Integration Name	Versions
TN3270	3.3+
Opalis	6.2.2
System Center Configuration Manager	2003, 2007, 2012
System Center Operations Manager	2007, 2012
System Center Orchestrator	2012
VMware vCenter Orchestrator (vCO)	4.0

What's New

- All the content packs now contain the necessary libraries and maven artifacts that were previously only in the Base content pack. Now the dependency on the Base content pack can be driven by operations, flows or configuration items that are part of Base content pack and are used in operations or flows from other content packs.

  The dependency on oo-base is now only at the operation level (UUID).

- Some operations have become soft copies after applying this 10.x platform feature to all out-of-the-box content operations. If there are multiple operations using the same action only one becomes the hard copy and the rest are soft copies pointing to the selected hard copy.

Deploying the IT Operations Content Pack

You must deploy the HP Operations Orchestration IT Operations Content Pack 1.0.113 on an existing OO platform version of 10.00 or later.

For details on deploying a content pack, see "Importing Content Packs to a Project" in the *Studio Authoring Guide* and "Deploying a Content Pack" in the *Central User Guide*.

Use the OO platform version 10.00 and the patch listed in the following table:

Content	Patch level
IT Operations Content Pack 1.0.113	10.01

Known Issues

The reference number for each known issue is the Quality Center Change Request (QCCR) number.

For more information about known issues, visit HP Software Support Online, or contact your HP Support representative directly.

CR Number	Title	Description
QCCR1D159369	**System Center Orchestrator** authentication failure.	The operations from the **Library/Integrations/Microsoft/System Center Orchestrator** folder fail to run with a local user on a host included in a domain.
QCCR1D167191	VMware vCenter Orchestrator requires support for HTTPS certificate	VMware vCenter Orchestrator operations support https protocol, however there is currently no way to import the certificates at input. If you use the HTTPS protocol, the operation fails with a message indicating that a valid certificate was not found.
