HP Connect-It	Yes	Class 1

SUITES	E-LTU OR E-MEDIA AVAILABLE [*]	NON-PRODUCTION USE CATEGORY ^{**}
HPE Asset Manager Enterprise Suite (previously called HP Asset Manager Enterprise Suite)	Yes	Class 1
HPE Software Asset Management Suite (previously called HP Software Asset Management Suite)	Yes	Class 1

^{*} Any product sold as E-LTU or E-Media shall be delivered electronically regardless of any contrary designation in a purchase order.

^{**} Non-production use rights, if any, can be found at hpe.com/software/SWlicensing.

Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Bundle <i>or</i> Bdl	means an offering which includes a Term LTU, Term Support and SaaS.
Casual Named User <i>or</i> Csl Nmd User	means a Named User that may occasionally access APIs, create and view requests, update only the requests the user created, view portals, and run/view reports.
Connector <i>or</i> Conn	means an integration element to a certain software, format or function through use of the HPE software product.
Concurrent User <i>or</i> CC Users	means the software is licensed by the amount of users that simultaneously use the software. The software can be installed on any number of computers provided that the actual usage of the software does not exceed the number of licenses purchased.
Connect-It Database Device License	means the right to expose data in one database to another database when the originating database is licensed by number of Devices. One license is required for each 100 managed Devices.
Connect-It Server License	means the right to use the respective Connector without Connect-It Device License, Connect-It User License or Instance restrictions.
Connect-It User License	means one Named User or Floating User or Concurrent User in an AssetCenter or Asset Manager Instance or one Named User or Floating User or Concurrent User in a ServiceCenter or Service Manager Instance or one Named User or Concurrent User in a Service Desk Instance in any Scenario with a respective Connector.
Device <i>or</i> Dev	means an addressable entity including but not limited to router, switch, bridge, hub, server, PC, laptop, handheld device or printer that resides within the range defined for interrogation and asset tracking.

E-LTU and E-Media	means products which are electronically delivered only, and as such any references to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Enterprise Use	means Unlimited Use as specified in the software specific license terms below.
Guest Users	means a specific individual authorized by the Licensee to have access to the software.
Implementation	means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the software.
Instance	means each implementation of the application installed on a Server.
Internal Use	means access and Use of the software for purposes of supporting the internal operations or functions of Licensee.
LTU	means License To Use.
Managed Configuration Item (CI)	means a component of an IT Infrastructure, including a documentary item such as a Service Level Agreement or a Request for Change which is (or is to be) under the control of Configuration and therefore subject to formal change control.
Named User or Nmd User	means a specific individual authorized by Licensee to access the software regardless of whether they are actively using the software.
Operating System Instance or OS Instance	means each implementation of the bootable program that can be installed onto a physical system or a partition, such as system Virtual Machines, virtual environments, virtual private servers, containers, guests and zones, within the physical system. A physical system can contain multiple Operating System Instances. A container means a system partition based on software rather than hardware. Guests means a VM system running on a host system where the host runs its own complete OS Instance (as opposed to a hypervisor), like VMware Workstation. Zone means Oracle/Sun Solaris specific nomenclature for a software partition which can run a virtual OS instance including but not limited to Sparse, native, and ipkg.
SaaS	means Software as a Service which is a service which allows access to the software, support and related professional services, as described in an order document, datasheet or a Statement of Work (SOW).
Scenario	means configuration sets within Connect-It that define data exchanges between multiple endpoints, using a Connector to each endpoint.
Server	means any designated computer system in which an Instance or Instances of the software is installed.
Suite	means two or more software products combined into a single license offering. The specific software products included in a Suite are specified in the software specific license terms below. Software products included in a Suite are governed by the individual authorizations and use restrictions associated with each software product.
Term License to Use or Term LTU	means a software license to use (LTU) which indicates in its license description that the license is valid for a specific period of time such as One Month (1M), One Year (1Y) etc. Term LTU's are not perpetual licenses.
Term Support	means a fixed period support offering that is only valid during the time period of the associated Term LTU.
Unlimited or Unl	means without restrictions in terms of number of systems, devices or media, depending on the context.
Use	means to install, store, load, execute and display one copy of the software.

Software specific license terms

For software products with software specific license terms, these terms are described below. Software products covered by ALA document (as listed above) and not covered in this section do not have software specific license terms.

HP Asset Manager 5.20 and later releases (as of version 9.60 called HPE Asset Manager)

Administration of the HPE Asset Manager Procurement Self-Service Catalog is limited to five (5) Named Users of HP Service Manager Foundation for the sole purpose of administration of this functionality. Authorized Service Manager administration functions include:

- management of operator profiles
- synchronization of reference data to/from HPE Asset Manager
- back-office management of the Self-Service Catalog
- support of Casual Named User (previously called Guest User) client sessions initiated from HPE Asset Manager
- automated submission of Self-Service Catalog Requests to HPE Asset Manager
- enables HPE Asset Manager Casual Named Users access to HP Service Manager's Self-Service Catalog and shopping cart functionality through the HPE Asset Manager web client. Self-service access is limited by the quantity of HPE Asset Manager Casual Named Users (previously called HP Asset Manager Guest Users) licensed by you.

