Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to: <https://softwaresupport.hp.com>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to: <http://h20229.www2.hp.com/passport-registration.html>

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online website at: <https://softwaresupport.hp.com>

This website provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support website to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

http://h20230.www2.hp.com/new_access_levels.jsp

HP Software Solutions Now accesses the HPSW Solution and Integration Portal website. This site enables you to explore HP Product Solutions to meet your business needs, includes a full list of Integrations between HP Products, as well as a listing of ITIL Processes. The URL for this website is <http://h20230.www2.hp.com/sc/solutions/index.jsp>

Chapter 1: Introduction

- ["Welcome to Vertica for PPM" below](#)
- ["Audience for this Document" below](#)
- ["Related Documents" on the next page](#)
- ["Operational Reports Content on HP Live Network" on the next page](#)

Welcome to Vertica for PPM

Vertica for Project and Portfolio Management Center (PPM) Content Pack 1.0 provides you with rich resource management data in a dimensional model schema of the Vertica data warehousing. You can connect your Business Intelligence solution to Vertica data warehouse to generate reports and dashboards in real time. This content pack also includes 13 Microsoft Excel templates, which enables you to generate Excel-based reports in PPM Center.

This guide provides information about how to generate reports on Resource Management with Vertica for PPM and descriptions of these 13 reports. You can extend this content pack to enable other PPM modules by referring to the *Vertica for PPM Reporting Customization Guide for Content Pack 1.0*.

For instructions on generating customized Excel reports, see *PPM Center 9.30 Excel Reports Cookbook*.

Note: Vertica for PPM Content Pack 1.0 supports the Resource Management module only. You can extend this content pack to enable other PPM modules by referring to the *Vertica for PPM Reporting Customization Guide for Content Pack 1.0*.

Audience for this Document

This document is written for PPM Center users, particularly users who act as direct managers, resource managers, and project managers.

Related Documents

This section lists the HP documents that contain useful information for Vertica for PPM users. For information about how to obtain the HP documents listed, see "[Accessing PPM Center Documentation](#)" [below](#).

The following PPM Center 9.30 documents provide useful information for Vertica for PPM users:

- *PPM Center 9.30 Release Notes*
- *Vertica for PPM Release Notes for Content Pack 1.0*
- *Vertica for PPM Administrator's Guide for Content Pack 1.0*
- *Vertica for PPM Reporting Customization Guide for Content Pack 1.0*
- *PPM Center 9.30 Data Model Guide*
- *PPM Center 9.30 Excel Reports Cookbook*
- *PPM Center 9.30 Reports Guide and Reference*
- *PPM Center 9.30 Resource Management User's Guide*
- *PPM Center 9.30 Time Management User's Guide*
- *PPM Center 9.30 HP-Supplied Entities Guide*

Accessing PPM Center Documentation

To obtain HP PPM Center documentation go to the HP Software Support Online website at <http://softwaresupport.hp.com>. To access this website, you must first register for HP Passport account.

Operational Reports Content on HP Live Network

HP Live Network (HPLN) is an online virtual community for product experts, partners, and customers to collaborate and share knowledge, best practices, and add-on content for HP software products, including PPM Center, Operational Reporting, and Vertica for PPM. You can log in to the Operational Reports Community page on HPLN to access the latest news, updates, and documentation for Vertica

for PPM. You can browse from the Operational Reports community page or subscribe to receive notifications via email.

Access to HPLN is free to all PPM Center customers. You must have an HP passport account to access the PPM Center and Operational Reports community pages.

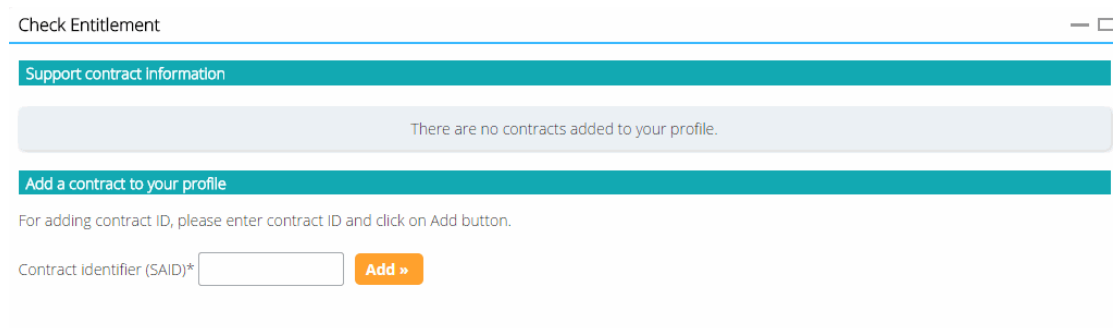

Note: Only project owners and administrators can post to the Announcements forum. If you are not a project owner or administrator, direct your feedback to the project owner or the general discussion forum.

