Question	If I am on a support contract, what will I be entitled to?
Answer	You should have received a letter or electronic notification from HP to inform you about the availability of QTJP 11.x or upgrade to UFT for support customers, what license(s) you were entitled to under your support contract and how to sign up for it. Your local HP Sales and Support Representatives or your HP Software Business Partner can help provide information and assistance to enable your upgrade to be easy and successful.
Question	When I upgrade from QTP 9.1x & 9.2x to 11.x or upgrade UFT, can I continue my existing support contracts until they expire?
Answer	**QTP 11.x**: Yes, your support contract will be updated automatically at the next renewal time. **UFT upgrade**: Yes, but your support contracts need to be updated as well. Please contact your local HP contract administration representative or HP Software Services Integrator (SVI) partner to get your support contract updated accordingly. The customer will be purchasing a new license upfront in order to migrate to the new product at time of renewal but the upfront support does not match the base/original supported product therefore it will not have the same support term. The License rep needs to ensure when placing the order for the UFT they submit it as an "add-on" this will create the new carepack in the same installed base/SAID as the original product.
Question	When I upgrade from QTP 9.1x & 9.2x to QTP 11.x or upgrade to UFT, can I expect the same support pricing compared to QTP 9.1x & 9.2x?
Answer	Not necessarily. Each product support price is determined independently.
Question	What migration services are available to help me upgrade?
Answer	Your local HP sales representative or HP software business partner can help you get this information.
