HP CloudSystem Enterprise Starter Suite

The HP Cloud and Automation Suites are automation solutions for private and hybrid cloud environments. Each suite combines HP's industry-leading software to assist IT organizations in the rapid and consistent provisioning, deployment, and governance of applications and infrastructures.

HP CloudSystem Enterprise Starter Suite includes the basic set of software that you need to start managing cloud services. Starter Suite's founding software solutions are HP Cloud Service Automation and HP Operations Orchestration, providing self-service provisioning and work-flow automation. HP Server Automation Ultimate provides secure and scalable provisioning, configuring, and patching automation for servers. HP Database and Middleware Automation adds the ability to automate the administration of databases and application servers.

Table 1. HP CloudSystem Enterprise Starter Suite Software

Product	Version
HP Cloud Service Automation	4.20
HP Operations Orchestration	10.20
HP Server Automation Ultimate	10.10
HP Database and Middleware Automation	10.20

HP Cloud Service Automation

HP Cloud Service Automation (HP CSA) provides cloud management software that makes it easy for your business to benefit from secure, compliant cloud services. With HP CSA, you can automate and simplify deployment and management of your choice of hybrid IT services.

Website	HP Cloud Service Automation
Support	HP Software Support (Patches and Product Documentation)
Downloads and Content	HP Live Network
Support Matrix	System and Software Support Matrix

NOTE: Includes five 10 packs for a total of 50 Operating System Instances (OSI).

HP Operations Orchestration

HP Operations Orchestration (HP OO) provides runbook IT automation software to improve service quality by standardizing on reliable, repeatable, and fully auditable task automation. HP OO reduces errors and boosts performance, saving time and money.

Table 3. More about HP Operations Orchestration

Website	HP Operations Orchestration
Support	HP Software Support (Patches and Product Documentation)
Downloads and Content	HP Live Network
Support Matrix	System Requirements

NOTES:

- Supports HP OO Server and Storage Node only.
- Supports 50 Operating System Instances (OSI).

HP Server Automation Ultimate

HP Server Automation Ultimate provides automated lifecycle management for enterprise servers in deploying applications, determining a scalable, heterogeneous baseline, provisioning, patching, configuration management, and script execution.
