Network Node Manager i Software 10.00

May 2014

Important Note

Before beginning the NNMi installation, you must read the following documents in the listed order:

1. **HP Network Node Manager i Software System and Device Support Matrix**—helps you determine whether you have the required hardware and software available to run NNMi successfully.
2. **HP Network Node Manager i Software Release Notes**—provides an overview of the changes made to HP Network Node Manager i Software (NNMi) version 10.00.
3. **HP Network Node Manager i Software Interactive Installation Guide**—provides customizable instructions to help you install NNMi. Read this document to become familiar with the details and requirements associated with the installation process.
4. The “Preparation” section of the **HP Network Node Manager i Software Deployment Reference**—includes information to review before beginning the NNMi installation.

After you have read the documents listed above, you are ready to begin the installation process.

Note: For the most up-to-date versions of all documents listed above go to:

<http://h20230.www2.hp.com/selfsolve/manuals>

This site requires that you register for an HP Passport and sign in. Go to:

<http://h20229.www2.hp.com/passport-registration.html>

Note: For a complete list of the NNMi Documentation Set, see the **NNMi 10.00 Documentation List** at:

<http://h20230.www2.hp.com/selfsolve/manuals>

Accessing the Interactive Installation Guide

To access the HP Network Node Manager i Software Interactive Installation Guide, follow these steps:

1. On the product media (DVD-ROM or electronic download), go to the top-level or root directory.
2. Extract one of the following files:
`nnmi_interactive_installation_en.zip` or
`nnmi_interactive_installation_en.jar`
3. Double-click `nnmi_interactive_installation_en.htm`
4. The NNMi Interactive Installation Guide enables you to select the installation or uninstallation options for your network environment. Select each option that applies.

NNMi 10.00 Interactive Installation Guide

Choose an Installation Type

Manual Install NNMi provides two installation methods:

Silent Install • Manual Install uses the interactive installation wizard.

Uninstall NNMi • Silent Install uses a script and an ini file.

Choose an Operating System

Windows NNMi supports the following operating systems:

Linux • Windows

 • Linux

Choose a Database Type

Using an embedded database with NNMi NNMi provides two database options:

Using an Oracle database with NNMi • Embedded

 • Oracle

Select all that apply:

Using High Availability or Application Failover Select this if you plan to use High Availability or Application Failover

5. When you are ready to view or print the installation document that results from your selections, click **View** or **Print**.

View or print

View »	You can view your customized document on the screen, or print it.
Print »	

If you have a PDF print driver installed on your computer, click Print to create PDF documents that are customized according to your selections. PDF print drivers are available from several open source and third-party providers.

Tip: After you click **View** or **Print**, you can change your selections by clicking **Change** in the displayed document.

Note: While viewing the resulting document, use the check box in each section heading to collapse a section.

6. Use these results as your customized NNMi Installation Guide.
7. Using the information in this guide, install the product.

Additional Installations

To be able to view reports built with the data collected by NNMi and NNMi Smart Plug-ins, you need to install the Network Performance Server (NPS) and NNM iSPI Performance for Metrics after completing the NNMi installation.

For information about iSPI features, see the Release Notes for each NNM iSPI of interest.

For information about installing NPS and NNM iSPI Performance for Metrics, see the **HP Network Node Manager iSPI Performance for Metrics Installation Guide**.

For more information about which iSPIs are included with NNMi, see the “Purchase an HP NNMi Smart Plug-in” topic in the NNMi Online Help for Administrators.

Support

Visit the HP Software Support web site at:

www.hp.com/go/hpsoftwaresupport

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches and associated patch documentation
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp
