## Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to: <https://softwaresupport.hp.com>

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

<https://hpp12.passport.hp.com/hppcf/createuser.do>

Or click the **the Register** link at the top of the HP Software Support page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

## Support

Visit the HP Software Support Online web site at: <https://softwaresupport.hp.com>

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

**<https://hpp12.passport.hp.com/hppcf/createuser.do>**

To find more information about access levels, go to:

**<https://softwaresupport.hp.com/web/softwaresupport/access-levels>**

**HP Software Solutions Now** accesses the HPSW Solution and Integration Portal Web site. This site enables you to explore HP Product Solutions to meet your business needs, includes a full list of Integrations between HP Products, as well as a listing of ITIL Processes. The URL for this Web site is **<http://h20230.www2.hp.com/sc/solutions/index.jsp>**

# Introduction

This document provides an overview of the HP Operations Orchestration Middleware Content Pack 1.2.0 release. It contains important information that is not included in the manuals or in the online help.

This release supports the following languages:

- en - English
- fr - French
- de - German
- ja - Japanese
- es - Spanish
- zh\_CN - Simplified Chinese

Middleware Content Pack 1.2.0 is a cumulative Content Pack.

## What's New

The HP Middleware content pack now contains additional information that describes which content packs must be deployed along with the Middleware content pack in order to function properly. The content pack dependency information is visible in HP Operations Orchestration starting with version 10.50.

## Content Pack Integrations

The following table lists the integrations that the Middleware Content Pack supports:

Integration Name	Versions
Apache	N/A
Tomcat	6.x
Bea WebLogic	9.2, 10.3
Citrix XenApp	6.0
IBM Websphere	6.1
IIS	6.0, 7.0
JBoss	4.0.4, 5.0

## Deploying the Middleware Content Pack

OO platform versions 10.00 and later support Middleware Content Pack 1.2.0. However, it is recommended to deploy the Middleware Content Pack 1.2.0 on an existing OO platform version of 10.50 or later.

**Note:** For details on how to uninstall/rollback a content pack, see "Roll back to the last deployment" in the *HP OO Central User Guide*.

## Known Issues

For more information about known issues, visit HP Software Support Online, or contact your HP Support representative directly.

### **[WebLogic] - Missing description for particular inputs on WebLogic flows**

The description is missing for most of the inputs of the "Query Application Deployment Configuration" and "Query Application Deployment Configuration Target" flows found in WebLogic 10.3 (folder Operations/ BEA WebLogic / Applications/...) There are only descriptions for the required inputs.

### **[WebLogic] Incomplete message for wrong server input (Operation : Deploy Application)**

For the operation **path to op**, if the user enters a wrong server name as input, the error message returned is not relevant. The error message is "javax.management.MBeanException: MBean invoke failed: weblogic.management.ManagementException:"

## Fixed Defects

The reference number for each fixed defect is the Quality Center Change Request (QCCR) number.

For more information about fixed defects, visit [HP Software Support Online](#), or contact your HP Support representative directly.

CR Number	Title	Description
QCCR8C21310	IIS operations fail when not run in localhost	The description of the IIS folder ( <i>/Library/Operations/IIS/</i> ) has been updated to include helpful configuration information for running IIS operations.
