HP ArcSight Enterprise Security Manager Suite	Yes	Class 2

^{*} Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

^{**} Non-production use rights, if any, can be found at www.hpe.com/software/SWlicensing.

^{***} HP ArcSight Threat Detector previously was called HP ArcSight Pattern Discovery

Note: HP ArcSight Application View is covered in the ALA document for Software Security Center.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Actor	means a person who is being monitored by the software.
Appliance or Appl	means an Instance of software loaded and pre-configured on a Server.
Application Server	means a computer running software that executes business or application logic that is made available to a web server for processing requests. Application servers are typically J2EE applications servers or. Net application servers.
Asset	means a single IT Device being imported or being created within the software.
Cold Standby System	means a standby non-production system which is NOT up and running. If the production system breaks down, or needs to be taken out of service, you are required to switch on and start the Cold Standby System in order to take over for the production system.
Concurrent Users or CC Users	means the Software is licensed by the amount of users that simultaneously use the software at any one point in time. The software can be installed on any number of computers, provided that the actual usage of the software does not exceed the number of licenses purchased.
Connector or Conn	means an integration element to a certain software, Device format, Appliance or function through use of the HPE software product. An Onboard Connector means software that resides on the HP ArcSight Appliance that communicates with your data center. A Remote Connector is software that resides on your computer that communicates with the HP ArcSight Appliance.
Core	means a part of a CPU that executes a single stream of compiled instruction code.
CPU	means a system in a single integrated circuit package with one or more discrete processing Cores.

TERM	DEFINITION
Desktop Device or DT Dev	means a single Device such as a PC, laptop or handheld Device.
Development and Test Systems	means a non-production system to be used for a) developing your add-on applications in order to access the licensed software b) migration testing c) pre-production staging or d) version upgrades/configurations and transition purposes.
Device or Dev	means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking.
Domains or Dom or D	means separately licensed features of HP ArcSight ESM that enables custom data set and fields.
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
EPS	means events per second.
Flows Per Minute	means flow events per minute (eg. NetFlow, JFlow, SFlow).
GB	means gigabytes which designates the amount of physical capacity that can be managed.
GB/per day or GB/d	means gigabytes which designates the amount of physical capacity that can be collected during a twenty-four (24) hour period.
High Availability or HA	means Hot Standby System.
Hot Standby System	means a non-production system which is up and running, ready to take over from the production system if the production system breaks down or needs to be taken out of service.
HP ArcSight Documentation	means any written materials regarding the software specifications, development and test processes, formats, methodologies and practices provided by HPE to you.
Implementation or Imp or IMP	means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the Software.
Instance	means each implementation of the application installed on a Server.
LTU	means License To Use .
MA	means a software upgrade to an Appliance.
Monitored Applications or Mon App	means software application from which the software collects logs.
Monitored Devices or Mon Dev	means a device from which the software collects logs.
Monitored Desktops	means Desktop Device from which the software collects logs.
Named User or Nmd User	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
NFR	means a Not for Resale license which is limited to use by HPE partners.
Nodes or Nd	means a collection of network interfaces that the software can pragmatically associate together.
Non-Production or NP	means internal use which is limited to Use on Development and Test Systems and Hot and/or Cold Standby Systems. This NP license requires the previous purchase of the equivalent or greater production licenses. Support for NP licenses is restricted to the period of and current status of the equivalent production license.
NOLOG	means that this Appliance does not include HP ArcSight Logger.

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP ArcSight Connector Appliance

HP ArcSight Connector Appliances are licensed as indicated in the table below:

APPLIANCE	OFFERING INCLUDES
HP ArcSight CONAPP- C3500 Server	<ul style="list-style-type: none"> Connector Appliance with Up to 2500 EPS, Onboard Connectors and Connector management capabilities.
HP ArcSight CONAPP C5500 Server	<ul style="list-style-type: none"> Connector Appliance with Up to 5000 EPS, Onboard Connectors and connector management capabilities.

Note: The license restrictions above are also applicable to the HA, NP, NFR versions of these Appliances.

HP ArcSight Connector Hosting Appliance

HP ArcSight Connector Hosting Appliances are licensed as indicated in the table below:

APPLIANCE	OFFERING INCLUDES
HP ArcSight Connector Hosting Appliance C6599 Server	<ul style="list-style-type: none"> 32 Onboard Connectors, Unlimited remote managed Connectors, and Unlimited management of supported ArcSight products

Note: The license restrictions above are also applicable to the HA, NP, NFR versions of these Appliances.

