Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Bundle <i>or</i> Bdl	means an offering which includes a Term LTU, Term Support and SaaS.
Connector <i>or</i> Conn	means an integration element to a certain software, format or function through use of the HP software product.
Concurrent User <i>or</i> CC Users	means the software is licensed by the amount of users that simultaneously Use the software. The software can be installed on any number of computers provided that the actual usage of the software does not exceed the number of licenses purchased.
E-LTU <i>and</i> E-Media	means products which are electronically delivered only, and as such any references to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Employee Self-Service User <i>or</i> ESS User	means a specific individual authorized by your IT department to directly submit a self-service or knowledge request using the self-service interface.
Enterprise Use	means Unlimited use as specified in the software specific license terms below.
Floating Users <i>or</i> Flt Users	means the maximum number of individuals out of a total user population, authorized by you to access the software at a given point in time.
Implementation	means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the software.
Instance	means each implementation of the application installed on a Server.
Internal Use	means access and Use of the software for purposes of supporting your internal operations or functions.
Interval Billing	means periodic billing associated with the Subscription.
LTU	means License To Use.
Managed Configuration Item (CI)	means a component of an IT Infrastructure, including a documentary item such as a Service Level Agreement or a Request for Change which is (or is to be) under the control of Configuration and therefore subject to formal change control.
Named User <i>or</i> Nmd User	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
SaaS	means Software as a Service which is a service which allows access to the software, support and related professional services, as described in an order document, datasheet or a Statement of Work (SOW).
Server	means any designated computer system in which an Instance or Instances of the software is installed.
Subscription <i>or</i> Sub <i>or</i> SUB	means an offering which includes a license and support for the time period of the subscription and includes Interval Billing.
Suite	means two or more software products combined into a single license offering or a single software product which includes two or more licenses. The specific software products included in a Suite are specified in the software specific license terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product, except where specified in the specific Suite software specific license terms below.
Term License to Use <i>or</i> Term LTU	means a software license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTU's are not perpetual licenses.
Term Support	means a fixed period support offering that is only valid during the time period of the associated Term LTU.
Unlimited <i>or</i> Unl	means without restrictions in terms of number of systems, devices or media, depending on the context.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP ServiceCenter

The Self-Service Ticketing functionality is licensed as part of HP ServiceCenter, licensee has the additional right for all employees of licensee to open, monitor, update and close self service tickets. If Service Catalog or Knowledge Management software is licensed as part of HP Service Manager Employee Self Service (ESS) Users are based on the number of authorized users indicated in the software license. Users accessing the Self Service Ticketing capabilities of HP ServiceCenter are only authorized to access the ITIL Service Desk functions within HP ServiceCenter.

Licensed users cannot open an incident or change or request directly from Self-Service Ticketing. Self-service approvals can only be setup via the Service Catalog module’s employee self service access using the self service functions via the catalog.

The Web Control module of HP ServiceCenter is for internal and private website use only and is not authorized for any use on any public websites or internet services.

HP ServiceCenter SOAP API SDK

You shall not have the right to use the SOAP API SDK to replicate any existing HPE software or to circumvent licensing usage of such software.

HP Service Desk Concurrent User Capacity Expansion, HP Service Desk Named User Capacity Expansion

HP Service Desk Capacity Expansion (CE) products are intended for use by you who require additional Service Desk capacity to their existing Service Desk installations, after the official end of sales date of June 30, 2011. Service Desk CE Licenses have additional use restrictions which include: License for the HP Service Desk CE product are for capacity increase only and can only be used with the Service Desk physical system which has been licensed by customer previously.

HP Service Manager

HP Service Manager requires a Server license and a Foundation Named User or Concurrent User license.

HP ServiceCenter SOAP API SDK is included with the HP Service Manager Foundation license.

The following HP Service Manager Modules licenses are available as separate licenses and can only be used with an HP Service Manager Server license:

MODULE / ADD-ON	LICENSING METRIC (EACH LICENSE METRIC REQUIRES A SEPARATE LICENSE)
HP Service Manager Helpdesk	Licensed by Named User or Concurrent User
HP Service Knowledge Management *	Licensed by Employee Self-Service User or Named User or Concurrent User
HP Service Manager Request Management	Licensed by Named User or Concurrent User
HP Service Manager Service Level Management	Licensed by Named User or Concurrent User
HP Service Manager Service Catalog *	Licensed by Employee Self-Service User or Named User or Concurrent User
HP Service Manager Smart Analytics	Licensed by Named User or Concurrent User

* Includes Self Service Ticketing functionality which allows your employees to open, monitor, update and close self- service tickets. Employee Self Service Users are limited when accessing the Self Service Ticketing functionality and are only authorized to access the ITIL Service Desk functions within HP Service Manager. Employee Self Service Self Service Users cannot open an incident or change or request directly from Self-Service Ticketing.