Logging On to HP Live Network

To access Operational Reports content on HPLN:

1. Go to the [HP Support Contract information](https://softwaresupport.hp.com/group/softwaresupport/settings) page (https://softwaresupport.hp.com/group/softwaresupport/settings).
2. Sign in to the HP Passport page.

The HP Support Contract information page opens.

Check Entitlement

Support contract information

There are no contracts added to your profile.

Add a contract to your profile

For adding contract ID, please enter contract ID and click on Add button.

Contract Identifier (SAID)* [Add »](#)

3. In the **Contract identifier (SAID)*** box, type your service agreement ID (SAID) and click **Add**.
4. Go to the [Operational Reports Content for Project and Portfolio Management](#) page on HP Live Network.
5. To view the latest announcements about Vertica for PPM, select the **Announcements** tab.

Chapter 2: Using Excel Reports for Vertica for PPM

This chapter provides instructions on how to use the Microsoft Excel version of the reports that HP supplies with Vertica for PPM from PPM Center.

- ["Configuring the PPM Center Server to Use the Excel Reports" on the next page](#)
- ["Running Excel Reports " on page 9](#)

The OOTB Vertica for PPM Excel reports include:

- Top 10 Skills Requested Report
- Resource Location Distribution Report
- Demand vs Supply Report
- Resource Pools Allocation Report
- Resource Distribution Report
- Resource Assignment Report
- Resource Utilization Report
- Project Resource Leave Report
- Resource Leave Report
- Hot Positions Report
- Position Demand Trend and Prediction Report
- Resource Profile by Project Report
- Resource Profile by Resource Pool Report

Software Requirements

You should meet the following requirements to use Excel reports for Vertica for PPM:

- PPM Center 9.30

For instructions on installing PPM Center 9.30, see *PPM Center 9.30 Installation and Administration Guide*.

For instructions on upgrading to PPM Center 9.30, see *PPM Center 9.30 Upgrade Guide*.

- Vertica for PPM Content Pack 1.0

For information about installing Vertica for PPM Content Pack 1.0, see *Vertica for PPM Administrator's Guide for Content Pack 1.0*.

- Microsoft Excel 2013

Configuring the PPM Center Server to Use the Excel Reports

To use the Excel reports for Vertica for PPM, add the following data resource and resource link into the `server.xml` file in the `<PPM_HOME>/server/<Instance Name>/conf/` folder.

Parameter Name	Description	Add
GlobalNamingResources	Defines the data source, user name, and password	<pre><Resource maxIdle="10" driverClassName="com.vertica.jdbc.Driver" type="javax.sql.DataSource" auth="Container" name="VerticaDS" url="<vertica_db_url>" username="<username>" password="<password>" maxActive="60" validationQuery="select 1 from dual" maxWait="180000" minEvictableIdleTimeMillis="3600000"/</pre> <p>Note: You need to replace <code><vertica_db_url></code>, <code><username></code>, and <code><password></code> with the Vertica database server address, user name, and password of the Vertica database account respectively.</p>
docBase="itg.war"	Defines the resource link	<pre><ResourceLink type="javax.sql.DataSource" name="VerticaDS" global="VerticaDS"/></pre>
docBase="dashboard.war"		

Note: You need to restart the PPM server after you made these changes.

Running Excel Reports

You can run Excel reports with Vertica for PPM as you run other PPM Center reports.

For information about how to run reports, see *PPM Center 9.30 Reports Guide and Reference*.

The following is a list of reports you can run with Vertica for PPM:

- ["Top 10 Skills Requested Report" on the next page](#)
- ["Resource Location Distribution Report" on page 11](#)
- ["Demand vs Supply Report" on page 12](#)
- ["Resource Pools Allocation Report" on page 14](#)
- ["Resource Distribution Report" on page 15](#)
- ["Resource Assignment Report" on page 16](#)
- ["Resource Utilization Report" on page 20](#)
- ["Project Resource Leave Report" on page 23](#)
- ["Resource Leave Report" on page 24](#)
- ["Hot Positions Report" on page 25](#)
- ["Position Demand Trend and Prediction Report" on page 26](#)
- ["Resource Profile by Project Report" on page 27](#)
- ["Resource Profile by Resource Pool Report" on page 28](#)

In Vertica for PPM Content Pack 1.0 supplies only Resource Management reports. However, you can extend this content pack to enable other PPM modules by referring to the *Vertica for PPM Reporting Customization Guide for Content Pack 1.0*.

For instructions on generating customized Excel reports, see *PPM Center 9.30 Excel Reports Cookbook*.

Top 10 Skills Requested Report

This report lists the 10 skills that are requested most frequently during a specified time period. This report includes the trend compared with the last period and the skill distribution patterns. It also shows the trend of the 10 skills requested in the past two years.

As a resource manager, you can leverage this report for hiring and training planning.

Report Parameters Restore Default

*Please Select Period

Parameter description

Parameter	Description
Period	The time interval for data displayed in the report. Select one of the following values: <ul style="list-style-type: none"> This Year This Quarter This Month

The following are two sample reports.