HP ArcSight Console, Web and Viewer

HP ArcSight Console, Web and Viewer are licensed by the number of Users set forth in the applicable order(s) for the products.

HP ArcSight Data Security Platform

HP ArcSight Data Security Platform (Platform) is licensed by GB/day ingested.

SUITE	OFFERING INCLUDES
HP ArcSight Data Security Platform 5GB/day	<ul style="list-style-type: none"> 1 HP ArcSight Logger 5 GB/day. 1 HP ArcSight Management Center software with Unlimited Remote managed Connectors, and Unlimited managed ArcSight products.

APPLIANCE	OFFERING INCLUDES
HP ArcSight Data Security Platform Appliance 30 GB/day L3505 Server	<ul style="list-style-type: none"> 1 HP ArcSight Logger L3505 up to 30 GB/day. 1 HP ArcSight Management Center software with Unlimited Remote managed Connectors, and Unlimited managed ArcSight products.
HP ArcSight Data Security Platform Appliance 80 GB/day L7505S Server	<ul style="list-style-type: none"> 1 HP ArcSight Logger L7505S up to 80 GB/day. 1 HP ArcSight Management Center software with Unlimited Remote managed Connectors, and Unlimited managed ArcSight products.
HP ArcSight Data Security Platform Appliance 160 GB/day L7505X Server	<ul style="list-style-type: none"> 1 HP ArcSight Logger L7505X up to 160 GB/day. 1 HP ArcSight Management Center software with Unlimited Remote managed Connectors, and Unlimited managed ArcSight products.
HP ArcSight Data Security Platform Appliance 160 GB/day L7505-SAN Server	<ul style="list-style-type: none"> 1 HP ArcSight Logger L7505-SAN up to 160 GB/day. 1 HP ArcSight Management Center software with Unlimited Remote managed Connectors, and Unlimited managed ArcSight products.

Note: The license restrictions above are also applicable to the HA, NP, NFR versions of these appliance and software products.

HP ArcSight Data Security Platform capacity can also be augmented in increments of 5 GB/per day as follows:

LICENSE	OFFERING INCLUDES
Add-On 5GB/d	<ul style="list-style-type: none"> HP ArcSight Data Security Platform collecting up to an additional 5GB/d (up to a maximum total of 500 GB/d per Logger Instance).

HP ArcSight Enterprise Security Manager

HP ArcSight Enterprise Security Manager (ESM) is either licensed per Core, per GB/per day or per EPS. The following HP ArcSight Enterprise Security Manager Suites are licensed by GB/per day:

SUITE	OFFERING INCLUDES
HP ArcSight Enterprise Security Manager Suite 20 GB per day	<ul style="list-style-type: none"> 1 HP ArcSight Enterprise Security Manager 20 GB per day 100 HP ArcSight Monitored Devices 10 HP ArcSight Enterprise Security Manager Web Users 2 HP ArcSight Enterprise Security Manager Console Users 10,000 HP ArcSight Monitored Vulnerability Assessment Scans Nodes 50 HP ArcSight Identity View Users 4 HP ArcSight Connector Appliance Connectors
HP ArcSight Enterprise Security Manager Suite 50 GB per day	<ul style="list-style-type: none"> 1 HP ArcSight Enterprise Security Manager 50 GB per day 250 HP ArcSight Monitored Devices 25 HP ArcSight Enterprise Security Manager Web Users 3 HP ArcSight Enterprise Security Manager Console Users 10,000 HP ArcSight Monitored Vulnerability Assessment Scans Nodes 50 HP ArcSight Identity View Users 4 HP ArcSight Connector Appliance Connectors
HP ArcSight Enterprise Security Manager Suite 100 GB per day	<ul style="list-style-type: none"> 1 HP ArcSight Enterprise Security Manager 100 GB per day 500 HP ArcSight Monitored Devices 25 HP ArcSight Enterprise Security Manager Web Users 3 HP ArcSight Enterprise Security Manager Console Users 10,000 HP ArcSight Monitored Vulnerability Assessment Scans Nodes 50 HP ArcSight Identity View Users 4 HP ArcSight Connector Appliance Connectors
HP ArcSight Enterprise Security Manager Suite 150 GB per day	<ul style="list-style-type: none"> 1 HP ArcSight Enterprise Security Manager 150 GB per day 500 HP ArcSight Monitored Devices 25 HP ArcSight Enterprise Security Manager Web Users 3 HP ArcSight Enterprise Security Manager Console Users 10,000 HP ArcSight Monitored Vulnerability Assessment Scans Nodes 50 HP ArcSight Identity View Users 4 HP ArcSight Connector Appliance Connectors
HP ArcSight Enterprise Security Manager Suite 250 GB per day	<ul style="list-style-type: none"> 1 HP ArcSight Enterprise Security Manager 250 GB per day 500 HP ArcSight Monitored Devices 25 HP ArcSight Enterprise Security Manager Web Users 3 HP ArcSight Enterprise Security Manager Console Users 10,000 HP ArcSight Monitored Vulnerability Assessment Scans Nodes 50 HP ArcSight Identity View Users 4 HP ArcSight Connector Appliance Connectors

