## Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
<i>Application Under Test or AUT</i>	means a software application being tested by software.
<i>Concurrent Users or CC Users or CCU</i>	means the software is licensed by the amount of users that simultaneously use the software. The software can be installed on any number of computers, provided that the actual usage of the software does not exceed the number of licenses purchased.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Load Generator</i>	means a device with the HP LoadRunner or HP Performance Center Load Generator software installed that is used to generate multiple simultaneous Virtual User connections against an Application Under Test.
<i>LTU</i>	means License To Use
<i>Use</i>	means to install, store, load, execute and display one copy of the software.
<i>Virtual User or VU or Vuser</i>	means a software process emulating users executing a Use case interaction against an AUT.

## Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

### Shunra Network Virtualization

Shunra Network Virtualization for HP LoadRunner is licensed per Load Generator and may only be used with HP LoadRunner for the purpose of performance testing and may only be used with the HP software for which it was originally licensed.

Shunra Network Virtualization for Mobile is licensed per Concurrent User and may only be used for the purpose of application development and testing.

Shunra Network Virtualization for HP Performance Center is licensed per Load Generator and may only be used with HP Performance Center for the purpose of performance testing and may only be used with the HP software for which it was originally licensed.
