# HPE Network Automation Software

Software Version: 10.21  
Windows® and Linux® operating systems

## Fixed Defects Report

Document Release Date: December 2016  
Software Release Date: December 2016

## Legal Notices

### Warranty

The only warranties for HPE products and services are set forth in the express warranty statements accompanying such products and services. Nothing herein should be construed as constituting an additional warranty. HPE shall not be liable for technical or editorial errors or omissions contained herein.

The information contained herein is subject to change without notice.

### Restricted Rights Legend

Confidential computer software. Valid license from HPE required for possession, use or copying. Consistent with FAR 12.211 and 12.212, Commercial Computer Software, Computer Software Documentation, and Technical Data for Commercial Items are licensed to the U.S. Government under vendor's standard commercial license.

### Copyright Notice

© Copyright 2001-2016 Hewlett Packard Enterprise Development LP

### Trademark Notices

Adobe® is a trademark of Adobe Systems Incorporated.

AMD is a trademark of Advanced Micro Devices, Inc.

Intel® and Intel® Itanium® are trademarks of Intel Corporation in the U.S. and other countries.

Linux® is the registered trademark of Linus Torvalds in the U.S. and other countries.

Microsoft®, Windows®, and Windows Server® are U.S. registered trademarks of Microsoft Corporation.

Oracle and Java are registered trademarks of Oracle and/or its affiliates.

Red Hat® is a registered trademark of Red Hat, Inc. in the United States and other countries.

UNIX® is a registered trademark of The Open Group.

### Oracle Technology – Notice of Restricted Rights

Programs delivered subject to the DOD FAR Supplement are 'commercial computer software' and use, duplication, and disclosure of the programs, including documentation, shall be subject to the licensing restrictions set forth in the applicable Oracle license agreement. Otherwise, programs delivered subject to the Federal Acquisition Regulations are 'restricted computer software' and use, duplication, and disclosure of the programs, including documentation, shall be subject to the restrictions in FAR 52.227-19, Commercial Computer Software-Restricted Rights (June 1987). Oracle America, Inc., 500 Oracle Parkway, Redwood City, CA 94065.

For the full Oracle license text, see the license-agreements directory on the NA product installer bundle.

## Documentation Updates

The title page of this document contains the following identifying information:

- Software Version number, which indicates the software version.
- Document Release Date, which changes each time the document is updated.
- Software Release Date, which indicates the release date of this version of the software.

To check for recent updates or to verify that you are using the most recent edition of a document, go to:  
<https://softwaresupport.hpe.com/group/softwaresupport/search-result?keyword=>.

This site requires an HP Passport account. If you do not have one, click the **Create an account** button on the HP Passport Sign in page.

## Support

Visit the HPE Software Support web site at: <https://softwaresupport.hpe.com>

This web site provides contact information and details about the products, services, and support that HPE Software offers.

HPE Software Support provides customer self-solve capabilities. It provides a fast and efficient way to access interactive technical support tools needed to manage your business. As a valued support customer, you can benefit by using the support web site to:

- Search for knowledge documents of interest
- Submit and track support cases and enhancement requests
- Download software patches
- Manage support contracts
- Look up HPE support contacts
- Review information about available services
- Enter into discussions with other software customers
- Research and register for software training

Most of the support areas require that you register as an HP Passport user and sign in. Many also require a support contract. To register for an HP Passport ID, go to <https://softwaresupport.hpe.com> and click **Register**.

To find more information about access levels, go to:

<https://softwaresupport.hpe.com/web/softwaresupport/access-levels>

# About This Document

This document is for the Windows® and Linux® operating systems.

**Software version:**10.21

**Publication date:** December 2016

This document is an overview of the defects fixed in HPE Network Automation Software (NA). This document contains the following information:

- ["Defects Fixed in This Release" on the next page](#)

# Defects Fixed in This Release

The reference number for each fixed defect is the change request (QCCR) number. For detailed information about the fixed defects, visit [HPE Software Support Online](#), or contact your Support representative.

The following table lists the defects fixed in this release:

## Fixed Defects

Defect	Symptom	Area of Modification
<a href="#">QCCR1B135856</a>	NA renders "%F5" as "ö" when displaying a configuration	Device Management
<a href="#">QCCR1B142535</a>	Unwanted deletion of files on a device occurs while running the Update Device Software task	Core Application Server
<a href="#">QCCR1B144570</a>	NA incorrectly identifies the viewing of policies and rules as an update	Policy Manager
<a href="#">QCCR1B144659</a>	While running the Update Device Software task on multiple devices, the Image Set field does not display anything when Flash is disabled	Software Update Center
<a href="#">QCCR1B144723</a>	The NA administrator user is unable to adjust the priority of an Email Report task created by another user	User Management
<a href="#">QCCR1B145255</a>	A script change event is generated erroneously when a user views a policy	Policy Manager
<a href="#">QCCR1B145289</a>	Some groups are missing from the "list groups -type device" API command	Core Application Server
<a href="#">QCCR1B145428</a>	The Satellite agent fails to start	MSP Gateway/Satellite
<a href="#">QCCR1B145491</a>	NA does not display the last user who deleted a policy/diagnostic or script	Policy Manager
<a href="#">QCCR1B145663</a>	Password appears in clear text for the \$tc_device_password\$ variable of an advanced expect script	Core Application Server
<a href="#">QCCR1B145699</a>	Issues with regular expression searches	Searching
<a href="#">QCCR1B144046</a>	An error message indicating that there is a key exchange failure appears while connecting to a device	Core Application Server
<a href="#">QCCR1B144083</a>	The 12.x Router driver does not fail when invalid input is detected	Driver Layer
<a href="#">QCCR1B146171</a>	The free memory displayed for an Update Device Software task	Software Update

