

# Additional License Authorizations

For HPE Unified Information and Analytics software products

## Products and suites covered

PRODUCTS	E-LTU OR E-MEDIA AVAILABLE <sup>*</sup>	NON-PRODUCTION USE CATEGORY <sup>**</sup>
HP Audio Analytics	Yes	Class 4
HPE IDOL Connectors	Yes	Class 4
HP IDOL Express	Yes	Class 4
HPE IDOL Express Search	Yes	Class 4
HP IDOL Premium	Yes	Class 4
HPE IDOL Premium Search	Yes	Class 4
HPE IDOL Ultimate	Yes	Class 4
HP Media Management and Analysis Platform	Yes	Class 4
HP Surveillance Analytics	Yes	Class 4
HP Visual Analytics	Yes	Class 4

<sup>\*</sup> Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

<sup>\*\*</sup> Non-production use rights, if any, can be found at [www.hpe.com/software/SWlicensing](http://www.hpe.com/software/SWlicensing).

## Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
<i>Cluster</i>	
<i>Concurrent Media Asset</i>	means simultaneous use of more than one Media Asset at any point in time.
<i>Core</i>	means a part of a CPU that executes a single stream of compiled instruction code.
<i>CPU</i>	means a system in a single integrated circuit package with one or more discrete processing Cores.
<i>Document</i>	
<i>E-LTU and E-Media</i>	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
<i>GB</i>	means gigabytes which designates the amount of physical capacity that can be managed.

TERM	DEFINITION
<b><i>Ingest Channel</i></b>	means a single input to the analytics server that can handle one external source of Rich Media at a time
<b><i>Instance</i></b>	means each implementation of the application installed on a Server.
<b><i>IDOL Raw Data Size</i></b>	means the uncompressed size of all documents, including text and meta data, that are stored in a node table excluding any deleted documents that have not been purged.
<b><i>LTU</i></b>	means License To Use.
<b><i>Media Asset</i></b>	means a single file containing either video, audio or image content.
<b><i>Rich Media</i></b>	means video, audio or image content either as a file or continuous stream via IP.
<b><i>Server or SVR</i></b>	means any designated computer system in which an Instance or Instances of the software is installed.
<b><i>TB</i></b>	means terabytes which designates the amount of physical capacity that can be managed.
<b><i>Term License to Use or Term LTU</i></b>	means a software license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M) , One Year (1Y) etc. Term LTUs are not perpetual licenses.
<b><i>Term Support</i></b>	means a fixed period support offering that is only valid during the time period of the associated Term LTU.
<b><i>Unlimited or Unl</i></b>	means without restrictions in terms of number of systems, devices or media, depending on the context.
<b><i>User</i></b>	means a user whose use is restricted to the type of software that is being licensed.

## Software specific license terms

Software products with software specific license terms are described below.

### HP Audio Analytics

Each HP Audio Analytics Server is licensed per Ingest Channel of ingest and for that Ingest Channel any combination of the analytics can be applied. The features and functionality included in HP Audio Analytics are as follows:

#### Functions

- Speech to Text
- Phonetic Phrase Search
- Speaker Segmentation and Identification
- Spoken Language Identification
- Transcript Alignment
- Audio Quality and Classification
- Audio Fingerprint Identification
- Audio Security
- Language Customization
- Acoustic Adaptation

When combined with Speech (Audio) Server licenses, Visual Server provides visual and audio analysis in one seamless package.

### HPE IDOL Connectors

#### HPE IDOL Standard Connectors

HPE IDOL Standard Connectors are included with HPE IDOL Express Search, HPE IDOL Premium Search and HPE IDOL Ultimate. They are not separately licensable. HPE IDOL Standard Connectors include the ability to connect to and access data from repositories. The following Connectors are HPE IDOL Standard Connectors:

- File System (all platforms)
- ODBC
- Web

#### HPE IDOL Social Media Connectors

HPE IDOL Social Media Connectors are add-on modules that can be applied to HPE IDOL Premium Search and HPE IDOL Ultimate. They are licensed by number of HPE IDOL Social Media Connectors. A license key is for a specified number of HPE IDOL Social Media Connectors. To modify which specific Connectors are licensed, you must obtain a new license key. Modifications to Connector license keys can be done once per month.

HPE IDOL Social Media Connectors include the ability to connect to and access data from repositories, on a polling basis. The following Connectors are HPE IDOL Social Media Connectors:

- Facebook
- Amazon
- Twitter
- LinkedIn
- Youtube
- Atom
- Quickr
- Qeido
- Yahoo

### HPE IDOL Advanced Connectors

HPE IDOL Advanced Connectors are add-on modules that can be applied to HPE IDOL Premium Search and HPE IDOL Ultimate. They are licensed by number of HPE IDOL Advanced Connectors. A license key is for a specified number of HPE IDOL Advanced Connectors. To modify which specific Connectors are licensed, you must obtain a new license key. Modifications to Connector license keys can be done once per month.

