HP Software
Information Management

HP Structured Data Manager[*] release 7.21
as of December, 2014

Introduction

This document lists the certifications for the HP Structured Data Manager release 7.21. The document is divided into the following sections:

- Operating Systems
- Supported Browsers
- Databases
- Free Text Search
- Storage Adapters for Database to File Archiving
- Cloud Platforms
- SRMS Targets
- Enterprise Applications
- Oracle E-business Suite
- PeopleSoft Enterprise

---

[*] Formerly known as HP Database Archiving (HP DBA) and HP Application Information Optimizer (HP AIO)

1. Operating Systems[†‡§]

Platform

Linux

Oracle Linux 5.6 (x86)
Red Hat ES 5.8 Linux (x86-64)
Red Hat ES 6.2 Linux (x86-64)
Red Hat Enterprise Workstation 6.4 Linux (x86-64)
Red Hat Enterprise Workstation 6.5 Linux (x86-64)

Windows

Windows Server 2008 R2 (x64)
Windows 7 (x86) and (x86-64)
Windows 8 (x64)
Windows Server 2012 (x64)

Designer

Linux

Oracle Linux 5.6 (x86)
Red Hat ES 5.8 Linux (x86-64)
Red Hat ES 6.2 Linux (x86-64)
Red Hat Enterprise Workstation 6.4 Linux (x86-64)
Red Hat Enterprise Workstation 6.5 Linux (x86-64)

Windows

Windows Server 2008 R2 (x64)
Windows 7 (x86) and (x86-64)
Windows 8 (x64)
Windows Server 2012 (x64)

Archive Query Server

Linux

Oracle Linux 5.6 (x86)
Red Hat ES 5.8 Linux (x86-64)
Red Hat ES 6.2 Linux (x86-64)
Red Hat Enterprise Workstation 6.4 Linux (x86-64)
Red Hat Enterprise Workstation 6.5 Linux (x86-64)

[†] If your Unix, Linux or Windows operating system is not supported for a component of HP Structured Data Manager, check with your HP SDM Product Marketing/Management representative. Please note that HP SDM does not have to be on the same server as your database or database applications.
[‡] HP Structured Data Manager is certified with the operating systems and will not be explicitly certified with any virtualization software
[§] If you are using Centera with Red Hat 6.5, contact HP Support.

Windows

Windows Server 2008 R2 (x64)
Windows 7 (x86) and (x86-64)
Windows 8 (x64)
Windows Server 2012 (x64)

Record Query Server

Windows

Windows Server 2008 R2 (x64)

2. Supported Browsers

Internet Explorer

IE 8
IE 9
IE 10
IE 11

Others

Chrome
Firefox

3. Databases **

Data Movement (Archive and Reload)

Oracle

Oracle 9i (9.2.0.6)

Oracle 10g (10.2.0.4)

Oracle 11g (11.2.0.4)
Oracle 12c – including multitenant architecture (12.1.0.2 for Linux, 12.1.0.1 for Windows)

SQL Server

SQL Server 2005 Enterprise Edition SP4
SQL Server 2008
SQL Server 2008 R2
SQL Server 2012

Vertica

Vertica 7.0.0 and Vertica JDBC driver 6.1.2 (as archive target and data access ONLY)

Sybase

12.5 and 15.0 (DB to File ONLY)

DB2

9.7

JDBC

Any JDBC connection (DB to File ONLY)

For Use as Repository

Oracle

Oracle 11g (11.2.0.4)
Oracle 12c – including multitenant architecture (12.1.0.2 for Linux, 12.1.0.1 for Windows)

SQL Server

SQL Server 2008 R2

SQL Server 2012

PostgreSQL

PostgreSQL 9.3

** The source database from which and the target database to which you are archiving can be different instances on different machines. However, the archive source and target databases should be of the same technology, and the target database's version (including patch level) should be the same or higher than the source.

4. Free Text Search

IDOL

10.7

Solr

4.4.0

5. Storage Adapters for Database to File Archiving

Autonomy Archive

Autonomy Consolidated Archive 7.2.1

Autonomy Consolidated Archive in cloud (Digital Safe) 7.7

EMC Centera

4.2

6. Cloud Platforms

HP Cloud Object Storage

Amazon Simple Storage Service (Amazon S3)

7. SRMS Targets

RM 8.1.0 SP2, RM 8.1.0 SP3 and RM 8.1.1

8. Enterprise Applications

Oracle E-Business Suite

See [Integration Packs](#)

PeopleSoft Enterprise

See [Integration Packs](#)

9. Integration Packs

HP Structured Data Manager provides pre-built modules (integration packs) for some of the enterprise applications. These integration packs allow for rapid implementation in environments running the enterprise applications, and address the most common high-growth areas in those applications.

Each integration pack supports a specific version of the supported enterprise application, as detailed in the tables below. If your version is not supported, please check with your HP Structured Data Manager software Product Marketing/Management representative: pre-built modules can be made available according to demand. Additionally, HP Information Management Professional Services Organization can deliver services-based solutions to address other areas with these enterprise applications, including custom tables.

HP Structured Data Manager Integration Packs for <u>Oracle E-Business Suite</u>

Database to Database modules for HP Structured Data Manager release 7.21

E-Business suite R12

SDM 7.21 EBS Integration Pack certified on Oracle Database version 11.2.0.4.

Code	Name	R12.2.4††	R12.2.3††	R12.1.3	11.5.10.2
APPO	Payables and Purchasing	Yes	Yes	Yes	Yes
AR	Receivables	Yes	Yes	Yes	Yes
ASO	Quotes	Yes	Yes	Yes	Yes
AX	Global Accounting	N/A	N/A	N/A	Yes
CC	Inventory Cycle Count	Yes	Yes	Yes	Yes
CE	Cash Management	Yes	Yes	Yes	Yes
CI	Cost Information	Yes	Yes	Yes	Yes
CN	Incentive Compensation	Yes	Yes	Yes	Yes
