Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
ART Enterprise or ART Ent	means a license which allows Unlimited users of the content within your legal entity.
Course	means a learning module created and owned by HPE.
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on Licensee's purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Internal Use	means access and Use of the software for purposes of supporting your internal operations or functions.
LTU	means License To Use.
Named User	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
Publish	means to produce content in a format that can be made available for Use.
Unlimited or Unl	means without restrictions in terms of number of systems, devices or media, depending on the context.
Use	means to install, store, load, execute and display one copy of the software.

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HPE Adoption Readiness Tool (ART) Courses (previously called HP Adoption Readiness Tool Courses)

HPE ART Courses as described above contain two main deliverables: Published content and source content.

- The Published content includes Course modules, simulations, documents and a website template for deployment of content to Named Users.

- The source content includes the material that was used to create the Published content.

An HPE ART Course license grants the right to use the Course only in conjunction with the HPE ART Named User license.

HPE Adoption Readiness Tool (ART) Enterprise Learning Edition (ELE) Named Users

An HPE ART Enterprise Learning Edition Named User license allows You to a) view/read/consume Published ART ELE content b) create, manipulate, modify and Publish the source content of the HPE ART ELE Course or a non-HPE Branded course ; c) Publish additional outputs from the source content. (These outputs, which are not included in the Published source content, include test scripts, course packages for a Learning Management System (LMS) upload and student guides) of the HPE ART ELE Course or a non-HPE Branded course.

The quantity of HPE ART ELE Named Users purchased at a minimum must be equal to the number of users who will be viewing ART ELE content, including developers who will customize or create content. The ony exception is HPE ART ELE Named User 25001+/50 Pack, which allows up to 250,000 users for single order purchase

HPE Adoption Readiness Tool (ART) Named Users (previously called HP Adoption Readiness Tool Author Dev Kit)

An HPE ART Named User license allows You to a) view/read/consume Published ART content b) create, manipulate, modify and Publish the source content of the HPE ART Course or a non-HPE Branded course ; c) Publish additional outputs from the source content. (These outputs, which are not included in the Published source content, include test scripts, course packages for Learning Management System (LMS) upload and student guides) of the HPE ART Course or a non-HPE Branded course.

The quantity of HPE ART Named Users purchased at a minimum must be equal to the number of users who will be viewing ART content, including developers who will customize or create content.

Other HPE Adoption Readiness Tool (ART) Software

Only for those licenses previously purchased as HPE ART Course Enterprise (Ent) and/or HPE ART Author DevKit, the following terms apply:

HPE Adoption Readiness Tool (ART) Enterprise Learning Edition (ELE) Author Dev Kit

HPE Adoption Readiness Tool Enterprise Learning Edition Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the   quantity of HPE Adoption Readiness Tool Enterprise Learning Edition Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The HPE Adoption Readiness Tool Enterprise Learning Edition Author Dev Kit can be used to manipulate, modify and Publish HPE ART Course content purchased from HPE and can also be used to create content on other topics and third-party applications.

HPE Adoption Readiness Tool (ART) Author Dev Kit (previously called HP Adoption Readiness Tool Author Dev Kit)

HPE Adoption Readiness Tool Author Dev Kit is licensed on a Named User basis. Each developer will be considered a Named User and the quantity of HPE Adoption Readiness Tool Author Dev Kits purchased at a minimum must be equal to the number of developers who will be using the Software to customize or create content. The HPE Adoption Readiness Tool Author Dev Kit can be used to manipulate, modify and Publish HPE ART Course content purchased from HPE and can also be used to create content on other topics and third-party applications.

HPE ART Enterprise Courses (previously called HP ART Enterprise Courses)

HPE Adoption Readiness Tool Enterprise Courses are licensed on an ART Enterprise basis. Each of these software products contain two main deliverables: published content and source content.

- The Published content includes course modules, simulations, documents and a website template for deployment of content to internal users.

- The source content includes the material that was used to create the Published content. An HPE Adoption Readiness Tool Author Dev Kit is required in order to manipulate, modify and Publish the source content. With the HPE Adoption Readiness Tool Author Dev Kit, additional outputs can be Published (by you) from the source content. These outputs, which are not included in the Published source content, include test scripts, course packages for Learning Management System (LMS) upload and student guides.