### Fixed Defects, continued

Defect	Symptom	Area of Modification
	is incorrect	Center
QCCR1B146208	The 'check policy compliance' API call should accept the Device ID as a parameter	Integration API
QCCR1B146247	Issue with running Python script in NA	User Management
QCCR1B146249	Searching for compliance and sort the output by "IP Address" gives a UUID error	Searching
QCCR1B146348	Edit core throws error on getCSRFFormToken	MSP Gateway/Satellite
QCCR1B146367	The detect device boot diagnostic should not update the topology data	Core Application Server
QCCR1B146371	Request to port QCCR1B142345 for NA 10.11	Device Management
QCCR1B146281	NA fails to take snapshot of HPN Comware 7 devices	Device Management
QCCR1B146450	Snapshot tasks on Cisco LWAP devices are not successful	Driver Layer
QCCR1B146543	Opening a Policy list with a user having multiple permissions causes an error (ORA-01795)	Database
QCCR1B146994	Mask community strings option does not mask per task credentials	NA Console
QCCR1B146997	A Diagnostic created by a user should appear under the "Diagnostic Type" field	Reporting
QCCR1B146098	Reporting issue when searching for interface/port-module mapping	Reporting
QCCR1B147047	Regardless of the options provided, device discovery tasks schedule via 10.x API are scheduled asynchronously	CLI
QCCR1B147071	Deploy configuration error appears for a Cisco device	Core Application Server
QCCR1B147089	Formatting errors in the Summary report generated by the Create Summary Report task	Reporting
QCCR1B147292	A policy for a switch is being incorrectly applied to a router	Core Application Server
QCCR1B147138	The NA applications hang	Database

**Fixed Defects, continued**

Defect	Symptom	Area of Modification
<a href="#">QCCR1B139614</a>	NA-LDAP integration issues	Integration API
<a href="#">QCCR1B141196</a>	JS driver layer does not allow granular SSH method	Device Management
<a href="#">QCCR1B147565</a>	An archived user still appears in the task approver list	Workflow
<a href="#">QCCR1B147310</a>	Issues displaying task approval requests	Reporting
<a href="#">QCCR1B147521</a>	If a parent task is run with task-specific credentials, all the related child tasks should also be run with the same credentials	Software Update Center
<a href="#">QCCR1B147654</a>	User is unable to view the tasks waiting for approvals	Workflow
<a href="#">QCCR1B147582</a>	The device provision task template throws the NullPointerException error	Templates
<a href="#">QCCR1B147655</a>	Policy Rules RegEx method to capture and use text	Scripting & Diagnostics
<a href="#">QCCR1B147722</a>	User is unable to email reports from the User and System Reports page	Reporting
<a href="#">QCCR1B147769</a>	An Advanced script fails to connect to devices	Scripting & Diagnostics
<a href="#">QCCR1B147869</a>	Request to have a mandatory check box for the API names in Custom or Enhanced custom fields	Integration API
<a href="#">QCCR1B145804</a>	An error indicating title integer limitation is displayed on EventID	Core Application Server
<a href="#">QCCR1B147906</a>	The device credentials are not masked if searching for devices with "Configuration Text" field is checked by a non-admin user	Searching
<a href="#">QCCR1B147986</a>	User permissions do not work correctly	User Management
<a href="#">QCCR1B145644</a>	User is able to create duplicate scripts (with same characteristics and names)	Scripting & Diagnostics
<a href="#">QCCR1B148442</a>	An error occurs when an administrator user tries to delete own AAA credentials	User Management
<a href="#">QCCR1B148857</a>	Snapshot with checkpoint clears the duplex data	Core Application Server
<a href="#">QCCR1B149037</a>	Multiple problems with backing up the devices software	Driver Layer
<a href="#">QCCR1B149040</a>	The \$TaskID\$ variable is not populated when the Event Notification and Response Rule Approval tasks are deleted	Scheduler

### Fixed Defects, continued

Defect	Symptom	Area of Modification
<a href="#">QCCR1B149084</a>	An Admin user is unable to see or edit private groups in the API/CLI	CLI
<a href="#">QCCR1B149623</a>	The command script tasks fail to read all the rows of CSV, and run only on one device	Scripting & Diagnostics
<a href="#">QCCR1B143533</a>	The image set selection does not work while running the Update Device Software task for more than 700 devices	Core Application Server
<a href="#">QCCR1B145665</a>	Use task specific credentials in advanced scripts	Device Management
<a href="#">QCCR1B148776</a>	Need information about whether hmac-sha2-256 algorithm can be enabled in NA Gateway on a satellite server	MSP Gateway/Satellite

# We appreciate your feedback!

If you have comments about this document, you can [contact the documentation team](#) by email. If an email client is configured on this system, click the link above and an email window opens with the following information in the subject line:

**Feedback on Fixed Defects Report, December 2016 (Network Automation Software 10.21)**

Just add your feedback to the email and click send.

If no email client is available, copy the information above to a new message in a web mail client, and send your feedback to [network-management-doc-feedback@hpe.com](mailto:network-management-doc-feedback@hpe.com).
