## Documentation Updates

To check for recent updates or to verify that you are using the most recent edition of a document, go to: <https://softwaresupport.hpe.com/>.

This site requires that you register for an HP Passport and to sign in. To register for an HP Passport ID, click **Register** on the HPE Software Support site or click **Create an Account** on the HP Passport login page.

You will also receive updated or new editions if you subscribe to the appropriate product support service. Contact your HPE sales representative for details.

## Support

Visit the HPE Software Support site at: <https://softwaresupport.hpe.com/>.

Most of the support areas require that you register as an HP Passport user and to sign in. Many also require a support contract. To register for an HP Passport ID, click **Register** on the HPE Support site or click **Create an Account** on the HP Passport login page.

To find more information about access levels, go to: <https://softwaresupport.hpe.com/web/softwaresupport/access-levels>.

**HPE Software Solutions Now** accesses the HPSW Solution and Integration Portal website. This site enables you to explore HPE Product Solutions to meet your business needs, includes a full list of Integrations between HPE Products, as well as a listing of ITIL Processes. The URL for this website is <https://softwaresupport.hpe.com/km/KM01702731>.

# Release Notes

**Software version:** 1.20

**Publication date:** October 2016

HPE IT Operations Compliance (ITOC) allows IT Operations users to track business service compliance against corporate and regulatory policies, making their environment compliant and therefore secure.

With HPE ITOC you can:

- Scan compliance of business services against policies in a repeatable and reliable manner
- Remediate non-compliance
- Provide an overall view of compliance status across policies and business services
- Track exceptions of resources to requirements in the Statement of Applicability (SoA)
- Track the lifecycle and revisions of policies, business services, controls, and SoAs

The HPE ITOC version 1.20 is a rebranded version of the previous HPE ITOC releases. No new features or enhancements have been introduced in this release.

## HPE ITOC Compliance Content

HPE ITOC is integrated with HPE Live Network (HPELN) to deliver compliance content. The HPE-provided Compliance Control Library and Compliance Regulatory Policies are available for download from HPELN. Your HPE Passport login credentials are required for viewing HPE ITOC product-related information and downloading the required compliance content offerings on HPELN.

HPE ITOC product-related information is located at

<https://hpln.hp.com/product/hp-it-operations-compliance/content>

## HPE ITOC documentation library

The following guides comprise the HPE ITOC documentation library. The information in these guides is also a part of the HPE ITOC online help. You can access the online help by clicking the **Help** icon in the HPE ITOC UI.

The HPE ITOC PDFs are available on the [HPE Software Support website](#).

- *HPE ITOC 1.20 Installation Guide* - Provides information about installing HPE ITOC and importing HPE LN content.
- *HPE ITOC 1.20 Upgrade Guide* - Provides information about upgrading HPE ITOC.
- *HPE ITOC 1.20 Support Matrix* - Provides platform information and other prerequisites for HPE ITOC installation and use.
- *HPE ITOC 1.20 Concepts Guide* - Explains key HPE ITOC concepts and terminology.
- *HPE ITOC 1.20 Administration Guide* - Provides information about maintenance windows and scheduling, organizations, administration user interface (UI), users, user roles and permissions, notifications, resource managers, and business and system configuration.
- *HPE ITOC 1.20 User Guide* - Describes the HPE ITOC dashboard and navigation, HPE ITOC policies, business services, controls and resources, scanning and remediation, and SoAs.
- *HPE ITOC 1.20 Reports User Guide* - Provides information about installing and configuring HPE ITOC, ITBA, and Vertica for HPE ITOC Reports.
- *HPE ITOC 1.20 Integration Guide* - Provides information about integrating HPE ITOC with other products.
- *HPE ITOC 1.20 Troubleshooting Guide* - Provides troubleshooting tips for known issues and recommended actions or workarounds.

## Known issues

The following table lists the known issues present in this release.

ID	Issue
QCCR1D232550	<p>When HPE ITOC is upgraded from version 1.10 to version 1.20, sometimes the following message is displayed:</p> <p>Installation: Successful with errors</p> <p>You can ignore this message. The upgrade is successful despite the message being displayed.</p>
QCCR1D233365	<p>If you use the REST API to calculate the compliance score an error message is displayed. Please contact HPE Support to resolve this issue.</p>

# Send documentation feedback

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

## **Feedback on Release Notes (IT Operations Compliance 1.20)**

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to [hpe\\_itoc\\_docs@hpe.com](mailto:hpe_itoc_docs@hpe.com).

We appreciate your feedback!
