Sept 30, 2014

Dear HP OSS TeMIP/NNM Integration Customer,

We are writing to inform you that an End-of-Support date has been set for some HP OSS TeMIP/NNM integration products.

The discontinuance of HP NNM V7.5x, announced on May 1, 2010 ([http://support.openview.hp.com/pdf/nnm7.5x\\_and\\_spis\\_customer\\_letter.pdf](http://support.openview.hp.com/pdf/nnm7.5x_and_spis_customer_letter.pdf)), has triggered the End-of-Sale date for NNM Access Module V5.0 and ATNI (Advanced TeMIP NNM Integration) V5.4. The End-of-Support date for these products is synchronized with NNM V7.5x End-of-Support date.

The discontinuance of HP NNMi V9.0x announced on January 1, 2013 ([http://support.openview.hp.com/encore/nmc-8\\_1x-9\\_0x.isp](http://support.openview.hp.com/encore/nmc-8_1x-9_0x.isp)) has impacted ATNI V6.0 supported configurations.

If you have already purchased and deployed NNM V7.5x or NNMi V9.0x and you have integrated it with TeMIP, then we encourage you to upgrade your current management solution to NNMi V9.2 or a later version. Please contact your HP Sales representative for further discussions on the ATNI product maintenance release to be used.
