Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

<http://www.hp.com/go/hpsoftwaresupport>

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

Disclaimer for PDF Version of Online Help

This document is a PDF version of the online help. This PDF file is provided so you can easily print multiple topics from the help information or read the online help in PDF format.

Note: Some topics do not convert properly to PDF, causing format problems. Some elements of online help are completely removed from the PDF version. Those problem topics can be successfully printed from within the online help.

Introduction

This document provides an overview of the HP Operations Orchestration Base Content Pack 1.0.47 release. It contains important information that is not included in the manuals or in the online help.

This release supports the following languages:

- en - English
- fr - French
- de - German
- ja - Japanese
- es - Spanish
- zh_CN - Simplified Chinese

Installing Powershell

You must install the Powershell Content Pack on an existing OO platform version of 10.00 or later (recommended 10.01).

All content needs to be checked in before applying the Content Pack.

Known Issues

The reference number for each known issue is the Quality Center Change Request (QCCR) number.

For more information about known issues, visit [HP Software Support Online](#), or contact your HP Support representative directly.

CR Number	Title	Description
QCCR1D167542	L10N: Translation issue in the Write Event log flow under Powershell/Events on a CN environment.	There are double "输入 "characters in the Write Event log flow under Powershell\Events in a CN environment.
QCCR1D169033	L10N:CarmelCP:Garbage issue: The description of all flow exists garbage issue in PS Wizard.	The flows descriptions in the Powershell wizard sometimes appear as garbage characters.
QCCR1D169869	10x PSWizard duplicates cmdlets when default cmdlets and modules are selected	In 10.x , in step 4 of teh Powershell wizard when selecting both a module and the default cmdlets, the shared cmdlets are duplicated. and when attempting to create flows with all cmdlets available the wizard cannot complete showing an invalid cmdlets error message . In 9.x when selecting both, only one version of the cmdlets is displayed and the wizard successfully generates the required flows.