Top 10 requested skills

Date Range: This Month

Skill Request Time = The moment when the request was sent
 Percentage = Requested hours of a skill/ Total requested hours for all skills

Skill	Requested (%)	Rank (current period)	Rank (last period)	Trend
C	19.82%	1	1	→
Java	18.48%	2	2	→
C++	13.14%	3	4	↑
Objective-C	12.42%	4	3	↓
C#	10.88%	5	5	→
Visual Basic	8.93%	6	6	→
PHP	7.60%	7	7	→
Python	3.29%	8	8	→
Ruby	2.87%	9	10	↑
Groovy	2.57%	10	9	↓

Top Skills Trend

Date Range: 2014-01-01 to 2014-09-30 Period Type: Monthly

Skill Request Time = The moment when the request was sent
 Percentage = Requested hours of a skill/ Total requested hours for all skills

Resource Location Distribution Report

This report shows how the resources are distributed geographically.

As a resource manager, you can leverage this report to understand and optimize all resource's geographical distributions.

You do not need to specify any parameter for this report.

The following is a sample report.

Resources Location Distribution

Demand vs Supply Report

This report shows the resource demand and supply information for a specified resource pool. This report contains a breakdown of over-allocated, on-bench, unmet, soft-booked, and committed resources.

With this report, as a resource manager, you can easily understand the status of the resource utilization and the gap from the upcoming demands.

 Report Parameters [Restore Default](#)

*Begin Period:  *End Period: 

*Period Type: ▼

*Resource Pool: 

Parameter description

Parameter	Description
Begin Period	The first time period for which data is displayed in the report. Select a value from the Available Periods list.
End Period	The last time period for which data is displayed in the report. Select a value from the Available Periods list.
Period Type	The time interval for data displayed in the report. Select one of the following values: <ul style="list-style-type: none"> • Year • Half Year • Quarter • Month • Week
Resource pool	Determines which resource pools are represented in the report. From the Resource Pool Name list, select one resource pool name.

The following is a sample report.

 Project and Portfolio Management Center

Resource Pool Demand vs Supply

Resource Pools Allocation Report

This report shows how all resource pools are being utilized through both percentage and person hours.

As a portfolio manager, you can leverage this report to understand the overall resource pools allocation status and to plan for resource distributions at a strategic level.

Report Parameters

*End Period

Parameter description

Parameter	Description
Begin Period	The first time period for which data is displayed in the report. Select a value from the Available Periods list.
End Period	The last time period for which data is displayed in the report. Select a value from the Available Periods list.

The following are two sample reports.

Project and Portfolio Management Center

Resource Allocation By Pools (Percentage)

Date Range: 2014-01-01 to 2014-2-9

Assigned = Assigned Hours/Total Available Hours

Resource Allocation By Pools (Hours)

Date Range: 2014-01-01 to 2014-2-9

Assigned = Assigned Hours

Resource Distribution Report

This report shows an overview of resource demand distribution on investment directions.

As a portfolio manager, you can leverage this report to understand whether daily execution is fully aligned with the company's strategies defined and tracked in PPM.

You do not need to specify any parameters for this report.

The following is a sample report.

Resource Distribution

Percentage = Total allocated hours for a business objective / Total allocated hours for all business objective

1

Resource Assignment Report

This report shows an overall picture of the resource pool. This report includes the resource assignment details (such as allocated, unassigned, or assigned) in a specified time period.

With this report, as a resource manager, you can also see a person's assignment.

 Report Parameters [Restore Default](#)

Resource Utilization Report

This report summarizes the resource utilization information for a specified project. The resources utilization rate is calculated by dividing actual hours by allocated hours.

As a resource manager, you can leverage this report to understand if the resources assigned to the project are well utilized and adjust resources within the project and between projects.

This report contains utilization information during a time period and utilization information for individual resources.

Resource pool	Determines which resource pools are represented in the report. From the Resource Pool Name list, select one resource pool name.

The following is a sample report.

Leave By Resources

Date Range: 2013-12-29 to 2014-02-01

Hot Positions Report

This report shows the overall picture of positions requested in the past two years. It shows how recently positions were requested, frequency, and volume in a person hour.

As a resource manager, you can leverage this report to understand which positions are most popular among the customers so that you can hire and train resources more effectively.

You do not need to specify any parameter for this report.

The following is a sample report.

Position Demand Trend and Prediction Report

This report shows the demand of a specified position in the past two years and also predicts the demand in the near future.

As a resource manager, you can leverage this report to hire and train resources more effectively to meet future demands.

This report provides a reasonable predication only when the historical data is complete enough.

Report Parameters Restore Default

*Select Position

Parameter description

Parameter	Description
Position	Select the position that you want to know the trend.

The following is a sample report.

Position Demand Trend and Prediction

Position: Java Developer

Resource Profile by Project Report

This report shows resources profiles for a specified resource pool, which includes resources roles, skills, hot skills, and location information. It also includes how many projects a resource has participated in and how many years he/she has been working for the project.

As a resource manager, you can leverage this report to quickly view all resource information for the resources you manage.
