Subject: notice of product discontinuance for HP OpenCall Service Controller (OCSC)

Dear HP Customer,

Thank you for your confidence in Hewlett-Packard as your platform supplier.

HP is now announcing the discontinuance of the HP OpenCall Service Controller (OCSC) product, which embeds the following components

- Service Execution Platform (SEP) version 6.x
- Service Creation Environment (SCE) version 6.x
- Service Management Platform (SMP) version 5.x
- License Server (LS) version 1.x

The end of sales date of OCSC product for new deployments is March 31st, 2015 (last order date).
Support after the end of sales date is ensured as per the terms and conditions as described in your support contract.

OCSC software Licenses to use (LTU) for capacity extension (TPS …) of existing deployed platforms may remain available until the end of support date.

The replacement product is HP OpenCall Convergent Communication platform (OCCP), on which more information can be found at
http://www8.hp.com/us/en/industries/index.html

Should you have questions, please contact your sales representative.

Sincerely,

Martine CAISSO
Product Manager in Communications & Media Solutions, HP Enterprise Services.
