Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

| TERM | DEFINITION |
|--|---|
| Device or Dev | means an addressable entity, physical or virtual, including but not limited to router, switch, bridge, hub, server, PC, laptops, handheld device or printer that resides within the range defined for interrogation and asset tracking. |
| E-LTU and E-Media | means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products. |
| Internal Use | means access and Use of the software for purposes of supporting your internal operations or functions. |
| LTU | means License To Use. |
| Operations Management Node or OM Node | means a real or virtual computer system, or a device (for example printer, router or bridge) in a network. |
| Service Health Node or SH Node | means a real or virtual computer system, or a device (for example printer, router or bridge) in a network. |
| Use | means to install, store, load, execute and display one copy of the software. |

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP Service Health Reporter

HP Service Health Reporter is licensed by Service Health Node.

HP Service Health Reporter is available in the Standard Edition, which includes reporting and collection for System and Event Reports only, and in the Advanced Edition, which includes reporting, collection and customization included for all report packs that are available.
