

# Additional License Authorizations

For HP SOA Center software products

## Products and suites covered

Products	E-LTU or E-Media available *	Non-Production use category **
HP SOA Registry Foundation	Yes	Class 3
HP SOA Systinet Standard Edition	Yes	Class 3
HP SOA Systinet Visibility Edition	Yes	Class 3

\* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

\*\* Non-production use rights, if any, can be found at [www.hp.com/go/SWlicensing](http://www.hp.com/go/SWlicensing).

## Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
<i>Agent</i>	means that portion of the software that manages and is required for each physical server, virtual server or container.
<i>Concurrent User or CC User</i>	means the software is licensed by the amount of users that simultaneously use the software at any one point in time. The software can be installed on any number of computers, provided that the actual usage of the software does not exceed the number of licenses purchased.
<i>CPU</i>	means a system that contains a single processing unit with a single integrated circuit package with a single discrete processing core.
<i>Device or Dev</i>	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptop, handheld device or printer that resides within the range defined for interrogation and asset tracking.
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any references to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Foundation</i>	means a single Instance of the core or primary components of a software application which enable its basic functionality, and without which the additional modules available for the application are unable to operate. Foundation software may be installed on one or multiple servers, depending on the specific architecture required to enable the functioning of the single Instance.
<i>Instance</i>	means each implementation of the application installed on a server.
<i>LTU</i>	means License To Use.
<i>Monitored CPU</i>	means a CPU operating on licensee's network that is monitored by software.
<i>Named Users</i>	means a specific individual authorized by licensee to access the software regardless of whether they are actively using the Software.

# Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

## HP SOA Registry Foundation

HP SOA Registry Foundation is licensed by CPU or single user.

## HP SOA Systinet Standard Edition

HP SOA Systinet Standard Edition includes SOA Repository Policy Management and Contract Management and a 2 CPU Registry Foundation license. Additional Registry Foundation licenses are also available as an add-on. Aside from Registry Foundation, this software is licensed per Instance along with a specific number of Named and or/Concurrent User licenses. Design Environment may only be used for sandbox purposes and requires a license for one Standard Premium Edition Instance for one or more Design Environment Instances. Design Environment does not require a user license. It provides the features associated with the Standard Premium Edition for the purposes of creating, demonstrating and staging customizations/extensions in a sandbox environment.

## HP SOA Systinet Visibility Edition

HP SOA Systinet Visibility Edition includes SOA Repository and Registry and a 2 CPU Registry Foundation license. Additional Registry Foundation licenses are also available as an add-on. Aside from Registry Foundation, this software is licensed per Instance and number of Named and/or Concurrent User licenses. Design Environment may only be used for sandbox purposes and requires a license for one Visibility Edition Instance for one or more Design Environment Instances. Design Environment does not require a user license. It provides the features associated with the Visibility Edition for the purposes of creating, demonstrating and staging customizations/extensions in a sandbox environment.
