July 23rd, 2015

Dear HP Dragon Customer,

In June 2015, HP announced the availability of HP DRAGON 6.7 running on RHEL6.6. This new HP Dragon version improves upon previous HP Dragon versions that you have been accustomed to, and provides significant breakthrough in customer value through new functionalities and enhancements such as:

- confirmation of HP Dragon commitment on the new product software modules launched so far for the user interface, query & retrieval and data load supporting different types of OS and archive technologies.
- a wide range of certification update, for HP DRAGON 3rd party software, is now available, including JDK7 for all the server modules, Oracle 12c, MySQL 5.6, RHEL6.6, IE11, Rainstor 6.1.2 and Qosmos 5.3.1.

The release of HP Dragon 6.7 impacts the End-of-Sale and End-of-Support dates of previous HP Dragon 6.4 release as described below:

End of Sale and End of Support for HP Dragon 6.4

HP Dragon 6.4 product support will end on October 31st, 2016.

HP Dragon 6.4 will be no longer orderable or available for purchase on August 17th, 2015.

Please note that all HP Dragon customers with active support contracts are eligible to upgrade to HP Dragon 6.7 as a license upgrade.

While the HP Dragon 6.4 version may continue to meet your immediate needs, HP recommends that all customers upgrade to the highest versions provided as part of the license migration.

More information

HP is committed to work with you, making the migration to newer version of HP DRAGON a positive experience. We realize that our HP DRAGON customers will need to evaluate their options in order to meet their ongoing business needs and objectives: with this in mind, HP is pleased to offer additional services to execute this transition according to the plan that best suits you. This includes consulting, setup and upgrade services for a range of heterogeneous environments covering software, hardware, operating system and third party applications.

Please contact your HP Sales representative to discuss the advantages of migrating to HP DRAGON V6.7 and let us help you plan the best migration path to meet your needs. If you do not have a current HP Sales representative, please contact HP DRAGON Product Management at the address below.

HP once again wishes to thank you for choosing HP Dragon. We appreciate your business and look forward continuing to serve your business needs in the future.

Best Regards,

Guglielmo Caruso
HP DRAGON Product Manager
