Hewlett Packard Enterprise

Additional License Authorizations

For HPE Unified Information and Analytics software products

Products and suites covered

PRODUCTS	E-LTU OR E-MEDIA AVAILABLE [*]	NON-PRODUCTION USE CATEGORY [**]
HP Audio Analytics	Yes	Class 4
HP IDOL Express	Yes	Class 4
HP IDOL Premium	Yes	Class 4
HP Media Management and Analysis Platform	Yes	Class 4
HP Surveillance Analytics	Yes	Class 4
HP Visual Analytics	Yes	Class 4

[*] Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

[**] Non-production use rights, if any, can be found at **wwhpe.com/software/SWlicensing**.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Core	means a part of a CPU that executes a single stream of compiled instruction code.
CPU	means a system in a single integrated circuit package with one or more discrete processing Cores.
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
GB	means gigabytes which designates the amount of physical capacity that can be managed.
Instance	means each implementation of the application installed on a Server.
IDOL Raw Data Size	means the uncompressed size of all documents, including text and meta data, that are stored in a node table excluding any deleted documents that have not been purged.
LTU	means License To Use.
Server or SVR	means any designated computer system in which an Instance or Instances of the software is installed.
TB	means terabytes which designates the amount of physical capacity that can be managed.

TERM	DEFINITION
Term License to Use or Term LTU	means a software license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTUs are not perpetual licenses.
Term Support	means a fixed period support offering that is only valid during the time period of the associated Term LTU.
Unlimited or Unl	means without restrictions in terms of number of systems, devices or media, depending on the context.
User	means a user whose use is restricted to the type of software that is being licensed.

Software specific license terms

Software products with software specific license terms are described below.

HP Audio Analytics

Each HP Audio Analytics Server is licensed per channel of ingest and for that channel any combination of the analytics can be applied. The features and functionality included in HP Audio Analytics are as follows:

Functions
- Speech to Text
- Phonetic Phrase Search
- Speaker Segmentation and Identification
- Spoken Language Identification
- Transcript Alignment
- Audio Quality and Classification
- Audio Fingerprint Identification
- Audio Security
- Language Customization
- Acoustic Adaptation

When combined with Speech (Audio) Server licenses, Visual Server provides visual and audio analysis in one seamless package.

HP IDOL Express

HP IDOL Express is licensed by GB measured in IDOL Raw Data Size on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users. The features and functions included in HP IDOL Express are as follows:

Functions
- Automatic Query Guidance
- Hyperlinking
- Summarization
- Dynamic Thesaurus
- Spelling Correction
- Retrieval-Concept
- Retrieval-Advanced, Retrieval-Lite
- Auto-Language Detection
- Highlighting
- Retrieval-Parametric

Infrastructure Tools
- Distributed Index Handler
- Distributed Action Handler
- DisH
- Generic Mapped Security (IAS)
- Application Builder ACI-API

Administration Tools
- IDOL Admin
- IDOL Site Admin

Business Administration Tools
- IDOL Search Optimizer

Connectors

The **Connect** functionality includes the following list of connectors, and includes the ability to connect to and access data from repositories:

- Alfresco
- Amazon Commerce Web Service
- Box.net
- Confluence
- DataSift
- Documentum
- Exchange WS
- Exchange
- eRoom
- Facebook
- FileNet P8
- Filesystem
- FTP
- Google Drive
- Hadoop
- HTTP
- IBM Seedlist
- IMAP
- Jive
- LinkedIn
- Lotus Notes
- Lync
- ODBC
- OpenText/Hummingbird
- Oracle
- POP3
- RSS
- Salesforce
- SharePoint 2007
- SharePoint 2010
- SharePoint 2013
- SharePoint Remote
- StoreAll
- Twitter
- Vertica
- WC3 Atom
- Weibo
- Yahoo! Search
- YouTube

HP IDOL Premium

HP IDOL Premium is licensed by GB measured in IDOL Raw Data Size on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users. The features and functionality included in HP IDOL Premium includes those in HP IDOL Express listed above and the following:

Functions

- Personalization Package (Alerting, Mailing, Agents)
- Expertise Package (Collaboration, Expertise-All, Profiling)
- Taxonomy Generation
- Categorization and Channels
- Clustering-All
- Education-Basic
- Education-Sentiment Analysis
- Geospatial
- Visualization

Business Administration Tools

- IDOL Collaborative Classifier

Connectors

The **ConnectPlus** functionality includes the following list of additional connectors:

- Confluence
- Documentum
- Exchange WS
- Exchange
- eRoom
- FileNet P8
- Filesystem
- FTP
- Hadoop
- IBM Seedlist
- IMAP
- Lotus Notes
- OpenText/Hummingbird
- Oracle
- POP3
- SharePoint 2007
- SharePoint 2010
- SharePoint Remote
- StoreAll

and includes one or more advanced features such as:

- View: view a document in native or near native view
- Collect: retrieve documents and send them to a destination, such as a shared folder
- Hold: make a set of documents unchangeable in the source repository
- Release: feature provides the opposite capability of Hold
- Delete: delete, unlink, and remove a set of documents from a repository
- Update: change repository metadata about a set of documents (created time, author, etc.)
- Insert: add a document into a repository

HP Media Management and Analysis Platform

Each HP Media Management and Analysis Platform Media server is licensed per channel of ingest and for that channel any combination of the analytics can be enabled. HP Surveillance, Video and Audio Analytics are separately licensed products, applicable licenses must be purchased to enable the respective analytic functionality. The features and functionality included in HP Media Management and Analysis Platform are as follows:

Functions

- Media server
  - Ingest engines
  - Output engines
  - Transformation engines
  - Event stream processing engines

- HTML5 Widgets
  - Media player
  - Timeline
  - Transcript

- RestFUL API's
  - Folder Management
  - Camera Management
  - Channel Management
  - Recorder Management
  - Source Recording
  - Video Streaming
  - Keyframes
  - Video Clipping
  - Frame Extraction

HP Surveillance Analytics

Each HP Surveillance Analytics Server is licensed per camera IP stream and for such IP stream, any combination of the functions below can be applied. The features and functionality included in HP Surveillance Analytics are as follows:

Functions

- SceneAnalysis
- NumberPlate

- FaceDetect
- Demographics

- FaceRecognize

HP Visual Analytics

Each HP Visual Analytics Server is licensed per channel of ingest and for that channel any combination of the analytics can be applied. The features and functionality included in HP Visual Analytics are as follows:

Functions

- Barcode
- FaceDetect
- Demographics
- FaceRecognize

- FaceState
- Keyframe
- Object
- ObjectClas

- OCR
- SceneAnalysis
- NumberPlate

When combined with Speech (Audio) Server licenses, Visual Server provides visual and audio analysis in one seamless package.

Additional license terms

	TERM
A.	Any licensing terms designated as being of Autonomy that may be embedded in the software are inapplicable in their entirety.