HPE IDOL Advanced Connectors include the ability to connect to and access data from repositories. The following Connectors are HPE IDOL Advanced Connectors:

- Box
- Chatter
- Confluence
- DataSift
- Documentum
- Dropbox
- Evernote
- Exchange
- Exchange WS
- Google Drive
- IMAP
- Lotus Notes
- Lync Archiving
- Lync Group Chat
- OCS
- OneDrive
- Oracle
- Oracle UCM
- POP3
- RSS
- SalesForce,
- SAP NetWeaver
- SharePoint
- SharePoint Remote
- Skype for Business
- SourceOne
- Storeall
- Twitter streaming

### HPE IDOL Plus Connectors

HPE IDOL Plus Connectors are add-on modules that can be applied to HPE IDOL Premium Search and HPE IDOL Ultimate. They are licensed by number of HPE IDOL Plus Connectors. A license key is for a specified number of HPE IDOL Plus Connectors. To modify which specific Connectors are licensed, you must obtain a new license key. Modifications to Connector license keys can be done no more often than once per month.

HPE IDOL Plus Connectors include the ability to connect to and access data from repositories. The following Connectors are HPE IDOL Plus Connectors:

- Alfresco
- Drupal
- Documentum PLUS(+)
- Ektron
- Enovia
- Enterprise Vault
- eRoom
- Exchange PLUS(+)
- FileNet P8 PLUS(+)
- Hadoop, IBM Content Manager
- IBM Seedlist
- Jira
- Jive
- Lotus Notes PLUS(+)
- OpenText / Hummingbird
- SAP NetWeaver
- SharePoint PLUS(+)

HPE IDOL Plus Connectors marked (+) also include one or more advanced features such as:

- View: view a document in native or near native view
- Collect: retrieve documents and send them to a destination, such as a shared folder
- Hold: make a set of documents unchangeable in the source repository
- Release: feature provides the opposite capability of Hold
- Delete: delete, unlink, and remove a set of documents from a repository
- Update: change repository metadata about a set of documents (created time, author, etc.)
- Insert: add a document into a repository

## HP IDOL Express

HP IDOL Express is licensed by GB measured in IDOL Raw Data Size on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users. The features and functions included in HP IDOL Express are as follows:

### Functions

- Automatic Query Guidance
- Hyperlinking
- Summarization
- Dynamic Thesaurus
- Spelling Correction
- Retrieval-Concept
- Retrieval-Advanced, Retrieval-Lite
- Auto-Language Detection
- Highlighting
- Retrieval-Parametric

### Infrastructure Tools

- Distributed Index Handler
- Distributed Action Handler
- DisH
- Generic Mapped Security (IAS)
- Application Builder ACI-API

### Administration Tools

- IDOL Admin
- IDOL Site Admin

### Business Administration Tools

- IDOL Search Optimizer

### Connectors

The **Connect** functionality includes the following list of connectors, and includes the ability to connect to and access data from repositories:

- Alfresco
- Amazon Commerce Web Service
- Box.net
- Confluence
- DataSift
- Documentum
- Exchange WS
- Exchange
- eRoom
- Facebook
- FileNet P8
- Filesystem
- FTP
- Google Drive
- Hadoop
- HTTP
- IBM Seedlist
- IMAP
- Jive
- LinkedIn
- Lotus Notes
- Lync
- ODBC
- OpenText/Hummingbird
- Oracle
- POP3
- RSS
- Salesforce
- SharePoint 2007
- SharePoint 2010
- SharePoint 2013
- SharePoint Remote
- StoreAll
- Twitter
- Vertica
- WC3 Atom
- Weibo
- Yahoo! Search
- YouTube

## HPE IDOL Express Search

HPE IDOL Express Search is licensed by number of Documents on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users, operating across a single Cluster. If a Document is stored more than once, each instance is included in the count separately.

The features and functions included in HPE IDOL Express Search are as follows:

### Functions

- Retrieval-Lite
- Retrieval-Advanced
- Hyperlinking
- Spelling Correction
- Retrieval-Concept
- Retrieval-Parametric
- Summarization
- Auto-Language Detection
- Dynamic Thesaurus
- Highlighting

**Infrastructure Tools**

- Distributed Index Handler
- Distributed Action Handler
- Application Builder (ACI API)

**System Administration Tools**

- IDOL Admin
- IDOL Site Admin

**Data Administration Tools**

- IDOL Search Optimizer

**End User Tools**

- HPE Find
- HPE BI for Human Information

**Connectors**

HPE IDOL Express Search includes all HPE IDOL Standard Connectors.

