In This Version

HP Cloud Service Automation (HP CSA) provides software to integrate specific HP products for the purpose of delivering and managing automated services in a cloud computing environment. For more information about integrated products, see the *HP Cloud Service Automation Solution and Software Support Matrix*.

To ensure the performance and stability of the HP Cloud Service Automation environment, complete the following tasks before installation begins:

- Review supported hardware and software for each component product in order to meet the minimum installation requirements.
- Make sure the relevant patches and hot fixes to the patch releases are applied to the component products.
- Review the release notes for each component product to be aware of additional changes or restrictions.

Installation Notes

Installation requirements are documented in the *HP Software Cloud Service Automation Solution and Software Support Matrix*. Instructions for installing HP Cloud Service Automation are documented in the *HP Cloud Service Automation Installation Guide*.
