## Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:  
**<http://h20230.www2.hp.com/selfsolve/manuals>**

This site requires that you register for an HP Passport and sign in. To register for an HP Passport ID, go to: **<http://h20229.www2.hp.com/passport-registration.html>**

Or click the **New users - please register** link on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HP sales representative for details.

## Support

Visit the HP Software Support Online web site at: <http://www.hp.com/go/hpssoftwaresupport>

This web site provides contact information and details about the products, services, and support that HP Software offers.

HP Software online support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HP support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to:

<http://h20229.www2.hp.com/passport-registration.html>

To find more information about access levels, go to:

[http://h20230.www2.hp.com/new\\_access\\_levels.jsp](http://h20230.www2.hp.com/new_access_levels.jsp)

**HP Software Solutions Now** accesses the HPSW Solution and Integration Portal Web site. This site enables you to explore HP Product Solutions to meet your business needs, includes a full list of Integrations between HP Products, as well as a listing of ITIL Processes. The URL for this Web site is <http://h20230.www2.hp.com/sc/solutions/index.jsp>

## Requirements

This section provides information about the supported hardware and software that you must have in order to successfully install and run AutoPass License Server 9.0.

## Hardware

AutoPass License Server 9.0 is supported on the following hardware:

- Minimum 1.6 Ghz processor
- A minimum of 1 GB RAM
- A minimum of 200 MB of hard drive space (1 GB is recommended for optimal operation of the License Server)
- High Color (16-bit), Graphics card with 64 MB video memory
- HTTPS Protocol enabled
- Port 5814 accessible

## Operating System

AutoPass License Server 9.0 runs on the following operating systems both on physical servers and on virtual machines.

64-bit License Server:

- Windows 7
- Windows 10
- Windows 2008 R2
- Windows Server 2008 SP2
- Windows 2012
- Red Hat Enterprise Linux 7
- CentOS 7.0

## LDAP Directory Servers

If you use LDAP to provide user and user group data for the License Server, you can use one of the following LDAP servers with the AutoPass License Server 9.0:

- Enterprise LDAP Server
- Microsoft Active Directory Server

**Note:** You can use any LDAP server that supports LDAP v3. However, the servers listed above have been certified for compatibility with AutoPass License Server 9.0.

For details on using LDAP with the License Server, see the *HP AutoPass License Server User Guide*, found on the root folder of the DVD.

## Web Browsers and Plug-ins

One of the following supported web browsers is required to run AutoPass License Server 9.0:

- Mozilla Firefox 39
- Internet Explorer 11
- Google Chrome 40

## Compatability

This section provides information about software and configurations that are not required, but which are compatible with AutoPass License Server 9.0.

## HP Software Coexistence

The 32 bit AutoPass License Server 9.0 can be installed on the same system with all HP Products.

The 64 bit AutoPass License Server 9.0 can be installed on the same system as all HP products except Unified Functional Testing and Sprinter.

## Other Software Coexistence

AutoPass License Server 9.0 can be run in conjunction with all third-party software, provided that the software does not use server port **5814**.