HP ArcSight Enterprise System Connector for HP Service Manager

HP ArcSight Enterprise System Connector for HP Service Manager is provided as part of HP ArcSight Enterprise Security Manager or HP ArcSight ESM Express (previously called HP ArcSight Express) licenses. It is designed to facilitate communicate between HP ArcSight Enterprise Security Manager and HP Service Manager.

HP ArcSight Enterprise View

HP ArcSight Enterprise View is licensed by Instance and by Asset and includes a reporting tool module which is further restricted to 10 Concurrent Users who may only view reports and 2 Named Users who may also edit and configure reports. When using Concurrent User licenses, you may not utilize a program or system to cache or queue report requests. Notwithstanding anything to the contrary in the definition of Concurrent User, Enterprise View may only be installed on the number of Assets for which is has been licensed and Concurrent Users are tied to one deployment of the software and may not be shared among different deployments. A Named User license may not be transferred from one individual to another unless the original Named User no longer requires, and is no longer permitted to access, edit and configure the reports.

HP ArcSight ESM Express (previously called HP ArcSight Express)

HP ArcSight ESM Express is sold as an Appliance and is licensed by sustained EPS. The applicable limits for the Appliance are the number of Devices and EPS licensed as described below and for the Virtual Appliance are the number of Sustained EPS as described below:

APPLIANCE	OFFERING INCLUDES
HP ArcSight EE-7602 Server	<ul style="list-style-type: none"> 250 Sustained EPS, Unlimited Devices, Console Users, Web Users, and Assets.
HP ArcSight EE-7610 Server	<ul style="list-style-type: none"> 1,000 Sustained EPS, Unlimited Devices, Console Users, Web Users, and Assets.
HP ArcSight EE-7625 Server	<ul style="list-style-type: none"> 2,500 Sustained EPS, Unlimited Devices, Console Users, Web Users, and Assets.

Notes: The license restrictions above are also applicable to the HA, NP, NFR versions of these Appliances.

HP ArcSight ESM Express Appliance capacity can also be augmented in increments of 50 EPS as follows:

ADD-ON	OFFERING INCLUDES
Add-On 50 EPS	<ul style="list-style-type: none"> HP ArcSight ESM Express ingesting an additional 50 Sustained EPS

HP ArcSight Express Virtual Appliance

For HP ArcSight Express Virtual Appliance (which includes 250 Sustained EPS), additional Sustained EPS can be purchased, up to a maximum of 1,250 Sustained EPS.

VIRTUAL APPLIANCE	OFFERING INCLUDES
HP ArcSight Express Virtual Appliance	<ul style="list-style-type: none"> HP ArcSight Express Virtual Appliance with 250 Sustained EPS.

HP ArcSight Flex Connector Kit

HP ArcSight Flex Connector Kit is a software development product (“SDK”) that allows you to Use the software’s object code to configure a Connector that can only be used to monitor Devices not supported by HP ArcSight software (“Flex Connector”). Flex Connectors shall be owned by HP and used solely with the HP ArcSight software and use with any other software or other technology for any purpose including, without limitation, Device monitoring, is expressly prohibited. Your license to use the Flex Connectors expires upon termination or expiration of your HP ArcSight software license.

