Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.

- Document Release Date, which changes each time the document is updated.

- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

http://h20230.www2.hp.com/selfsolve/manuals

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

http://h20229.www2.hp.com/passport-registration.html

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

http://www.hp.com/go/hpsoftwaresupport

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest

- Submit and track support cases and enhancement requests

- Download software patches

- Manage support contracts

- Look up HP support contacts

- Review information about available services

- Enter into discussions with other software customers

- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

http://h20229.www2.hp.com/passport-registration.html

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

HP Operations Smart Plug-in for Microsoft Enterprise Servers Release Notes

This document is an overview of the changes made to the HP Operations Smart Plug-in for Microsoft Enterprise Servers 8.05 (Microsoft Enterprise Servers SPI). It contains important information that is not included in the manuals or Online Help. The Microsoft Enterprise Servers SPI version 8.05 is a patch release. You can download the latest patches from the following URL: http://support/openview.hp.com/selfsolve/patches.You can find information about the following in this document:

- What's New in This Release

- Support Matrix

- Installation Notes

- Enhancements

- Documentation Updates

- HP Software Product Integration

What's New in This Release

This release of Microsoft Enterprise Servers SPI contains the following new features:

- Supports the Microsoft Lync Server 2013 and Microsoft SharePoint Server 2013 of Microsoft Enterprise Server 2013

- New Policies and Collection Definitions

  This version contains a new set of policies, collection definitions, and instrumentation to support the Microsoft Lync Server 2013 and Microsoft SharePoint Server 2013. For more details about the Microsoft Enterprise SPI policies, see *HP Operations Smart Plug-in for Microsoft Enterprise Servers Online Help* provided in PDF (.pdf) format.

- Support for Graphs and Reports

  Microsoft Enterprise Servers SPI supports graphs and reports for Microsoft Lync Server 2013 and Microsoft SharePoint Server 2013. Reports and graphs provide more detailed statistics of the Microsoft Enterprise environment. For more details about the graphs and reports supported by Microsoft Enterprise Servers SPI, see the *HP Operations Smart Plug-in for Microsoft Enterprise Servers Online Help*.

Support Matrix

You can find the Support Matrix for this product that lists all software and hardware requirements at this location: http://support.openview.hp.com/selfsolve/document/KM323488.

Note: Most of the support areas require that you register as an HP Passport user and sign in. Many also require an active support contract. To find more information about support access levels, go to Access levels.

To register for an HP Passport ID, go to HP Passport Registration.

Installation Notes

Instructions to install the patch are documented in the *Patch Text*. For more information about installing and configuring the Microsoft Enterprise Servers SPI, see *HP Operations Smart Plug-in for Microsoft Enterprise Servers Installation and Configuration Guide*.

Enhancements

To display details about each software enhancement or fix, click the reference number link to go to the HP Software Support web site. The first time you click a link, you must enter your HP passport information. To set up your passport profile, go to: HP Support.

Enhancements

- QCCR1A152151: Microsoft Enterprise Servers SPI support for Lync Server 2013.
- QCCR1A152152: Microsoft Enterprise Servers SPI support for SharePoint Server 2013.
