

Additional License Authorizations

HP API Management software products

Products covered

Products	E-LTU or E-Media available *	Non-Production use category **
HP Service Governance Framework (SGF)	X	
HP Service Orchestration Manager (SOM)	X	
HP Smart Interaction Server (SIS)	X	

* Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

** Non-production use rights, if any, can be found at www.hp.com/go/SWlicensing.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

Term	Definition
<i>API</i>	Means Application Programming Interface
<i>API Bundle</i>	Means multiple APIs combined together to form one composite API. Also known as 'mashup'.
<i>Concurrent User</i>	Means users who are logged in and accessing the system simultaneously.
<i>Connector</i>	Means applications used to access the network resources such as location service, billing, etc.
<i>E-LTU and E-Media</i>	Means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>Environment</i>	A license required for each department/business, or separate pre-production and production licenses. A new license is not needed if used in the same department/business. A customer does not have to pay again if scaling out the VNF, or for High Availability purposes. If another instance is used for innovation and serving end-users it is considered a new environment.
<i>Internal Use</i>	Means access and Use of the software for purposes of supporting your internal operations or functions.
<i>LTU</i>	Means License To Use
<i>Non-Commercial Use</i>	Non-commercial License applies when there is a need to provide a standalone License to customers, partners or companies in charge of developing add-ons without any goal of running it in a commercial way.
<i>RTU</i>	Means Right To Use
<i>Server</i>	Means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
<i>Session</i>	Parallel connection between server and data source (per single identity). One example is a smartphone app connected to the HP Smart Interaction Server. This would account for 1 session. As another example if the data source is an aggregation gateway like a home gateway for instance, collecting data from various elements like thermostat, TV and camera. It means 3 identities and 1 connection between the gateway and the server. This would account for 3 sessions.
<i>Smart Insights API Bundle</i>	An API bundle used for Big data, and customer intelligence. Has APIs for location, big data, customer interests, etc. See <i>API Bundle</i> .

Term	Definition
<i>Transaction</i>	Means Full API request handling including both request and response message, and internal processing of request by the product, it may also be a notification, without the request.
<i>TPS</i>	Means Transactions Per Second. See <i>Transaction</i> .
<i>Use</i>	Means to install, store, load, execute and display one copy of the software.

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP Service Governance Framework

- **HP SGF Commercial** is licensed by ordering the TPS required by the customer. The SGF is ordered by TPS blocks. If a Licensee needs more TPS, they can upgrade to the next level by paying the price difference between their original system, and the one they are upgrading to.
- **HP SGF API Unified GW** is licensed as a LTU per environment. Please see definition of environment above. One license is required for each environment where the unified gateway software is running.
- **HP SGF Partn Rel Mgmt** is licensed as a LTU per environment. Please see definition of environment above. One license is required for each environment where the Partner Relationship Management (PRM) software is running.
- **HP SGF Non-Commercial** license entitles Licensee to non-commercial use of the product. One Non-Commercial license is required *per-environment*, on which the HP SGF software is running. This license also includes non-commercial use of PRM.

HP Service Orchestration Manager

- **HP SOM Commercial** is licensed by ordering the TPS required by the customer. The SOM is ordered by TPS blocks. If a Licensee needs more TPS, they can purchase additional TPS upgrade packages.
- **HP SOM Connector** is licensed per each connector. For example, if a Licensee required a SMPP and SMS connectors, they would need to purchase 2 SOM connectors.
- **HP SOM Non-Commercial** license entitles Licensee to non-commercial use of the product. One Non-Commercial license is required *per-environment*, on which the HP SOM software is running.

HP Smart Interaction Server

- **HP SIS** is licensed by ordering the base fee plus the concurrent session capacity required. (The HP SIS Base / Environment E-LTU is required for every deployment.) There is also a license for additional plugins.
- **HP SIS 1 Additional Plug-in E-LTU** is licensed as a LTU per environment. One license is required per each Plug-in.
- **HP SIS Non-Commercial** license entitles Licensee to non-commercial use of the product. One Non-Commercial license is required *per-environment*, on which the HP SIS software is running.

Additional license terms

Term

- A. Software contains software and associated specifications licensed from third parties that are confidential to, and trade secrets of, such parties. You will not take any action other than to Use it as authorized under the agreement as part of the software products and will not disclose it to third parties.
 - B. You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
