ALM 12.53
Quality Center 12.53

Localized Documentation Release Note

The following document describes how to replace the existing ALM English documentation with translated documentation. Follow the steps below and use the compatible ALM language file.

Steps

1. Stop the ALM Service.
2. Go to following path:
   - Windows: <Deployment path>\webapps\qcbin\Help\doc_library   (**Default:** C:\ProgramData\HP\ALM\webapps\qcbin\Help\doc_library\doc_library)
   - Linux: <Deployment path>/webapps/qcbin/Help/doc_library (**Default:** /var/opt/HP/ALM/webapps/qcbin/Help/doc_library)

3. In the destination Help directory, rename following folders:
   - "online_help" → "online_help_eng"

4. Extract the zip file to your local directory and perform the following steps:
   a) Copy the following folders to the destination Help directory:
      - "online_help"

   b) Open the extracted "pdfs" folder and copy the pdf files. Paste the selected pdf files to the "pdfs" folder in the destination Help directory.

5. Start the ALM Service.
6. Open Microsoft Internet Explorer.
7. Select **Internet Options**.
8. Delete previously downloaded client files by cleaning the browser cache.
9. Connect to ALM with the substituted documentation.

Online help Limitations

The online help is partially localized for some of the languages. It may differ from language to language.

Language files

All Documentation and Online Help Language zip files can be found in the following link:

Chinese: KM02504194

French: KM02504189

German: KM02504190

Japanese: KM02504191

Korean: KM02504192

Portuguese: KM02504217

Russian: KM02504193

Spanish: KM02504198
