

Hewlett Packard
Enterprise

HPE Database and Middleware Automation

Premium Edition

for Linux and Windows operating systems

Software Version: 10.40.000.000

Support Matrix

Manufacturing Part Number: none

Document Release Date: December 2015

Software Release Date: December 2015

Legal Notices

Warranty

The only warranties for Hewlett Packard Enterprise products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. HPE shall not be liable for technical or editorial errors or omissions contained herein.

The information contained herein is subject to change without notice.

Restricted Rights Legend

Confidential computer software. Valid license from HPE required for possession, use or copying. Consistent with FAR 12.211 and 12.212, Commercial Computer Software, Computer Software Documentation, and Technical Data for Commercial Items are licensed to the U.S. Government under vendor's standard commercial license.

Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

<https://softwaresupport.hp.com/>

This site requires that you register for an HP Passport and sign-in. To register for an HP Passport ID, go to:

<https://hpp12.passport.hp.com/hppcf/createuser.do>

Or click the **Register** link at the top of the HPE Software Support page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

Support

Visit the HPE Software Support web site at:

<https://softwaresupport.hp.com/>

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<https://hpp12.passport.hp.com/hppcf/createuser.do>

To find more information about access levels, go to:

<https://softwaresupport.hp.com/web/softwaresupport/access-levels>

HPE Software Solutions Now accesses the HPESW Solution and Integration Portal Web site. This site enables you to explore HPE Product Solutions to meet your business needs, includes a full list of Integrations between HPE Products, as well as a listing of ITIL Processes. The URL for this Web site is <http://h20230.www2.hp.com/sc/solutions/index.jsp>

**HPE Database and Middleware Automation Premium Version 10.40.000.000
Support Matrixes for Flows**

The pages that follow provide support matrixes for the HPE DMA Premium flows. The matrixes contain the supported products, HPE DMA content packs, HPE DMA Premium flows, and supported platforms for each supported product version.

Type	Included items
Product	Oracle
	MySQL
	SQL Server
	JBoss
	WebSphere
	WebLogic
	Tomcat
	Apache
Content Pack	DMA Premium Database
	DMA Pmium Middleware
	DMA Premium Utilities
Platform OS	Linux Platforms: Red Hat Enterprise, SUSE Enterprise, Oracle Enterprise
	Windows

Oracle Database

Red Hat Enterprise Linux
5, 6, 7
SUSE Enterprise Linux Server 10,
11
Oracle Enterprise Linux
5, 6, 7

Content Pack	Workflow	Oracle12.1.0.x	Oracle 11.2.0.4
DMA Premium Database	Oracle - Patch Grid Infrastructure and Databases	●	●
	Oracle - Rollback Patch from Grid Infrastructure and Database	●	●
	Oracle - Migrate and Patch Grid Managed Database	●	●
	Oracle - Configure Data Guard Broker Properties	●	●
	Oracle - Create Database Broker Configuration	●	●
	Oracle - Data Guard Broker Switchover	●	●
	Oracle - Provision Data Guard	●	●
	Install or Configure ASMLib	●	●
	Move ASM Datafiles	●	●
	Add or Alter an ASM Diskgroup	●	●
	Oracle - Provision or Upgrade Grid Infrastructure	●	●
	Oracle - Patch Home and Database	●	●
	Clone Oracle Home	●	●
	Migrate Oracle Home	●	●
	Oracle - Rollback Patch from Home and Databases	●	●
	Oracle - Upgrade Database		●
	Oracle - Provision Database	●	●
	Oracle - Provision Pluggable Database	●	
	Oracle - Provision Database Software	●	●
	Oracle - Provision Client	●	●
	Oracle - Start or Stop Database	●	●
	Oracle - Drop Database	●	●
	Oracle - Export Database via Data Pump*	●	●
	Oracle - Extract Database via RMAN	●	●
	Oracle - Refresh Database via Data Pump*	●	●
	Oracle - Refresh Database via RMAN	●	●
	Oracle - SQL Release	●	●

* Oracle bug in 12c for Full Export, works on for schema.

* Only supported with Schema option