HPE Asset Manager Software Asset Management Enterprise Use license provides the ability to Use as many Concurrent Users and Named Users as necessary for the Software Asset Management module in the limits of the number of users licensed for the Portfolio functionality.

Each Casual Named User will have the ability to log into HPE Asset Manager but use of the software is restricted to the following activities:

- View assets
- View requested items for the licensed individual or the licensed users defined workgroup
- View and update tickets in AC/AM helpdesk
- View employees, departments, locations and tax tables
- View workflows as they apply to the licensed user (such as tasks and phases)
- Review departmental budgets and cost centers
- Approve and view requests
- Submit requests

HPE Asset Manager includes a reporting solution license for SAP Crystal Reports and, for HP Asset Manager 9.30 forward, for SAP BusinessObjects Enterprise. Customers who have valid licenses for HPE Asset Manager are authorized to download and install one Instance of SAP Crystal Reports Server, as well as the number of copies of SAP Crystal Reports Dashboard Design needed for the activity of the applicative developers supporting the HPE Asset Manager implementation. SAP Crystal Reports and SAP BusinessObjects Enterprise can only be used for reporting on the licensed Instances of HPE Asset Manager (including production and development Instances). The maximum number of users accessing SAP Crystal Reports Server must not exceed the maximum number of users authorized in the license for HPE Asset Manager (number of Named Users + number of Concurrent Users + number of Casual Named Users). These users must be licensed for HPE Asset Manager and authenticated in the HPE Asset Manager software.

HP Connect-It

You shall not be limited to the number of Instances of the software licensed provided you do not exceed the number of Connect-It Database Device Licenses or Connect-It user licenses required in each Scenario. For example, a Scenario exposing 700 Devices through HP UCMDB, HP Universal Discovery or HP DDM Inventory to a non-HP product requires 7 Connect-It Device licenses. Furthermore, an HP Connect-It Connector being used where there is one Instance of HPE Asset Manager with a total of 20 Named Users and Concurrent Users, one Instance of HP Service Manager with a total of 80 Named Users and Concurrent Users and one Instance of HP Project & Portfolio Manager with a total of 50 Named Users, requires 150 Connect-It User Licenses for each licensed HP Connect-It Connector. There are no restrictions on the number of data sources a specific HP Connect-It Connector can integrate with provided you do not exceed the number of HP Connect-It Database Device licenses or Connect-It User Licenses required in each Scenario. There are no Instance or user restrictions on Connect-It Server Licenses.

HPE Asset Management Center Suite offerings

SUITE	OFFERING INCLUDES
HPE Asset Manager Enterprise Suite (previously called HP Asset Manager Enterprise Suite) – Named User	<ul style="list-style-type: none"> • 1 HPE Asset Manager Server • 1 HPE Asset Manager Portfolio Named User • 1 HPE Asset Manager Contracts Named User • 1 HPE Asset Manager SAM Named User • 1 HPE Asset Manager Procurement Named User • 1 HPE Asset Manager Financial Management Named User • 100 HPE Asset Manager Casual Named Users
HPE Asset Manager Enterprise Suite (previously called HP Asset Manager Enterprise Suite) – Concurrent User	<ul style="list-style-type: none"> • 1 HPE Asset Manager Server • 1 HPE Asset Manager Portfolio Concurrent User • 1 HPE Asset Manager Contracts Concurrent User • 1 HPE Asset Manager SAM Concurrent User • 1 HPE Asset Manager Procurement Concurrent User • 1 HPE Asset Manager Financial Management Concurrent User • 100 HPE Asset Manager Casual Named Users
HPE Software Asset Management Suite (previously called HP Software Asset Management Suite) – Named User	<ul style="list-style-type: none"> • 1 HPE Asset Manager Enterprise Suite Named User • 20 HP Universal Discovery OS Instance • 200 HP Universal Discovery Inventory OS Instance
HPE Software Asset Management Suite (previously called HP Software Asset Management Suite) – Concurrent User	<ul style="list-style-type: none"> • 1 HPE Asset Manager Enterprise Suite Concurrent User • 50 HP Universal Discovery OS Instance • 500 HP Universal Discovery Inventory OS Instance

HPE Asset Manager and HPE Asset Manager Enterprise Suite Concurrent User licenses listed in this paragraph previously were called Floating User licenses.

Additional license terms

TERM

- A. You shall install and use the software as authorized in the applicable agreement only as a complete product and may not use portions of such software on a standalone basis separate from the complete software unless expressly authorized in the Supporting Material, specifications or an applicable agreement.