When the HP ArcSight Flex Connector Kit is purchased in conjunction with one of HP Operations Analytics Express Edition (previously called HP Operations Log Intelligence), HP Operations Analytics Premium Edition or HP Operations Analytics Ultimate Edition, you must have an HP Operations Analytics Express Edition, HP Operations Analytics Premium Edition or HP Operations Analytics Ultimate Edition Node license for

each Device that will run the Flex Connectors created using the HP ArcSight Flex Connector Kit. Flex Connectors shall be owned by HP and used solely with the HP Operations Analytics Express Edition, HP Operations Analytics Premium Edition or HP Operations Analytics Ultimate Edition software and use with any other software or other technology for any purpose including, without limitation, Device monitoring, is expressly prohibited. Your license to use the Flex Connectors expires upon termination or expiration of your HP Operations Analytics Express Edition, HP Operations Analytics Premium Edition or HP Operations Analytics Ultimate Edition license. For any Device that runs a Flex Connector created using the HP ArcSight Flex Connector Kit, you must have either an HP Operations Analytics Express Edition, HP Operations Analytics Premium Edition or HP Operations Analytics Ultimate Edition Node license, or an HP ArcSight Device license, but not both.

HP ArcSight IDOL Email Analytics Pack for ArcSight Enterprise Security Manager

HP ArcSight IDOL Email Analytics Pack for ArcSight Enterprise Security Manager is licensed per TB.

HP ArcSight IDOL Social Media Analytics Pack for ArcSight Enterprise Security Manager

HP ArcSight IDOL Social Media Analytics Pack for ArcSight Enterprise Security Manager is licensed per TB.

HP ArcSight Interactive Discovery

HP ArcSight Interactive Discovery is licensed by Instance and includes a license for Advizor which is licensed in accordance with HPE Terms and conditions and can only be used with HP ArcSight ESM and Logger. The Advizor software is marked as confidential.

HP ArcSight Logger

As of April 2014, HP ArcSight Logger is licensed as indicated below.

LICENSE	OFFERING INCLUDES
5GB/d	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 5GB/d
Add-On 5GB/d	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to an additional 5GB/d (up to a maximum total of 500 GB/d per Logger Instance)

For purchases until April 2014, HP ArcSight Logger software is licensed per GB/per day and per Device as indicated below.

LICENSE	OFFERING INCLUDES
5 GB/d, 50 Dev	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 5GB/per day from a maximum of 50 Devices, total searchable space 250 GB per Instance.
30 GB/d, 200 Dev	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 30GB/per day from a maximum of 200 Devices, total searchable space 800 GB per Instance.
80 GB/d, 500 Dev	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 80GB/per day from a maximum of 500 Devices, total searchable space 4.2 TB per Instance.
160 GB/d, unl Dev	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 160GB/per day from Unlimited Devices, total searchable space 4.2 TB per Instance.
250 GB/d, unl Dev	<ul style="list-style-type: none"> HP ArcSight Logger collecting up to 250GB/per day from Unlimited Devices, total searchable space 4.2 TB per Instance.

HP ArcSight Logger software licensed with an Appliance is licensed as indicated in the table below:

APPLIANCE	OFFERING INCLUDES
HP ArcSight L3500 Server	<ul style="list-style-type: none"> ArcSight Logger up to 2k raw EPS, 200 local connector EPS, Connector management and 200 Devices.
HP ArcSight L3505 Server	<ul style="list-style-type: none"> ArcSight Logger up to 30 GB/d.
HP ArcSight L7500S Server	<ul style="list-style-type: none"> ArcSight Logger up to 5k EPS and 500 Devices.
HP ArcSight L7505S Server	<ul style="list-style-type: none"> ArcSight Logger up to 80 GB/d.
HP ArcSight L7500-SAN Server	<ul style="list-style-type: none"> ArcSight Logger up to 75k EPS and Unlimited Devices for exclusive use with external SAN storage.
HP ArcSight L7505-SAN Server	<ul style="list-style-type: none"> ArcSight Logger up to 160 GB/d.
HP ArcSight L7500X Server	<ul style="list-style-type: none"> ArcSight Logger up to 100k and Unlimited Devices.
HP ArcSight L7505X Server	<ul style="list-style-type: none"> ArcSight Logger up to 160 GB/d.

Note: The license restrictions above are also applicable to the HA, NP, NFR versions of these Appliances.

HP ArcSight Logger Device licenses count toward each unique hardware device (VM, server, firewall, etc) that creates an event. Devices feeding into an aggregator such as a syslog server are still counted uniquely. Multiple sources on the same Device (for instance AV, SQL Server and Windows ® on the same server) count as a single Device.

HP ArcSight Management Center

HP ArcSight Management Center is licensed by Connector and limited to use with an HP ArcSight Product.

