Definitions

Capitalized terms not otherwise defined in this ALA document are defined in the governing agreement.

TERM	DEFINITION
Casual Named User or Csl Nmd User	means a Named User that may occasionally access APIs, create and view requests, update only the requests the user created, view portals, and run/view reports.
E-LTU and E-Media	means products which are electronically delivered only, and as such any reference to FOB Destination or delivery methods that are stated on your purchase order other than electronic shall be null and void with respect to these E-LTU or E-Media products.
Implementation	means an installation of the software on a single Server or installed on a cluster of Servers which work together as a single installation of the software.
Instance	means each Implementation of the application installed on a Server.
LTU	means License To Use.
Named User or Nmd User	means a specific individual authorized by you to access the software regardless of whether they are actively using the software.
Server or Svr	means any designated computer system in which an Instance or Instances of the software is installed.

Software specific license terms

Software products with software specific license terms are described below. Software products covered by this ALA document (as listed above) and not covered in this section do not have software specific license terms.

HPE IT Business Analytics (previously called HP IT Business Analytics, HP IT Executive Scorecard and HP Executive Scorecard)

HPE IT Business Analytics is licensed by Casual Named User or by Named User. HPE IT Business Analytics includes a license to HPE Anywhere limited edition software. Use of the remote access capabilities of the HPE Anywhere limited edition software is restricted to the HPE IT Business Analytics software only and cannot be used with any other HPE product or third party products.

Except for the HPE IT Business Analytics without Business Objects licenses, HPE IT Business Analytics includes a license to use SAP Web Intelligence and SAP Xcelsius Enterprise (“SAP Software”). Use of the SAP Software is limited solely to connecting to data, universes, and Web Intelligence reports containing IT management data defined by HPE IT Business Analytics. The use of the SAP Software to connect to any content, report, or universe which contains any data other than that described above is strictly prohibited. Without limiting the generality of the foregoing, you may not use the SAP Software to connect to: any Business Objects™ universes other than the universes supplied with the HPE IT Business Analytics or Web Intelligence reports containing any data not related to HPE IT Business Analytics. When using the SAP Software you will be prompted to confirm in a user interface your compliance with this license requirement.

HPE IT Business Analytics includes a license to use an HPE Vertica Enterprise Edition Instance (“Vertica Instance”). Use of the Vertica Instance is limited solely to HPE IT Business Analytics and cannot be used to integrate or host schemas for other software products.
