** Non-production use rights, if any, can be found at www.hp.com/go/SWlicensing.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
<i>AKB</i>	means Atalla Key Block which is a key management system.
<i>Appliance or Appl</i>	means an Instance of software loaded and pre-configured on a Server.
<i>Client</i>	means any applications or systems which provide functionality separate from that of the software while providing for the facility to connect to and interact with the software.
<i>Cluster</i>	means a group of servers or other resources that act like a single system and enable high availability and in some cases, load balancing and parallel processing.
<i>CPU</i>	means a system in a single integrated circuit package with one or more discrete processing Cores.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Instance</i>	means each implementation of the application installed on a Server.
<i>LTU</i>	means License To Use.
<i>MFK</i>	means Master File Key which is the root cryptographic key.
<i>Non-Stop System</i>	means an HP high-end server.
<i>NSP</i>	means Network Security Processor.
<i>Server or SVR</i>	means any designated computer system in which an Instance or Instances of the software is installed.
<i>Use</i>	means to install, store, load, execute and display one copy of the software.
<i>Variant</i>	means legacy key wrapping technology software for NSP Appliance

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP Boxcar

HP Boxcar is licensed per CPU for Non-Stop Systems for the purpose of managing multiple NSP systems.

HP Enterprise Secure Key Manager

HP Enterprise Secure Key Manager (ESKM) is licensed per ESKM Client type (ie: Storage, Tape Library, SAN Switch, Nonstop VLE, etc) and a separate license is required for each Client accessing the ESKM Cluster.

HP Network Security Processor Enhanced

HP Network Security Processor Enhanced is licensed by Appliance for either AKB or Variant.

HP Network Security Processor One Master File Key

HP Network Security Processor One Master File Key (MFK) is licensed by Appliance for AKB only.