HP ArcSight Management Center Appliances are licensed as indicated in the table below:

APPLIANCE	OFFERING INCLUDES
HP ArcSight Management Center C6502 Onboard Connector Model Appliance Server	<ul style="list-style-type: none"> 8 Onboard Connectors.
HP ArcSight Management Center C6504 Onboard Connector Model Appliance Server	<ul style="list-style-type: none"> 16 Onboard Connectors.
HP ArcSight Management Center C6508 Onboard Connector Model Appliance Server	<ul style="list-style-type: none"> 32 Onboard Connectors.
HP ArcSight Management Center C6515S Management Model Appliance Server	<ul style="list-style-type: none"> 4 Onboard Connectors and management of 200 Connectors and 15 ArcSight Products.
HP ArcSight Management Center C6545P Management Model Appliance Server	<ul style="list-style-type: none"> 4 Onboard Connectors and management of 300 Connectors and 45 ArcSight Products.
HP ArcSight Management Center C6500E Management Model Appliance Server	<ul style="list-style-type: none"> 4 Onboard Connectors and management of 400 Connectors and 100 ArcSight Products.
HP ArcSight Management Center C6500M Management Model Appliance Server	<ul style="list-style-type: none"> 4 Onboard Connectors and 1000 maximum Connectors Management Model.

Note: The license restrictions above are also applicable to the HA, NP, NFR versions of these Appliances.

HP ArcSight Monitored Application User

HP ArcSight Monitored Application Users are the aggregate number of Users per application as set forth in the applicable order(s) for products.

HP ArcSight Monitored Devices

HP ArcSight Monitored Devices is licensed per Monitored Devices solely (a) to collect data from the aggregate number of network, security and server Devices, and (b) solely with the aggregate number of Users per application.

HP ArcSight Monitored Desktops

HP ArcSight Monitored Desktops is licensed per Desktop Device.

HP ArcSight Monitored Vulnerability Assessment Scans

HP ArcSight Monitored Vulnerability Assessment Scan is licensed per Node and is used solely to collect data from the aggregate number of Devices set forth in applicable order for products.

HP ArcSight Reputation Security Monitor

HP ArcSight Reputation Security Monitor is licensed by Implementation.

HP ArcSight Risk Insight

HP ArcSight Risk Insight for Enterprise Security Manager is licensed by ESM Server and by Asset.

HP ArcSight Standard Connectors

HP ArcSight Standard Connectors are software modules provided as part of HP ArcSight ESM, Express or Logger licenses. Standard Connectors are designed to fetch data from Servers or other event sources in customer environments, normalize that data, and feed it into additional HP ArcSight products. Connectors may not be used to feed event data into any non-HP ArcSight products.

HP ArcSight Threat Detector

HP ArcSight Threat Detector is a software add-on for HP ArcSight Enterprise Security Manager and HP ArcSight ESM Express. HP ArcSight Threat Detector is licensed by Appliance, by ESM Core, by GB/per day or by EPS (licensing depends on which product or Suite adding onto).

HP ArcSight Threat Response Manager

HP ArcSight Threat Response Manager is licensed by Device per Virtual Appliance.

HP User Behavior Analytics

HP User Behavior Analytics is licensed per Actor.

Additional license terms

TERM

A. Complete Product	You shall install and use the software as authorized in the applicable agreement and this ALA only as a complete product and may not use portions of such software on a standalone basis separate from the complete software or separate from the Server if delivered as an Appliance unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
B. Additional Software License terms	You shall not access the embedded Oracle ® database or any other third-party product embedded in the HP ArcSight software with applications other than the HP ArcSight software.
C. Performance Information	You will not (and will not instruct, authorize or allow any third party to) publicly disseminate any performance information or analysis (including, without limitation, benchmarks and performance tests) from any source relating to the software.
D. Security and Network Acknowledgements	You acknowledge and agree that the software (i) accumulates and organizes security information that, in the wrong hands, could serve as a blueprint of your security system and its vulnerabilities and that any disclosure of such information could result in substantial harm to you and others. You will be solely responsible for any disclosure of such information; and (ii) is designed to give the user emergency administrator-level control over your computer network, with the ability to dynamically reconfigure or disable network infrastructure devices, change network topology and exclude network access. Such networking products should be used only by users who have been trained in the use of such networking products. Improper use of such networking products may result in significant network damage or downtime. You assume all risks associated with the operation of such networking products.
E. Additional third party terms	You shall not (and will not instruct, authorize or allow any third party to) create, modify, change the behavior of, classes, interfaces, or sub packages that are in any way identified as "java", "javax", "sun" or similar convention as specified by Oracle ® in any naming convention designation. In the event that you create an additional API(s) which: (a) extends the functionality of a Java Environment; and (b) is exposed to third party software developers for the purpose of developing additional software which invokes such additional API, you must promptly publish broadly an accurate specification for such API for free use by all developers. Oracle and Java Trademarks and Logos. You may not use an Oracle America, Inc. name, trademark, service mark, logo or icon. You acknowledge that Oracle owns the Java trademark and all Java-related trademarks, logos and icons including the Coffee Cup and Duke ("Java Marks") and agrees to: (a) comply with the Java Trademark Guidelines at http://www.oracle.com/html/3party.html ; (b) not to do anything harmful to or inconsistent with Oracle's rights in the Java Marks; and (c) assist Oracle in protecting those rights, including assigning to Oracle any rights acquired by you in any Java Mark. Source Code. Software may contain source code that, unless expressly licensed for other purposes, is provided solely for reference purposes pursuant to the terms of your license. Source code may not be redistributed unless expressly provided for in the terms of your license. Third Party Code. Additional copyright notices and license terms applicable to portions of the software are set forth in the Third Party Copyright Notices and License terms and the THIRDPARTYLICENSEREADME.txt file contained therein that can be accessed from the ancillary.txt file or user documentation.

