## Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

**<https://softwaresupport.hp.com>**

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

**<https://hpp12.passport.hp.com/hppcf/createuser.do>**

Or click the **the Register** link at the top of the HPE Software Support page.

You will also receive updated or new editions if you subscribe to the appropriate product support service.

Contact your HPE sales representative for details.

## Support

Visit the HPE Software Support Online web site at: **<https://softwaresupport.hp.com>**

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

**<https://hpp12.passport.hp.com/hppcf/createuser.do>**

To find more information about access levels, go to:

**<https://softwaresupport.hp.com/web/softwaresupport/access-levels>**

**HP Software Solutions Now** accesses the HPESW Solution and Integration Portal Web site. This site enables you to explore HPE Product Solutions to meet your business needs, includes a full list of Integrations between HPE Products, as well as a listing of ITIL Processes. The URL for this Web site is **<http://h20230.www2.hp.com/sc/solutions/index.jsp>**

## About this PDF Version of Online Help

This document is a PDF version of the online help. This PDF file is provided so you can easily print multiple topics from the help information or read the online help in PDF format. Because this content was originally created to be viewed as online help in a web browser, some topics may not be formatted properly. Some interactive topics may not be present in this PDF version. Those topics can be successfully printed from within the online help.

Documentation	All DMA versions	Comment
<b>WebHelp</b>		
API Reference WebHelp	<a href="https://&lt;dma_server&gt;:8443/dma/api">https://&lt;dma_server&gt;:8443/dma/api</a>	HPE DMA REST application programming interfaces (APIs) documentation, available on all HPE DMA Servers  Replace <dma_server> with the fully qualified host name of your HPE DMA server

## Online Documentation

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<https://softwaresupport.hp.com/group/softwaresupport/>

**Note:** If you have reached this library, you have already signed in with your HPE Passport credentials. You can also receive updated documentation if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

## All Manuals Download

After downloading the *All Manuals Download* zip file, unzip the full set on your local directory. You can then search across the doc set using the Advanced Search capabilities in Adobe Acrobat.

## Support

You can visit the HPESoftware Support web site at:

<https://softwaresupport.hp.com/group/softwaresupport/>

This web site provides contact information and details about the products, services, and support that HPE offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HPEsupport contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HPEPassport user and sign in. Many also require an active support contract. To register for an HPEPassport ID, go to:

<https://hpp12.passport.hp.com/hppcf/createuser.do>

To find more information about support access levels, go to:

<https://softwaresupport.hp.com/web/softwaresupport/access-levels>

HPESoftware Solutions Now accesses the HPSW Solution and Integration Portal Web site. This site enables you to explore HPEProduct Solutions to meet your business needs, includes a full list of Integrations between HPEProducts, as well as a listing of ITIL Processes. The URL for this Web site is:

<http://h20230.www2.hp.com/sc/solutions/index.jsp>

## Support Matrices

For complete support and compatibility information, see the support matrix for the relevant product release. All support matrices and product manuals are available here on the HPE Software Support Online website:

[http://support.openview.hp.com/sc/support\\_matrices.jsp](http://support.openview.hp.com/sc/support_matrices.jsp)

You can also download the HPE Support and Compatibility Matrix for this release from the HPE Self-solve documentation portal:

[HPE DMA 10.40 Support Matrix](#)

## Document Change Notes

The following table provides details of any changes introduced in this version of this document.

Date	Change
December 2015	First version of this document.

# Video Library

This section provides videos on using DMA.

- [Installing JBoss using DMA](#)
- [Configuring SA for JBoss](#)

# Send Documentation Feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

**Feedback on Documentation Library (Database and Middleware Automation 10.40)**

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to [hpe\\_dma\\_docs@hpe.com](mailto:hpe_dma_docs@hpe.com).

We appreciate your feedback!
