Dear HP Software Customer,

As per the HP Client Automation business update on February 28th, 2013, Hewlett-Packard (HP) has entered into a licensing agreement with Persistent Systems, Ltd. (PSL), for the HP Client Automation software. Persistent will accelerate delivering key new features and technologies for this product, especially in the mobile and cloud spaces.

With that, HP is announcing product discontinuance of HP Client Automation software effective as of the dates set forth below. The product will continue as Persistent Systems Radia Client Automation.

This letter is for HP Client Automation software support customers worldwide, to inform you of our end of support plans.

End of Sale / End of Support

HP is committed to providing the highest level of customer care to you while you determine your future strategy for your HP Client Automation software products. Please read below for key timelines and support options that are now available to you:

Date	Program Activity
February 28, 2013	HP Client Automation Business Update
April 1, 2013	Product Discontinuance Announcement
April 30, 2013	End of sale (no longer orderable or available for purchase)
Upon existing support contract or ELA expiration	End of Support

Please refer to attached Appendix A for definition of terms for product obsolescence and Appendix B for the list of affected HP Client Automation software product numbers.

Persistent Systems, Ltd.

Persistent is a strong, global provider of innovative solutions in four key areas: mobile, cloud, analytics, and collaboration. The company has deep expertise in the mobile application lifecycle space, especially endpoints, including phones, tablets, and special purpose mobile devices. PSL is a company with over 6700 employees around the world bringing increased focus to developing, marketing, and selling Client Automation. You should expect to see a stronger solution from this partnership.

HP Client Automation provides the strong foundation of a highly scalable, reliable infrastructure for endpoint management, and PSL will expand and enhance the solution with deeper and broader endpoint capabilities, and types of devices.

Product Support

Your implementation of HPCA will continue to operate as it does today, with no changes. PSL will provide updates to their product(s) to you for no charge, as long as you have an active support contract. Your existing HPCA licenses will be valid for the comparable PSL products.

Your support contract will continue to be managed by HP until it expires and you will contact the HP support organization in the same manner as you do today. When your contract expires, we encourage you to renew support with PSL. You may continue to purchase expansion licenses of HP Client Automation from HP until April 30, 2013; after that date, you may purchase licenses directly from PSL or an authorized PSL reseller. HP will also sell licenses for the PSL product(s) after May 1, 2013 as an authorized PSL reseller.

There were a number of alternatives that we evaluated, and we contacted multiple customers about their current use of HPCA and their future plans. We believe this decision represents the best outcome for you and will provide increased value to your organization.

If you have further questions, or for more information, please contact:

Rahul Garapaty, Vice President Business Development rahul_garapaty@persistentsys.com, +1 312-330-8584 or Eric Webster, Vice President of Sales eric_webster@persistent.co.in, +1 617-571-8169

Access the HPCA forum on the HP Live Network at hpln.hp.com Email your questions to HPCAInfo@hp.com Visit hp.com/go/client

More information

Should you have any questions about this end of availability communication, or for assistance in understanding the options available to you, please contact your local HP sales representative or HP software business partner. When providing information, please include your name, country, phone number, company name, product number and your HP Service Agreement ID or HP System Handle.

In addition, for technical assistance and information, please visit Software Support Online: hp.com/go/hpsoftwaresupport

HP once again wishes to thank you for choosing HP Client Automation software as your preferred software. We appreciate your business and look forward to continuing to serve your business needs in the future.

Sincerely.

HP Software Services

APPENDIX A: Definitions

This product version obsolescence is covered by version 4.4 of the HP Software Release & Support policy. Definitions of terms are provided by the HP Software product version obsolescence documented at:

hp.com/go/hpsoftwaresupport/support-lifecycle

Product Support

Product Support is the reactive engagement of regional support resources (Support Center) and division support resources (Lab), in accordance with your purchased support plan, for the resolution of product defects, plus product enhancements for a specific product version. This includes investigation of newly reported defects and if appropriate, development of defect fixes and making these available for customers via patches. The HP Software product teams (Lab) will review and either approve or deny requests for defect fixes and enhancements (including additional support for newly-released operating system versions).

While HP Software investigates all problems and issues raised for products covered under Product Support, customers may be required to install the most current version or patches as part of the troubleshooting process.

Version Maturity may apply to specific versions of HP Software products. Version Maturity means that, for a specific product version, no further enhancements or changes to functionality is planned, nor are any further platform refreshes planned in order to update that product version to support current or future operating systems, operating system versions or hardware platforms.

End-of-Support Date

End-of-Support Date is the last date Software maintenance, installation and configuration assistance, and other standard support services will be accepted for the specified product release (as specified by Major and Minor version numbering). EOS also means the last date Software Change Requests (SCRs) will be accepted for a specified Version of a Product. After the EOS date, all SCRs will be planned for future versions, as applicable. Current patches for the version of the HP Software reaching EOS will remain available for electronic download for a reasonable period of time.