**HP IDOL Premium**

HP IDOL Premium is licensed by GB measured in IDOL Raw Data Size on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users. The features and functionality included in HP IDOL Premium includes those in HP IDOL Express listed above and the following:

**Functions**

- |   |                               |                                |
|---|-------------------------------|--------------------------------|
| • Personalization Package (Alerting, Mailing, Agents)         | • Taxonomy Generation         | • Education-Sentiment Analysis |
| • Expertise Package (Collaboration, Expertise-All, Profiling) | • Categorization and Channels | • Geospatial                   |
|   | • Clustering-All              | • Visualization                |
|   | • Education-Basic             |                                |

**Business Administration Tools**

- IDOL Collaborative Classifier

**Connectors**

The **ConnectPlus** functionality includes the following list of additional connectors:

- |               |                        |                     |
|---------------|------------------------|---------------------|
| • Confluence  | • FTP                  | • POP3              |
| • Documentum  | • Hadoop               | • SharePoint 2007   |
| • Exchange WS | • IBM Seedlist         | • SharePoint 2010   |
| • Exchange    | • IMAP                 | • SharePoint Remote |
| • eRoom       | • Lotus Notes          | • StoreAll          |
| • FileNet P8  | • OpenText/Hummingbird |                     |
| • Filesystem  | • Oracle               |                     |

and includes one or more advanced features such as:

- View: view a document in native or near native view
- Collect: retrieve documents and send them to a destination, such as a shared folder
- Hold: make a set of documents unchangeable in the source repository
- Release: feature provides the opposite capability of Hold
- Delete: delete, unlink, and remove a set of documents from a repository
- Update: change repository metadata about a set of documents (created time, author, etc.)
- Insert: add a document into a repository

## HPE IDOL Premium Search and HPE IDOL Premium Search add-ons

HPE IDOL Premium Search is licensed by number of Documents on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users, operating across a single Cluster. If a Document is stored more than once, each instance is included in the count separately. The features and functionality included in HP IDOL Premium Search includes those in HPE IDOL Express Search listed above and the following:

### Functions

- Generic Mapped Security (IAS)
- Personalization package (Alerting, Mailing, Agents)
- Expertise Package (Collaboration, Expertise, Profiling)
- Automatic Query Guidance (AQG)
- Agent Boolean

Other functionality can added to HPE IDOL Premium Search; see *HPE IDOL Add-on modules* below.

### Connectors

HPE IDOL Premium Search includes all HPE IDOL Standard Connectors.

**HPE IDOL Premium add-on modules** provide additional functionality and can be applied to HPE IDOL Premium Search. They are licensed by number of Documents and tie in with a purchase of HPE IDOL Premium Search software. If a Document is stored more than once, each instance is included in the count separately.

### Available Add-on modules

- Sentiment Analysis
- Education
- Clustering

## HPE IDOL Ultimate

HP IDOL Ultimate is licensed by number of Documents on an Unlimited number of central processing units or CPUs and for an Unlimited number of Users, operating across a single Cluster. If a Document is stored more than once, each instance is included in the count separately. The features and functionality included in HP IDOL Ultimate includes those in HP IDOL Premium Search listed above and the following:

### Functions

- Sentiment Analysis
- Education
- Clustering
- Knowledge Graph
- Taxonomy Generation
- Categorization and Channels
- Geospatial

### Business Administration Tools

- IDOL Collaborative Classifier

### Connectors

HPE IDOL Ultimate includes all HPE IDOL Standard Connectors.

## HP Media Management and Analysis Platform

Each HP Media Management and Analysis Platform Media server is licensed per Ingest Channel and for that Ingest Channel any combination of the analytics can be enabled. HP Surveillance, Video and Audio Analytics are separately licensed products, applicable licenses must be purchased to enable the respective analytic functionality. The features and functionality included in HP Media Management and Analysis Platform are as follows:

### Functions

- Media server
  - Ingest engines
  - Output engines
  - Transformation engines
  - Event stream processing engines
- HTML5 Widgets
  - Media player
  - Timeline
  - Transcript
- RestFUL API's
  - Folder Management
  - Camera Management
  - Channel Management
  - Recorder Management
  - Source Recording
  - Video Streaming
  - Keyframes
  - Video Clipping
  - Frame Extraction

## HP Surveillance Analytics

Each HP Surveillance Analytics Server is licensed per Ingest Channel and for that Ingest Channel any combination of the functions below can be applied. The features and functionality included in HP Surveillance Analytics are as follows:

### Functions

- SceneAnalysis
- FaceDetect
- FaceRecognize
- NumberPlate
- Demographics

## HP Visual Analytics

Each HP Visual Analytics Server is licensed per Ingest Channel and for that Ingest Channel any combination of the analytics can be applied. The features and functionality included in HP Visual Analytics are as follows:

### Functions

- Barcode
- FaceDetect
- Demographics
- FaceRecognize
- FaceState
- Keyframe
- Object
- ObjectClas
- OCR
- SceneAnalysis
- NumberPlate

When combined with Speech (Audio) Server licenses, Visual Server provides visual and audio analysis in one seamless package.

## Additional license terms

### TERM

A. Any licensing terms designated as being of Autonomy that may be embedded in the software are inapplicable in their entirety.
