Dear Customer,

Micro Focus is announcing the extension of Committed Support of HP Data Protector 9.0x effective as of the date set forth below.

This letter is for HP Data Protector support customers worldwide, to inform you of our end of support extension plans.

## End of Support

Micro Focus is committed to providing the highest level of customer care to you while you determine your future strategy for your HP Data Protector products.

Key program dates listed below for HP Data Protector are based on the Micro Focus time-based support policy under which end-of-support dates are announced as new product versions are released. Our goal is to provide you with a clear visibility into the support time-line of software products, enabling you to use this information to plan, test, and deploy new product versions. For more information, check our [Software Support Policy](#).

Please read below for the updated timelines and support options that are now available to you:

<b>DATE</b>	<b>PROGRAM ACTIVITY</b>
<b>Previously Announced Support Timeline</b>	
Jun 30, 2018	End of Committed Support for Data Protector 9.0x
Jun 30, 2020	End of Extended Support for Data Protector 9.0x
Jun 30, 2024	End of Self-Help Support with Rights to New Versions for Data Protector 9.0x
<b>Updated Support Timeline:</b>	
Dec 31, 2018	End of Committed Support for Data Protector 9.0x
Dec 31, 2020	End of Extended Support for Data Protector 9.0x
Dec 31, 2024	End of Self-Help Support with Rights to New Versions for Data Protector 9.0x

Please refer to **Appendix A** for definition of terms for product obsolescence and **Appendix B** for the list of affected Data Protector product numbers.

## More information

Should you have any questions about this end of support extension communication, or for assistance in understanding the options available to you, please contact your local Micro Focus sales representative or Micro Focus business partner. When providing information, please include your name, country, phone number, company name, product number and your Micro Focus service agreement identifier or Micro Focus system handle.

In addition, for technical assistance and information, please visit Software Support Online: [Micro Focus.com/software/support](https://microfocus.com/software/support)

Micro Focus once again wishes to thank you for choosing HP Data Protector 9.0x. We appreciate your business and look forward to continuing to serve your business needs in the future.

Sincerely,  
Micro Focus

## Appendix A: Definitions

This product version obsolescence is covered by version 5 of our Release & Support policy. Definitions of terms are provided by the product version obsolescence guidelines documented at [hpe.com/software/support-lifecycle](https://hpe.com/software/support-lifecycle)

### Product Support

Product Support is the reactive engagement of regional support resources (Support Center) and division support resources (Lab), in accordance with your purchased support plan, for the resolution of product defects, plus product enhancements for a specific product version. This includes investigation of newly reported defects and if appropriate, development of defect fixes and making these available for customers via patches. The Micro Focus product teams (Lab) will review and either approve or deny requests for defect fixes and enhancements (including additional support for newly-released operating system versions).

While Micro Focus investigates all problems and issues raised for products covered under Product Support, customers may be required to install the most current version or patches as part of the troubleshooting process.

Version Maturity may apply to specific versions of Micro Focus products. Version Maturity means that, for a specific product version, no further enhancements or changes to functionality is planned, nor are any further platform refreshes

planned in order to update that product version to support current or future operating systems, operating system versions or hardware platforms.

#### **End of Committed Support Date**

End of Committed Support (EOCS) Date is the last date software maintenance, installation and configuration assistance, and other standard support services will be accepted for the specified product release (as specified by the version numbering). EOCS also means the last date Software Change Requests (SCRs) will be accepted for a specified Version of a Product. After the EOCS date, all SCRs will be planned for future versions, as applicable. Current patches for the version of the product reaching EOCS will remain available for electronic download for a reasonable period of time.

#### **End of Extended Support Date**

Extended Support is provided for an additional 2 years after EOCS Date. Extended Support consists of web-based access to the online support Knowledge Base, which contains technical information for Micro Focus products including white papers, existing patches and known problems for a specific product version.

Extended Support is limited to:

- Around the clock self-solve support
- Access to technical support engineers

Access to existing patches and hot-fixes created while the product version was in Committed Support. No new enhancement requests, patches, fixes, document changes or platform certifications will be made for product versions in Extended Support.

#### **Self-Help Support with Rights to New Versions**

Self-Help Support with Rights to New Version is an integral component of all software support contracts. Self-Help Support with Rights to New Versions consists of web-based access to the online support Knowledge Base, which contains technical information for Micro Focus products including white papers, existing patches and known problems for a specific product version. Upon the expiration of Extended Support for a product or product version, and for which a successor product or product version is commercially available, Micro Focus offers a minimum of four (4) years of Self-Help Support with Rights to New Versions.

#### **Dependent Components and Third-Party Products**

In some instances support for specific Micro Focus product(s) and/or version(s) may run longer than the support for underlying operating system(s), adjacent/integrated application(s) or version(s). In this event, it is Micro Focus's intent to communicate with affected Micro Focus product/product version customers in a timely manner. However, there are cases where Micro Focus does not receive notification of the End-of-Support for these products (operating system(s) or adjacent/integrated application(s), or version(s)) in advance of the general public. In any case, should the underlying operating system(s), adjacent/integrated application(s) or version(s) become unsupported by its

developer, support for the affected Micro Focus product/product versions will immediately be limited to self-solve support available through Software Support Online, and Telephone Support associated with questions concerning a product's/product version's functionality and/or interoperability in line with the said product's/product version's original parameters/requirements at the time of release. Any product updates and/or fixes will be limited to those already available. No additional updates, patches or fixes will be engineered. Should said product/product version operate or integrate with other still supported, underlying operating system(s), adjacent/integrated application(s) or version(s), support for said product/product version on any remaining supported platform(s), supported adjacent/integrated application(s), or supported version(s) will continue unaffected, or through the planned End-of-Support date, if one has been announced.

## Appendix B: Affected Product SKUs

SKU PIN	SKU Description
TD586EAE	HP Data Protector 9.00 Eng SW E-Media
H7P26BAE	HP DP Management Pk 9.00 Eng SW E-Media
TD586EFE	HP Data Prot 9.00 French SW E-Media
TD586EJE	HP Data Prot 9.00 Japanese SW E-Media
TD586ESE	HP Data Prot 9.00 S.Chinese SW E-Media
