Oracle Technology — Notice of Restricted Rights

Programs delivered subject to the DOD FAR Supplement are 'commercial computer software' and use, duplication, and disclosure of the programs, including documentation, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement. Otherwise, programs delivered subject to the Federal Acquisition Regulations are 'restricted computer software' and use, duplication, and disclosure of the programs, including documentation, shall be subject to the restrictions in FAR 52.227-19, Commercial Computer Software-Restricted Rights (June 1987). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

For the full Oracle license text, see the license-agreements directory on the NNMi product DVD.

Available Product Documentation

For a complete list of the documentation that is available for NNMi, see the *HP Network Node Manager i Software Documentation List*. This document is available on the HP manuals web site. Use this file to track additions to and revisions within the NNMi documentation set for this version of NNMi. Click a link to access a document on the HP manuals web site.

Also available on the HP manuals web site are `.zip` files of the complete documentation set for NNMi, NNMi Premium, and NNMi Ultimate. Access these documentation packages from the *HP Network Node Manager i Software Documentation List* or directly from the HP manuals web site.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:

https://softwaresupport.hp.com

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to:

https://hpp12.passport.hp.com/hppcf/createuser.do

Or click the **Register** link at the top of the HP Software Support page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

Support

Visit the HP Software Support Online web site at:

https://softwaresupport.hp.com

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest

- Submit and track support cases and enhancement requests

- Download software patches and associated patch documentation

- Manage support contracts

- Look up HP support contacts

- Review information about available services

- Enter into discussions with other software customers

- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport user ID, go to:

https://hpp12.passport.hp.com/hppcf/createuser.do

To find more information about access levels, go to:

https://softwaresupport.hp.com/web/softwaresupport/access-levels

HP Software Solutions Now accesses the HPSW Solution and Integration Portal Web site. This site enables you to explore HP Product Solutions to meet your business needs, includes a full list of Integrations between HP Products, as well as a listing of ITIL Processes. The URL for this web site is:

http://h20230.www2.hp.com/sc/solutions/index.jsp

Contents

HP Asset Manager

HP Asset Manager software enables you to automate best practices across the information technology (IT) asset lifecycle and integrate your IT processes. With HP Asset Manager you can implement analytics to optimize the value of IT assets and services. You can improve audit compliance by controlling where assets are and who is using them throughout the lifecycle. You can control purchasing and chargeback, and compare the performance of your vendors. HP Asset Manager provides IT service cost information along with the data and governance necessary for all your IT processes to function optimally.

HP Asset Manager provides the following functionality:

- Reduced IT asset and IT service costs

- Better decisions through IT service cost transparency

- Optimized allocation of IT assets for the greatest return on IT investments

- Vendors managed as integrated resources drive cloud infrastructure adoption

For information about purchasing HP Asset Manager, contact your HP sales representative.

This chapter contains the following topics:

- HP Network Node Manager i Software–HP Asset Manager Integration

- Using the HP NNMi–HP Asset Manager Integration

HP Network Node Manager i Software–HP Asset Manager Integration

When HP Network Node Manager i Software (HP NNMi) is integrated with HP Asset Manager, the HP Asset Manager portfolio can be automatically populated with device information from the NNMi database.

Value

The HP NNMi–HP Asset Manager integration provides the following benefits:

- HP NNMi discovers the devices, and HP Asset Manager synchronizes with the NNMi topology.

- Provides the complete network inventory to HP Asset Manager. This inventory is kept current through NNMi spiral discover.

- Simplifies network management configuration. Network discovery configuration is stored in HP NNMi only.

Integrated Products

The information in this chapter applies to the following products:

- HP Asset Manager with HP Connect-It

  For the list of supported versions, see the *NNMi System and Device Support Matrix* (available on the product media and the NNMi management server).

- NNMi 10.10

HP NNMi and HP Asset Manager must be installed on separate servers. These servers can be of the same or different operating systems.

Documentation

The HP NNMi–HP Asset Manager integration is fully described in the *HP Connect-It Connectors* guide, which is available on **http://softwaresupport.hp.com**. Search for `network node` for document type `manuals` and product `connect it`.

Using the HP NNMi–HP Asset Manager Integration

The steps to enable the HP NNMi–HP Asset Manager integration take place on the HP Asset Manager server.

Enabling the HP NNMi–HP Asset Manager integration populates the HP Asset Manager portfolio with NNMi node, interface, and IP address information.

For information about enabling, using, disabling, and troubleshooting the HP NNMi–HP Asset Manager integration, see the *HP Connect-It Connectors* guide.

We appreciate your feedback!

If an email client is configured on this system, by default an email window opens when you click *here*.

If no email client is available, copy the information below to a new message in a web mail client, and then send this message to **network-management-doc-feedback@hpe.com**.
