Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to: http://h20230.www2.hp.com/selfsolve/manuals

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to: http://h20229.www2.hp.com/passport-registration.html

Or click the New users - please register link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at: http://www.hp.com/go/hpsoftwaresupport

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

http://h20229.www2.hp.com/passport-registration.html

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

Chapter 1: Introduction

This document provides an overview of the system requirements and supported devices for HP Operations Analytics version 2.0.

For the latest additions to the system requirements and device support, see http://support.openview.hp.com/selfsolve/document/KM00634213/binary/OpsA2.00_Support Matrix.pdf.

Chapter 2: Requirements

This section provides information about the supported hardware and software that are required in order to successfully install and run HP Operations Analytics.

Operating System

HP Operations Analytics installs and runs on CentOS 6.4.

Databases

HP Operations Analytics deploys and uses HP Vertica 6.1.1.

Application Servers

HP Operations Analytics deploys and uses JBoss Application Server 7.2.

Web Servers

HP Operations Analytics uses JBoss Application Server 7.1.1. It does not need to be deployed on a separate web server.

Web Browsers

One of the following supported web browsers is required to run HP Operations Analytics:

Microsoft Internet Explorer 9

Note: IE9 running in compatibility mode is not supported.

- Google Chrome
- Mozilla Firefox 24 ESR

Chapter 3: Compatability

This section provides information about optional software and configurations that are compatible with HP Operations Analytics 2.0.

Languages

HP Operations Analytics 2.0 will run in browsers whose interface is in any language. However, HP Operations Analytics 2.0 is not localized and will display in English only.

Internationalization Variances

HP Operations Analytics 2.0 will run in all locales as stated in this document with the following known variance:

· Non-English data input is not supported.

Virtualization Products

The HP Operations Analytics software virtual appliance supports the following VMware platform products:

- VMware ESX/ESXi 5.0, 4.1
- vCenter Server 5.0, 4.1

High-Availability Products

HP Operations Analytics 2.0 does not support any high-availability products.

HP Software Integrations

Information about HP software that integrates with HP Operations Analytics can be found on the HP Support website.

See http://support.openview.hp.com/sc/solutions/index.jsp#tab=tab3.

For this release, Operations Analytics supports Splunk version 5.0.2

Chapter 4: Change Log

The following table lists the changes to this document since it was first released for version 2.0.

Document Date (product version)	Change
04 Dec 2013 (2.0)	First Version
06 March 2014 (2.0)	Corrected the supported Vertica version