Additional license terms

TERM (CONTINUED)

F. Additional Confidentiality Terms	<p>The software, HP ArcSight Documentation and technical information and other code or data of any type provided by HPE (or its agents), are HPE Confidential Information or the confidential information of third parties without any marking or further designation ("Confidential Information"). You will hold in confidence and not use or disclose any Confidential Information, except as expressly permitted in the Agreement and this ALA.</p> <p>Your nondisclosure obligation will not apply to information which you can document: (i) was rightfully in its possession or known to it prior to receipt of the Confidential Information; (ii) is or has become public knowledge through no fault of you (iii) is rightfully obtained by you from a third party without breach of any confidentiality obligation; or (iv) is independently developed by employees or contractors of you who had no access to such information.</p> <p>You will not disclose such Confidential Information to any third party except to those of its employees and contractors that need to know such Confidential Information for the purpose of Using the software, provided that each such employee and contractor is subject to a written agreement that includes binding use and disclosure restrictions that are at least as protective as those set forth herein. You will use all reasonable efforts to maintain the confidentiality of all such Confidential Information in its possession or control, but in no event less than the efforts that you ordinarily use with respect to its own proprietary information of similar nature and importance. The foregoing obligations will not restrict you from disclosing Confidential Information of the other party: (i) pursuant to the order or requirement of a court, administrative agency or tribunal or other governmental body, provided that the party required to make such a disclosure gives reasonable written notice to the other party to contest such order or requirement; and (ii) on a confidential basis to its legal or financial advisors.</p>
G. Logger Back-ups	<p>The archiving functionality of HP ArcSight Logger must be enabled in order for the product to back up data on a daily basis. In the unanticipated event in which data corruption occurs, the backup data will help you to restore the data for search and reporting purposes.</p>
H. Limitation of Liabilities and Remedies	<p>IN NO EVENT WILL HPE'S LICENSORS BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, OR CONSEQUENTIAL COSTS OR DAMAGES OF ANY KIND OR FOR ANY DOWNTIME COSTS; LOST BUSINESS, REVENUES, OR PROFITS; FAILURE TO REALIZE EXPECTED SAVINGS; LOSS OR UNAVAILABILITY OF OR DAMAGE TO DATA; OR SOFTWARE RESTORATION WHETHER OR NOT THAT PARTY WAS AWARE OR SHOULD HAVE BEEN AWARE OF THE POSSIBILITY OF SUCH COSTS, EXPENSES, OR DAMAGES. IN ADDITION, ORACLE WILL NOT BE LIABLE FOR DIRECT DAMAGES CAUSED BY ITS DATABASE SOFTWARE. HPE DISCLAIMS RESPONSIBILITY FOR ANY DATA LOSS IN THE EVENT OF A HARDWARE FAILURE. HARDWARE MUST BE CONTINUALLY MONITORED TO IDENTIFY IMMINENT DISK FAILURES AS EARLY AS POSSIBLE AND TO ALLOW FOR APPROPRIATE MEASURES TO BE TAKEN TO MINIMIZE THE LIKELIHOOD OF DATA LOSS.</p>
I. Additional Governing Law Terms	<p>The provisions of the Uniform Computer Information Transactions Act shall not apply to any license of the HP ArcSight products.</p>
