Dear Customer,

Hewlett Packard Enterprise is announcing End of Sale en product discontinuance of HP IT Service Management Enterprise Suite 2015.05 effective as of the dates set forth below.

This letter is for HP IT Service Management Enterprise Suite support customers worldwide, to inform you of our end of sale plans.

This suite contains the following products:

- HP Ops Bridge Suite 2015.02
- HP Service Manager 9.40
- HP Asset Manager 9.50
- HP IT Executive Scorecard 9.50
- HP SiteScope 11.30

Important note: The end of sale and support relates only to the suite of products, not to the individual products; those individual products continue to be available for sale and support, either in the exact same version as in the suite, or in a more recent version.

End of Sale & End of Support

HPE is committed to providing the highest level of customer care to you while you determine your future strategy for your HP IT Service Management Enterprise Suite products.

The HP IT Service Management Enterprise Suite 2015.05 includes component products that include a version of Business Objects from SAP. HPE's agreement with SAP to distribute this version of Business Objects has been terminated and so, we can no longer distribute the product media that contains this version of Business Objects beyond December 20, 2015. As of December 20, 2015, HPE will remove the HP IT Service Management Enterprise Suite 2015.05 from our download portals. If you need a copy of the HP IT Service Management Enterprise Suite 2015.05, please ensure that you download the media for all component products prior to December 20, 2015.

You can continue to purchase additional licenses for the individual components of the HP IT Service Management Enterprise Suite 2015.05 until further notice.

Please read below for key timelines and support options that are now available to you:

DATE	PROGRAM ACTIVITY
December 7, 2015	End of Sale customer announcement
December 19, 2015	Last day for downloading the media for older versions
December 20, 2015	End of Sale (no longer orderable or available for purchase)
May 31, 2020	End of Support for IT Service Management Enterprise Suite 2015.05

Please refer to Appendix A for definition of terms for product obsolescence and Appendix B for the list of affected HP IT Service Management Enterprise Suite 2015.05 product numbers.

More information

Should you have any questions about this end of availability communication, or for assistance in understanding the options available to you, please contact your local HPE sales representative or HPE business partner. When providing information, please include your name, country, phone number, company name, product number and your HPE service agreement identifier or HPE system handle.

In addition, for technical assistance and information, please visit Software Support Online: hpe.com/software/support.

HPE once again wishes to thank you for choosing HP IT Service Management Enterprise Suite 2015.05. We appreciate your business and look forward to continuing to serve your business needs in the future.

Sincerely,
Hewlett Packard Enterprise

Appendix A: Definitions

This product version obsolescence is covered by version 5 of our Release & Support policy. Definitions of terms are provided by the product version obsolescence guidelines documented at hpe.com/software/support-lifecycle

Product Support

Product Support is the reactive engagement of regional support resources (Support Center) and division support resources (Lab), in accordance with your purchased support plan, for the resolution of product defects, plus product enhancements for a specific product version. This includes investigation of newly reported defects and if appropriate, development of defect fixes and making these available for customers via patches. The HPE product teams (Lab) will review and either approve or deny requests for defect fixes and enhancements (including additional support for newly-released operating system versions).

While HPE investigates all problems and issues raised for products covered under Product Support, customers may be required to install the most current version or patches as part of the troubleshooting process.

Version Maturity may apply to specific versions of HPE products. Version Maturity means that, for a specific product version, no further enhancements or changes to functionality is planned, nor are any further platform refreshes planned in order to update that product version to support current or future operating systems, operating system versions or hardware platforms.

End of Committed Support Date

End of Committed Support (EOCS) Date is the last date software maintenance, installation and configuration assistance, and other standard support services will be accepted for the specified product release (as specified by the version numbering). EOCS also means the last date Software Change Requests (SCRs) will be accepted for a specified Version of a Product. After the EOCS date, all SCRs will be planned for future versions, as applicable. Current patches for the version of the product reaching EOCS will remain available for electronic download for a reasonable period of time.

End of Extended Support Date

Extended Support is provided for an additional 2 years after EOCS Date. Extended Support consists of web-based access to the online support Knowledge Base, which contains technical information for HPE products including white papers, existing patches and known problems for a specific product version.

Extended Support is limited to:

- Around the clock self-solve support
- Access to technical support engineers

Access to existing patches and hot-fixes created while the product version was in Committed Support. No new enhancement requests, patches, fixes, document changes or platform certifications will be made for product versions in Extended Support.

Self-Help Support with Rights to New Versions

Self-Help Support with Rights to New Version is an integral component of all software support contracts. Self-Help Support with Rights to New Versions consists of web-based access to the online support Knowledge Base, which contains technical information for HPE products including white papers, existing patches and known problems for a specific product version. Upon the expiration of Extended Support for a product or product version, and for which a successor product or product version is commercially available, HPE offers a minimum of four (4) years of Self-Help Support with Rights to New Versions.

Dependent Components and Third-Party Products

In some instances support for specific HPE product(s) and/or version(s) may run longer than the support for underlying operating system(s), adjacent/integrated application(s) or version(s). In this event, it is HPE's intent to communicate with affected HPE product/product version customers in a timely manner. However, there are cases where HPE does not receive notification of the End-of-Support for these products (operating system(s) or adjacent/integrated application(s), or version(s)) in advance of the general public. In any case, should the underlying operating system(s), adjacent/integrated application(s) or version(s) become unsupported by its developer, support for the affected HPE product/product versions will immediately be limited to self-solve support available through Software Support Online, and Telephone Support associated with questions concerning a product's/product version's functionality and/or interoperability in line with the said product's/product version's original parameters/requirements at the time of release. Any product updates and/or fixes will be limited to those already available. No additional updates, patches or fixes will be engineered. Should said product/product version operate or integrate with other still supported, underlying operating system(s), adjacent/integrated application(s) or version(s), support for said product/product version on any remaining supported platform(s), supported adjacent/integrated application(s), or supported version(s) will continue unaffected, or through the planned End-of-Support date, if one has been announced.
