Documentation Updates

To check for recent updates or to verify that you are using the most recent edition of a document, go to: <https://softwaresupport.hpe.com/>.

This site requires that you register for an HPE Passport and to sign in. To register for an HPE Passport ID, click **Register** on the HPE Software Support site or click **Create an Account** on the HPE Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

Support

Visit the HPE Software Support site at: <https://softwaresupport.hpe.com/>.

Most of the support areas require that you register as an HPE Passport user and to sign in. Many also require a support contract. To register for an HPE Passport ID, click **Register** on the HPE Support site or click **Create an Account** on the HPE Passport login page.

To find more information about access levels, go to: <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

HPE Software Solutions Now accesses the Solution and Integration Portal website. This site enables you to explore HPE product solutions to meet your business needs, includes a full list of integrations between HPE products, as well as a listing of ITIL processes. The URL for this website is <https://softwaresupport.hpe.com/km/KM01702731>.

OMi Management Pack for Microsoft SharePoint Server Release Notes

For Operations Manager i for Linux and Windows® operating systems

Software version: 1.00

Publication date: April 2017

This document is an overview of the first release of HPE OMi Management Pack for Microsoft SharePoint Server (OMi MP for Microsoft SharePoint Server). It contains important information that is not included in books or Help. You can find information about the following in this document:

["New Features in this Release"](#)

["Installation Notes"](#)

["Known Problems and Workarounds"](#)

["Documentation Updates"](#)

Support Matrix

For information about the installation requirements and compatibility with other products, see the *Support Matrix*. The support matrix may be updated between releases, and the latest version is only available at the HPE Support web site:

<https://softwaresupport.hpe.com/group/softwaresupport/search-result/-/facetsearch/document/KM323488>

New Features in this Release

The OMi MP for Microsoft SharePoint Server works with Operations Manager i (OMi) and enables you to monitor SharePoint Servers in your environment using the Business Service Management (BSM). It contains the following features:

- Out-of-the-box Aspects to monitor the availability and performance of SharePoint Servers in your environment.
- Health Indicators (HIs) and Event Type Indicators (ETIs) to monitor the health and performance of SharePoint Servers.
- Discovery of nodes helps to view the topology and health of SharePoint Servers.
- Configuration Item (CI) based configuration and deployment.
- Parameterization for easy customizations and deployment.
- Run-time Service Model (RTSM) Views to visualize the subset of Configuration Items (CIs).
- Tools to administer the monitoring of SharePoint Servers and helps in troubleshooting.
- Graphs represent pictorial representation of metrics and evaluate the performance of SharePoint Servers in the environment.
- Reports to check the health and efficiency of SharePoint Servers.

Installation Notes

The OMi MP for Microsoft SharePoint Server is available in the OMi MP for Microsoft SharePoint Server electronic media (e-media). The OMi MP for Microsoft SharePoint Server e-media contains the software and the product documentation. You can use the e-media to install the OMi MP for Microsoft SharePoint Server on OMi (Linux or Windows) Servers.

For information about installing the *OMi MP for Microsoft SharePoint Server*, see the *HPE OMi MP for Microsoft SharePoint Server Installation Guide*.

The following table provides information about the documentation available in the [Unified Marketplace](#).

Document	Location	Purpose
Installation Guide	DOCUMENTATION\guides	Installation instructions

User Guide	DOCUMENTATION\guides	
Release Notes	DOCUMENTATION\releasenotes	<p>To provide information about the following:</p> <ul style="list-style-type: none"> • Salient Features • Installation Notes

Known Problems and Workarounds

The reference number for each defect is the Quality Center change request (QCCR) number. For more information about defects, visit [HPE Software Support Online](#), or contact your HPE Support representative directly.

Title: Monitoring Automation fails to undeploy Aspects from deleted Configuration Items (CIs) if properties are resolved from these CIs (**QCCR8D30525**).

Workaround: To resolve this problem, apply the patch (OMI_00068 / OMI_00069) on BSM 9.24.121.

Before undeploying the SharePoint Extended Discovery Aspect, you must ensure to delete the CI assignments associated with the SharePoint Extended Discovery Aspect. This is applicable for **BSM 9.24**.

Title: The License capacity is not updated under License Management for non-monitored nodes on BSM (**QCCR8D21568**).

Description: The License capacity is not updated under License Management on the BSM server when the license counts are reduced. For more information, see **QCCR8D21568** for OMi. This is applicable for **BSM 9.23**.

Workaround: To resolve this problem, apply hotfix for **QCCR8D21568**.

Title: After deployment, it takes around 20 minutes before collection starts (**QCCR1A177248**).

Description: After MP deployment, schedule task policies take around ~20 minutes to launch after deployment on Operations Agent versions 11.13 and 11.14.

Workaround: None

Documentation Updates

The first page of this document identifies the:

- Version number for the software
- Software release date

To check for recent updates or to verify that you are using the most recent edition, visit the [HPE Software Product Manuals](#) web site.

To retrieve a document, select the:

1. **Product** name.
2. **Version** list.
3. **Operating System**.
4. Preferred **Language**.
5. Document title.
6. Click **Open** or **Download**.

You must have Adobe® Reader installed to view files in PDF format (*.pdf). To download Adobe Reader, go to the [Adobe](#) web site.

Send documentation feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

Feedback on Release Notes (OMi Management Pack for Microsoft SharePoint Server 1.00)

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to docfeedback@hpe.com.

We appreciate your feedback!
